Failure to acknowledge addenda may result in bid disqualification. The addendum acknowledgement should be submitted with the bid to expedite document processing.

## ATTACHMENT A

**Questions:**

Q1: With regard to the lead contaminated wood, brick and stone on these houses. Do you want receipts from where this material is taken?

These materials have to be placed in a lined container. When the container is full a TCLP sample has to be taken by a risk assessor. The sample is then sent off for analysis which takes approximately 5 days. If the lead is 5 ppm or greater, the material has to be hauled off by someone authorized to dispose of hazardous waste to a hazardous waste land fill. If it is less than 5 ppm, the material can be taken to a regular land fill provided there is documentation that verifies the ppm of lead is less than 5 ppm. Failure to follow these procedures could result in a fine of \$10,000.00 per load for any materials that have been taken from the project.

A1: Yes, the contractor will be required to provide receipts to show that the materials were dumped properly.

Q2: All individuals working on this project are required to have a minimum of 2 hours of training for lead awareness. Will you require documentation for each worker that is assigned to this project?

A2: Yes, please provide a certificate for each worker assigned to this project to verify that they have had the required training.
