SOLICITATION NUMBER: GSD136426

Addendum Number: 1

The purpose of this addendum is to modify the solicitation identified as ("Solicitation") to reflect the change(s) identified and described below.

Applicable Addendum Category:

- Modify bid opening date and time
- Modify specifications of product or service being sought
- Attachment of vendor questions and responses
- Attachment of pre-bid sign-in sheet
- Correction of error
- Other

Description of Modification to Solicitation:

To change bid opening date to March 12, 2013
To answer technical questions
And to provide the pre-bid sign in sheet

Additional Documentation: Documentation related to this Addendum (if any) has been included herewith as Attachment A and is specifically incorporated herein by reference.

Terms and Conditions:

1. All provisions of the Solicitation and other addenda not modified herein shall remain in full force and effect.
2. Vendor should acknowledge receipt of all addenda issued for this Solicitation by completing an Addendum Acknowledgment, a copy of which is included herewith. Failure to acknowledge addenda may result in bid disqualification. The addendum acknowledgement should be submitted with the bid to expedite document processing.

ATTACHMENT A

GSD136426 Technical Questions and Answers

Q1. Existing field devices that are currently connected to the Johnson Control Panel in the Basement will not be compatible with the EST 3 System and will need to be changed to meet NFPA code. Is the change out of all these devices to be included in Total Contract Bid?

A1. The intent is to replace the existing FCI panel and power supplies by expanding the EST3 fire alarm system to include changing out devices to meet UL listing requirements.

Q2. Also at the pre bid it was suggested that there was an existing EST panel in the Basement. There is no EST panel only booster power supplies and a data circuit from the panel on the first floor.

A2. Please refer to Attachment A- Section 1.1: Project Information. The expansion panel shall be located near the existing Johnson Control Panel in the basement.

Q3. What about the disposal and removal of the old equipment?

A3. Vendor is responsible for removal and disposal of old equipment.

Q4. Also if upgrade is to bring entire building (buildings) up to NFPA and West Virginia Fire Code, this may require adding devices, relocating devices ... etc. who is responsible for patching holes, walls etc? Are there any special requirements from The Building Historical folks concerning treatment of marble, granite facades and the like?

A4. The intent is to remove and replace the existing FCI panel. The buildings are to be updated as they are renovated at a later date.

The Agency does not foresee any modifications to the building required during this project; therefore approval from the State Historical Preservation Office is not required. Should modifications be necessary, they must be approved by the Agency prior to proceeding.
