ADDRESS CHANGES TO BE NOTED ABOVE

WHEN RESPONDING TO SOLICITATION, INSERT NAME AND ADDRESS IN SPACE ABOVE LABELED 'VENDOR'

SOLICITATION NUMBER: COR61579
Addendum Number: 1

The purpose of this addendum is to modify the solicitation identified as COR61579 ("Solicitation") to reflect the change(s) identified and described below.

Applicable Addendum Category:

- ☒ [X] Modify bid opening date and time
- ☐ [] Modify specifications of product or service being sought
- ☒ [X] Attachment of vendor questions and responses
- ☒ [X] Attachment of pre-bid sign-in sheet
- ☐ [] Correction of error
- ☐ [] Other

Description of Modification to Solicitation:

To provide vendors questions and responses, mandatory pre-bid sign-in sheets and extend the bid opening date.

Additional Documentation: Documentation related to this Addendum (if any) has been included herewith as Attachment A and is specifically incorporated herein by reference.

Terms and Conditions:

1. All provisions of the Solicitation and other addenda not modified herein shall remain in full force and effect.
2. Vendor should acknowledge receipt of all addenda issued for this Solicitation by completing an Addendum Acknowledgment, a copy of which is included herewith. Failure to acknowledge addenda may result in bid disqualification. The addendum acknowledgement should be submitted with the bid to expedite document processing.

ATTACHMENT A**Questions:**

Q1: Will all wiring for this project be required to be in conduit?

A1: Yes as per the specifications.

Q2: It was mentioned that the existing conduit from the 1st floor to the penthouse would be available for use to run camera wire -- is this correct and who will remove the existing wire so it can be used?

A2: Correct, the demolition contractor has been directed to remove the existing wire and leave the conduit in place.

Q3: I would like to provide the attached Avigilon Camera system for review as a substitution.

A3: The DVRs and software will not be compatible with the SMS software that is specified, thus it will not integrate with the access control seamlessly. With the SMS DVRs, when someone uses a credential at a reader, it is capable for them to come on and record a picture of who is at the opening and timestamp it as well. If someone tries a credential that is not valid it will also do this and send a message that someone tried a card that was not in the system. It is our belief that the substituted DVRs cannot do this with the SMS system. The cameras will integrate into the access control system and will be an acceptable substitution.

Q4: The plans and specifications do not mention a monitor or monitors for viewing the cameras. Is a monitor required?

A4: Monitors will not be required in this project. The DOC has monitors for viewing the cameras.

Other Items:

1. Pre-bid sign in sheets attached.
2. The bid opening has moved from October 23, 2012 to October 31, 2012. The bid opening time remains at 1:30 pm.
