ADMINISTRATIVE AND CONTRACTUAL TERMS

PURPOSE: The West Virginia DEPARTMENT OF Health and HUMAN RESOURCES (DHHR), Bureau for Children and Families (BCF) is seeking bids for a qualified vendor to provide Open-End contract for a web-based **Employment and Income Verification Services** for all Department of Health and Human Resources divisions, programs, and county offices. Proposals submitted in response to this solicitation must comply with the instructions and procedures contained herein.

PROJECT BACKGROUND: West Virginia Department of Health and Human Resources (WVDHHR), Bureau for Children and Families (BCF) is responsible to ensure accurate payments and appropriate services are provided to individuals under the Supplemental Nutritional Assistance Program (SNAP), WV WORKS and Medicaid. All of these major economic services programs require income verification at application and redetermination. Earned income cases account for roughly 40% of all households applying for benefits. The collection of paystubs and employer verification documents is often difficult and time consuming for applicants and agency eligibility staff, which cause payment verification to be error prone. WVDHHR currently faces considerable financial sanctions from United States Department of Agriculture (USDA) for high SNAP program error rates.

WVDHHR is now accepting applications and redeterminations for economic services programs on-line, on the telephone and through the mail. A face-to-face interview in a local WVDHHR office is no longer required. Recipients can no longer hand over pay stubs during the interview. When paystubs are not presented, the eligibility workers are required by federal regulations to mail a written request for income verification to the applicant or recipient. They must then mail or bring these pay verifications to the local office or change center.

Several companies currently offer instant on-line verification of payroll information. Instant access to payroll information would greatly improve customer service. Recipients would not have to wait for critically needed benefits while pay information is obtained. Efficiency of eligibility workers would be greatly improved by eliminating the need for requested-information-notice. Currently, applications must be set aside and worked again when the payroll information is returned. Identifying, sorting and distributing information when it is returned is labor intensive. Lost or misplaced pay stubs delay benefits and consume much worker time. Postage costs of the requested information notice are considerable.
