WHEN RESPONDING TO SOLICITATION, INSERT NAME AND ADDRESS IN SPACE ABOVE LABELED 'VENDOR'

SOLICITATION NUMBER: 6613C036

Addendum Number: 2

The purpose of this addendum is to modify the solicitation identified as (“Solicitation”) to reflect the change(s) identified and described below.

Applicable Addendum Category:

- Modify bid opening date and time
- Modify specifications of product or service being sought
- Attachment of vendor questions and responses
- Attachment of pre-bid sign-in sheet
- Correction of error
- Other

Description of Modification to Solicitation:

Issued to distribute: pre-bid sign-in sheet, vendor questions/agency responses, remove hipaa business associate addendum #38 language from the terms and conditions, and to change the bid opening date/time from: 07/24/2013 at 1:30 P.M. to 08/07/2013 at 1:30 P.M.

Additional Documentation: Documentation related to this Addendum (if any) has been included herewith as Attachment A and is specifically incorporated herein by reference.

Terms and Conditions:

1. All provisions of the Solicitation and other addenda not modified herein shall remain in full force and effect.
2. Vendor should acknowledge receipt of all addenda issued for this Solicitation by completing an Addendum Acknowledgment, a copy of which is included herewith. Failure to acknowledge addenda may result in bid disqualification. The addendum acknowledgement should be submitted with the bid to expedite document processing.

ATTACHMENT A

To answer Vendor posed questions.

Question #1 Item E calls for removal of pavement markings and has a unit of measure of each. Is this for the removal of arrows and symbols? Should there also be an item for removal of pavement markings with a unit of measure in feet? This would cover the removal of edge and centerlines if required.

Response #1 The intent of this item is the removal of pavement markings such as stop bars, turn arrows and similar items. Edge lines and center lines are typically painted and not included in this item. Section 3.2.7. the third paragraph currently reads: "If the removal of Pavement Markings is required,....."
Please change the third paragraph to read: "If the removal of Thermoplastic Pavement Markings is required,....."
Also, please change Contract Item E on all Districts' Pricing Pages to "Removal of Thermoplastic Pavement Markings". **

Question #2 Item C calls for Rutfill with a unit of measure of ton. The quantities are extremely large. Should these quantities be reduced to:
 less than 200
 200 to 500
 500 to 1000
 Greater than 1000

Response #2 Yes, this is an error on the Pricing Pages for all Districts. The Unit of Measure shall remain the same at "Ton" for Item C, Rut Fill; however, for all Districts, the range bid pricing shall be changed to:
 a) less than 200
 b) 200 - 500
 c) 501 - 1000
 d) greater than 1000 **

To answer Vendor posed questions. (continued)

Question #3 For Item J Mobilization, how should the mobilization be calculated? From the contractors storage lot to the county or what starting point should be used to calculate the mobilization?

Response #3 Item J., Mobilization is explained in Section 3.2.9. To further explain Mobilization is a Lump Sum Unit of Measure intended to compensate the Vendor for moving his equipment to the job site. The Vendor shall calculate the cost to move from their storage lot to the center of a county and provide that pricing as a Lump Sum for any jobsite location within that county. Mobilization will be paid one-way to the Contractor. For multiple projects requested on one Agency Release, mobilization will only be paid one time when projects are within seven miles of the first project. Any additional locations over the seven mile range shall be paid another mobilization based on the Vendor's bid Lump Sum Unit of Measure cost.

Question #4 On page 27 in the invitation it is mentioned a 3.2.4.4 Bond Coat I have looked in state specifications book and not find exactly what this material is?

Response#4 Bond Coat is currently covered in the Special Provision for Micro Special Provision 495 and not yet incorporated into the Standard Specs. Bond Coat shall be a Tack Coat material which shall have dilution rate of one part emulsion to two parts water.

****Please see Revised Pricing Pages attached for all Districts. Vendors should use these Revised Pricing Pages when submitting their bid packages.**
