Technical Questions

Q.1.) Restoring existing windows in lieu of replacements is the preferred option, maintain as much of original fabric as possible. It is recommended that window sills be replaced with white oak to match existing. Underlay w/flashing.

A.1. It is not recommended by owner to replace the windows sills or underlay with flashing.

"Alternates 1 and 2 request a price for "replacing" the windows on the South and North side gables respectively. Change this to "restoring" the windows, and trim which include stripping the old paint, priming, re-painting, re-glazing, re-screening, and making the window(s) operable. Use existing hardware where possible. Contractor shall submit restoration procedures and material list within 10 calendar days after receiving the Owner's Notice to Proceed."

Q. 2) The tried and proven system of re-installation enhancements is recommended per this type of application, with only modest additional costs. (see attachments).

A. This substitution request is found to be improper. Only Bids will be accepted that are based on the Project Manual, Pre-bid meeting, Specifications, and any Addendums.
