**Addendum #1 - Questions During Pre-Bid Meeting
Hilderbrand Highwall
DEP16188**

The following is in response to issues and concerns that were brought up at the Pre-Bid Conference. The answers provided herein take precedence over verbal answers at the Pre-Bid Conference should there be any conflict between the two.

The backfilling of the highwall shall be as shown on the regrading plan in the design plans. The installation of Mine Drainage Conveyance Pipes has been included in the design to allow for the discharge of mine drainage from the mine seals beyond the outslope of the backfilled highwall.

The standard timber specification concerning the clearing and grubbing operation applies to this project.

Accessibility to the work associated with the subsidence feature above the top of the highwall is provided within the construction work limits.

The Contractor shall have 120 days from the date of the Notice to Proceed to complete construction activities on the project. The \$250.00 per day liquidated damages clause will be in effect after the 120 days. However, the total performance period will be 365 days from the date of the Notice to Proceed for invoicing purposes.
