SOLICITATION NUMBER: DEP15986
 Addendum Number: No. 1

The purpose of this addendum is to modify the solicitation identified as ("Solicitation") to reflect the change(s) identified and described below.

Applicable Addendum Category:

- Modify bid opening date and time
- Modify specifications of product or service being sought
- Attachment of vendor questions and responses
- Attachment of pre-bid sign-in sheet
- Correction of error
- Other

Description of Modification to Solicitation:

Addendum for the "Simpson Creek Highwall, Tipple and Refuse" Project issued to publish the following information.

1. Q and A's from Pre-Bid Meeting
2. Revised Spec's
3. Revised Contractor Bid-Sheet
4. Pre- Bid Sing in Sheet

Additional Documentation: Documentation related to this Addendum (if any) has been included herewith as Attachment A and is specifically incorporated herein by reference.

Terms and Conditions:

1. All provisions of the Solicitation and other addenda not modified herein shall remain in full force and effect.
2. Vendor should acknowledge receipt of all addenda issued for this Solicitation by completing an Addendum Acknowledgment, a copy of which is included herewith. Failure to acknowledge addenda may result in bid disqualification. The addendum acknowledgement should be submitted with the bid to expedite document processing.

ATTACHMENT A

**Addendum #1 - Questions During Pre-Bid Meeting
Simpson Creek Highwall, Tipple & Portals
DEP15986**

The following comments and questions were identified from the Pre-Bid Conference. The answers provided herein take precedence over verbal answers at the PBC should there be any conflict between the two.

Questions:

1. **Q.** There was a question concerning the level of assurance that could be provided for the presence of mine entries on Site 1 that would actually have mine seals installed in consideration of the large amount of excavation that was associated with the installation of the mine seal.
 - A.** A Wet or Modified Mine Seal will be installed at each mine seal location shown on the Plans on Site 1 in reasonably close proximity to the elevations shown.

2. **Q.** There was a question regarding the pH of the mine drainage from the mine seal installation locations.
 - A.** Water analysis, including pH, is attached. Refer to the existing conditions sheets in the plans to correlate the Sample ID with the location.

3. **Q.** There was a question regarding what the ramifications to the scope of work would be if the A.C.O.E. Permit is not obtained.
 - A.** The work associated with Collection Channel 5-1 and 5-2 is the area that requires an A.C.O.E. Permit and cannot be completed without approval of the permit.

4. **Q.** There was a question concerning the manner of compensation for the installation of the 6' x 6' x 3.5' concrete transition box between the 30" dual HDPE pipes and the box culvert.
 - A.** As per Section 7.4.6 of the Specifications, this work is included in the unit price bid for Item 7.10.

5. **Q.** There was a question regarding the existing waterline observed on Site 5 relative to the installation of the box culvert.
 - A.** This waterline will be impacted by the installation of the box culvert, and as such, shall be relocated as necessary to allow for the installation of the box culvert. Payment for relocation shall be at the approved invoice cost from the affected utility.

2012 OCT -2 AM 10:02
 HEADQUARTERS

RECEIVED AM

The Design Plans have been revised to address issues related to the WVDOH and ACOE Permits. As such the attached revisions shall be noted and/or apply as follows:

Note that the outlet of Channel 5-2 as shown on Site 5 Reclamation Plan (Sheet 9) and the Profile (Sheet 16) has been revised from the old layout shown on the tax map and mine map overlay.

Note that Sheet 13 has been deleted from the plans and that the Title Sheet has been revised to reflect this deletion.

Note the addition of Item 15 to the General Notes on Sheet 1.

Revisions that apply to the plans related to the deletion of Sheet 13 are that Channel 3-1 as shown on the Reclamation Plan (Sheet 7), the Tax Map Overlay (Sheet 30) and the Mine Map Overlay (Sheet 33) shall be deleted.

Channel 3-1 and the 18" RCP Extension have been deleted from the plans and as such, all reference to them in the plans shall also be deleted.

Reference to the 18" RCP Extension in Sections 7.3.7, 7.4.3 and 7.4.7 of the Specifications shall be deleted.

Approximately 150 feet of the access road on Site 1 has been paved since the design for this project was completed. Due to this development, this portion of the access road shall be rehabilitated with 2" of Wearing IV Asphalt at the completion of construction activities on Site 1 that will adversely impact the condition of the pavement.

The project will be bid as per the attached Revised Bid Schedule.

The Contractor shall have 120 days from the date of the Notice to Proceed to complete construction activities on the project. The \$250.00 per day liquidated damages clause will be in effect after the 120 days. However, the total performance period will be 365 days from the date of the Notice to Proceed for invoicing purposes.
