**SOLICITATION NUMBER:** DEP16242  
**Addendum Number: 1**

---

The purpose of this addendum is to modify the solicitation identified as (“Solicitation”) to reflect the change(s) identified and described below.

**Applicable Addendum Category:**

- | Modify bid opening date and time
- | Modify specifications of product or service being sought
- | Attachment of vendor questions and responses
- | Attachment of pre-bid sign-in sheet
- | Correction of error
- | Other

**Description of Modification to Solicitation:**

1. To address questions and revisions regarding the above solicitation.
2. To provide a copy of the mandatory pre-bid meeting sign-in sheets.
3. To move the bid opening date;  
 from: 06/27/2013 @ 1:30 P.M.  
 to: 07/02/2013 @ 1:30 P.M.
4. To provide Addendum Acknowledgement

**Additional Documentation:** Documentation related to this Addendum (if any) has been included herewith as Attachment A and is specifically incorporated herein by reference.

**Terms and Conditions:**

1. All provisions of the Solicitation and other addenda not modified herein shall remain in full force and effect.
2. Vendor should acknowledge receipt of all addenda issued for this Solicitation by completing an Addendum Acknowledgment, a copy of which is included herewith. Failure to acknowledge addenda may result in bid disqualification. The addendum acknowledgement should be submitted with the bid to expedite document processing.

## Witcher Creek Portals and Refuse

DEP16242

Addendum #1

### PRE-BID MEETING QUESTIONS AND ANSWERS:

#### Question and Answers

- A. **Question:** Do we need to use limestone in the construction of channels, or may sandstone be used?

**Answer:** Sandstone or limestone may be used as long as the durability requirements are satisfied.

- B. **Question:** The specifications require 95% compaction, can the compaction be reduced?

**Answer:** As discussed during the meeting, it is our opinion the compaction specified for this project can be reduced from 95% to 90%. The suggested specification revision is provided below:

Section 8.4.16 Embankment fill, embankment subgrade materials, and trench or drainage structure backfill shall be compacted to at least 90% of Standard Proctor maximum dry density at a moisture content of not less than 2% below nor greater than 3% above optimum. Testing shall be at a frequency approved by the WVDEP. One test will be performed for each 250 CY of fill placed or one test per day during fill placement shall serve as a minimum if less than 250 CY of fill is placed in a day.

- C. **Question:** The specifications call for (HDPE) SDR 21 pipe, can HDPE corrugated pipe be substituted?

**Answer:** HDPE corrugated with smooth wall interior may be substituted for the HDPE SDR 21 pipe.

- D. **Question:** Has the water been tested on this project.

**Answer:** Yes, the results are in the specifications.

Note: Water test results are provided for informational purposes only. These test results reflect the conditions the day of sampling. The supplied testing results may not be the same at the time of construction.

### Comments and Clarification

- A. The Contractor will have 180 days from the date of the Notice to Proceed to complete construction activities on the project. The \$250 per day liquidated damages clause will be in effect after the 120 days. However, the total performance period will be 365 days from the date of the Notice to Proceed for invoicing purposes.
- B. The contractor is responsible for contacting Miss Utility and affected utility owners, prior to beginning work.
- C. The (DEP) shall reimburse the contractor for any required relocation or alterations to existing utilities. This reimbursement requires prior approval, and no markup on cost shall be permitted. The DEP shall only reimburse for the invoice amounts.
- D. The contractor will need to name eleven (11) parties as additional insured on their insurance policy.
- E. Submittal of cut sheets for material is required for all materials used on this project.
- F. A copy of the certified payroll must accompany applications for payment.
- G. Contractor is responsible for field verifying all measurements.
