Technical Questions

- Q. 1.** There is a statement that Fabric Path is a needed. Fabric Path is a Cisco Proprietary function. Is TRILL or DCB acceptable as an alternative?
- A. 1.** Transparent Interconnect of Lots of Links (TRILL) is an acceptable alternative.
- Q. 2.** There is a statement that OTV is required. We have a datacenter interconnect technology. Is this acceptable as an alternative?
- A. 2.** The statement specifies OTV or Equal. Although we are unfamiliar with HP's Data Center Interconnect (DCI), DCI is a transport-agnostic solution that extends Layer 2 network connectivity across globally-located data center locations. The vendor must be able to deploy DCI between sites without changing or reconfiguring the agency's existing network design which currently consists of Cisco equipment on all of the system's endpoints. We use EIGRP as our internal routing protocol and are deploying multicast routing.
- Q. 3.** On the very first page of the Solicitation we are instructed to add our vendor name and address, on the bottom of the page it appears we need to sign and include Title, Date, Fein, and telephone number. Can you confirm this to be the case?
- A. 3.** Yes, vendors should complete this information in its entirety.
- Q. 4.** Can you confirm the number of hard copies required to be submitted? It appears to be one but need confirmation.
- A. 4.** One copy is required.
- Q. 5.** Is there any possible way to obtain a Word version of the RFQ's to simplify our responses back to you?
- A. 5.** The version released is the only version available.
- Q. 6.** What is the shipping address for this RFQ?
- A. 6.** The shipping address is referenced in section 6.1 of the specifications as; 1 Observatory Road, Green Bank, WV 24944.
