# ATTACHMENT A

Addendum #1 - Questions During Pre-Bid Meeting

For DEP 15989

Swiss Portals

The following comments and questions were identified from the Pre-Bid Conference. The answers provided herein takes precedence over verbal answers at the PBC should there be any conflict between the two.

Because of the bat gate that is on this project, work on the gated portal can only be performed May 1 thru August 31.

There is an underdrain Item shown on the bid sheet that is not shown on the plans. This item is for the possible need of an underdrain in a wet area that may be encountered on the project area.

No utilities are known to exist on the site but Miss Utility must be called prior to construction.

There is an access road stone item on the bid sheet that is not shown on the plans. The 50 ton quantity is to use in areas where the existing access road needs additional support for equipment access.

The gate at the access road entrance will need to be removed and re-installed on new support posts so the gate will function properly. This will be incidental to the construction entrance.

All material encountered within the construction limits must be removed from the site to an approved landfill.

**Q1.** Can we bury any of the material on site?

**A1.** No. Only the cinder blocks can be buried. They must be busted into smaller pieces prior to burying them.

**Q2.** Is the contractor responsible for flushing the two 15" culverts located on site # 1 and site # 2?

**A2.** Yes. Both pipes are non-functioning and both needs cleaned to allow the drainage to flow to the receiving stream.

**This project shall be bid in accordance with the attached REVISED BID SHEET.**

The Contractor shall have 60 days from the date of the Notice to Proceed to complete construction activities on the project. The \$250.00 per day liquidated damages clause will be in effect after the 60 days. However, the total performance period will be 365 days from the date of the Notice to Proceed for invoicing purposes.
