SOLICITATION NUMBER: AGR1241

Addendum Number: 01

The purpose of this addendum is to modify the solicitation identified as ("Solicitation") to reflect the change(s) identified and described below.

Applicable Addendum Category:

- Modify bid opening date and time
- Modify specifications of product or service being sought
- Attachment of vendor questions and responses
- Attachment of pre-bid sign-in sheet
- Correction of error
- Other

Description of Modification to Solicitation:

The attached pricing page was omitted from the original solicitation in error. Please complete the attached pricing page and return it with your bid.

Additional Documentation: Documentation related to this Addendum (if any) has been included herewith as Attachment A and is specifically incorporated herein by reference.

Terms and Conditions:

1. All provisions of the Solicitation and other addenda not modified herein shall remain in full force and effect.
2. Vendor should acknowledge receipt of all addenda issued for this Solicitation by completing an Addendum Acknowledgment, a copy of which is included herewith. Failure to acknowledge addenda may result in bid disqualification. The addendum acknowledgement should be submitted with the bid to expedite document processing.

ADDENDUM # 1

Questions & Answers for AGR1241

1. During the meeting the subject of installing water proof receptacles in some locations versus the corrosive resistant style was discussed. Will there be areas identified as to where the waterproof receptacles will be located.

Answer: NO

2. Contractors will be working in the feedlots to conduct the required work. Please verify that the livestock will be moved and the feedlot cleaned out to permit personnel and mobile equipment to be used in those areas.

Answer: Yes, one-half of the barn at a time

3. During the meeting it was stated that the owner will remove all of the existing conduit, wiring, lighting, equipment and materials that are being replaced. The contractor is not to conduct any removal other than what is absolutely necessary to complete the work described in the RFQ. Please verify

Answer: Correct

4. All of the existing lighting and equipment is to remain in service until the new is installed. The final switch over is to be held to an absolute minimum and must be serviceable before leaving the jobsite once started. This is to be coordinated with the farm superintendent. Please verify.

Answer: Yes

5. An electrical power drop with disconnect meeting current electric codes for a future auxiliary diesel generator is to be installed at a location designated by the owner. Please verify

Answer: Yes

6. Please confirm which electric company is to be contacted to conduct the final acceptance inspection.

Answer: Mon power.
