SOLICITATION NUMBER: DPS1340
Addendum Number: 2

The purpose of this addendum is to modify the solicitation identified as DPS1340 ("Solicitation") to reflect the change(s) identified and described below.

Applicable Addendum Category:

- [X] Modify bid opening date and time
- [] Modify specifications of product or service being sought
- [X] Attachment of vendor questions and responses
- [] Attachment of pre-bid sign-in sheet
- [] Correction of error
- [] Other

Description of Modification to Solicitation: Responses to vendor questions attached. Revised Pricing Page attached. The bid opening date has moved from June 18, 2013 to June 25, 2013.

Additional Documentation: Documentation related to this Addendum (if any) has been included herewith as Attachment A and is specifically incorporated herein by reference.

Terms and Conditions:

1. All provisions of the Solicitation and other addenda not modified herein shall remain in full force and effect.
2. Vendor should acknowledge receipt of all addenda issued for this Solicitation by completing an Addendum Acknowledgment, a copy of which is included herewith. Failure to acknowledge addenda may result in bid disqualification. The addendum acknowledgement should be submitted with the bid to expedite document processing.

ATTACHMENT A

QUESTIONS:

Q1: P2. It appears specification 0005 & 0006 are identical?

A1: Line Item No. 6 on Page 2 of the RFQ has been changed from "Lithium Polymer for Motorola XTS2500 Portable Radio" to "Nickel-Metal Hydride battery for Motorola APX 7000 Portable Radio." The Pricing Page has also been revised to correct the error. See Attachment B.

Q2: P22. Section 3.4.3 states "each battery must maintain a minimum of 80% of rated capacity for 24 months" which conflicts with the correct statement in 3.3.4 "80% of its rated capacity for 12 months" I believe 3.4.3 should state "each battery is warranted for 24 months against any defects in manufacturing or workmanship" Please clarify.

A2: To delete the following section in its entirety –

3.4.3 Nickel-Metal Hydride Battery for Motorola XTS-2500 portable radio must meet the following specifications: each battery shall be a 7.2 volts, 2700mAh, Nickel-Metal Hydride, each battery must maintain a minimum of 80% of rated capacity for 24 months, shall be a Honeywell H 9858 M, or equal.

And replace with the following –

3.4.3 Nickel-Metal Hydride Battery for Motorola XTS-2500 Portable Radio must meet the following specifications: each battery shall be a 7.2 volts, 2700 mAh, Nickel-Metal Hydride and shall be a Honeywell H 9858M, or equal.

A2a: To delete Section 3.3.4, following Section 3.4.3 on page 22 of the RFQ in its entirety. The section was incorrectly numbered.

3.3.4 Nickel-Metal Hydride battery for Motorola XTS-2500 portable radio shall be guaranteed to be free from defects in materials and workmanship and shall maintain a minimum of eighty (80) percent of its rated capacity for twelve (12) months from the date of shipment under normal use.

And replace with the following –

3.4.4 Nickel-Metal Hydride battery for Motorola XTS-2500 portable radio shall be guaranteed to be free from defects in materials and workmanship and shall maintain a minimum of eighty (80) percent of its rated capacity for twenty-four (24) months from the date of shipment under normal use.

Q3: P23. Section 3.5.3 specifies “7.2V, 2700mAh, Lithium-Polymer” as found in Honeywell, however that specification would be “7.2V, 3600mAh Lithium Polymer” Please clarify.

A3: The correct mAh should be 3600. It should read: “7.4 volt, 3600 mAh.”

Other Information:

1. The revised Pricing Page attached – Attachment B.
2. The bid opening date has moved from 06/18/2013 to 06/25/2013.
