A Vendor's act of marking all or nearly all of its bid as exempt is not sufficient to avoid disclosure and WILL NOT BE HONORED. Vendor's act of marking a bid or any part thereof as "confidential" or "proprietary" is not sufficient to avoid disclosure and WILL NOT BE HONORED. In addition, a legend or other statement indicating that all or substantially all of the bid is exempt from disclosure is not sufficient to avoid disclosure and WILL NOT BE HONORED. Vendor will be required to defend any claimed exemption for nondisclosure in the event of an administrative or judicial challenge to the State's nondisclosure. Vendor must indemnify the State for any costs incurred related to any exemptions claimed by Vendor. Any questions regarding the applicability of the various public records laws should be addressed to your own legal counsel prior to bid submission.

41. LICENSING: In accordance with West Virginia Code of State Rules §148-1-6.1.7, Vendor must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agency or political subdivision. Upon request, the Vendor must provide all necessary releases to obtain information to enable the Purchasing Division Director or the Agency to verify that the Vendor is licensed and in good standing with the above entities.

42. ANTITRUST: In submitting a bid to, signing a contract with, or accepting a Purchase Order from any agency of the State of West Virginia, the Vendor agrees to convey, sell, assign, or transfer to the State of West Virginia all rights, title, and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired

by the State of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to Vendor.

- 43. VENDOR CERTIFICATIONS:** By signing its bid or entering into this Contract, Vendor certifies (1) that its bid was made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership, person or entity submitting a bid for the same material, supplies, equipment or services; (2) that its bid is in all respects fair and without collusion or fraud; (3) that this Contract is accepted or entered into without any prior understanding, agreement, or connection to any other entity that could be considered a violation of law; and (4) that it has reviewed this RFQ in its entirety, understands the requirements, terms and conditions, and other information contained herein. Vendor's signature on its bid also affirms that neither it nor its representatives have any interest, nor shall acquire any interest, direct or indirect, which would compromise the performance of its services hereunder. Any such interests shall be promptly presented in detail to the Agency.

The individual signing this bid on behalf of Vendor certifies that he or she is authorized by the Vendor to execute this bid or any documents related thereto on Vendor's behalf; that he or she is authorized to bind the Vendor in a contractual relationship; and that, to the best of his or her knowledge, the Vendor has properly registered with any State agency that may require registration.

- 44. PURCHASING CARD ACCEPTANCE:** The State of West Virginia currently utilizes a Purchasing Card program, administered under contract by a banking institution, to process payment for goods and services. The Vendor must accept the State of West Virginia's Purchasing Card for payment of all orders under this Contract unless the box below is checked.

Vendor is not required to accept the State of West Virginia's Purchasing Card as payment for all goods and services.

- 45. VENDOR RELATIONSHIP:** The relationship of the Vendor to the State shall be that of an independent contractor and no principal-agent relationship or employer-employee relationship is contemplated or created by this Contract. The Vendor as an independent contractor is solely liable for the acts and omissions of its employees and agents. Vendor shall be responsible for selecting, supervising, and compensating any and all individuals employed pursuant to the terms of this Solicitation and resulting contract. Neither the Vendor, nor any employees or subcontractors of the Vendor, shall be deemed to be employees of the State for any purpose whatsoever. Vendor shall be exclusively responsible for payment of employees and contractors for all wages and salaries, taxes, withholding payments, penalties, fees, fringe benefits, professional liability insurance premiums, contributions to insurance and pension, or other deferred compensation plans, including but not limited to, Workers' Compensation and Social Security obligations, licensing fees, *etc.* and the filing of all necessary documents, forms and returns pertinent to all of the foregoing. Vendor shall hold harmless the State, and shall provide the State and Agency with a defense against any and all claims including, but not limited to, the foregoing payments, withholdings, contributions, taxes, Social Security taxes, and employer income tax returns.

- 46. INDEMNIFICATION:** The Vendor agrees to indemnify, defend, and hold harmless the State and the Agency, their officers, and employees from and against: (1) Any claims or losses for services rendered

by any subcontractor, person, or firm performing or supplying services, materials, or supplies in connection with the performance of the Contract; (2) Any claims or losses resulting to any person or entity injured or damaged by the Vendor, its officers, employees, or subcontractors by the publication, translation, reproduction, delivery, performance, use, or disposition of any data used under the Contract in a manner not authorized by the Contract, or by Federal or State statutes or regulations; and (3) Any failure of the Vendor, its officers, employees, or subcontractors to observe State and Federal laws including, but not limited to, labor and wage and hour laws.

- 47. PURCHASING AFFIDAVIT:** In accordance with West Virginia Code § 5A-3-10a, all Vendors are required to sign, notarize, and submit the Purchasing Affidavit stating that neither the Vendor nor a related party owe a debt to the State in excess of \$1,000. The affidavit must be submitted prior to award, but should be submitted with the Vendor's bid. A copy of the Purchasing Affidavit is included herewith.
- 48. ADDITIONAL AGENCY AND LOCAL GOVERNMENT USE:** This Contract may be utilized by and extends to other agencies, spending units, and political subdivisions of the State of West Virginia; county, municipal, and other local government bodies; and school districts ("Other Government Entities"). This Contract shall be extended to the aforementioned Other Government Entities on the same prices, terms, and conditions as those offered and agreed to in this Contract. If the Vendor does not wish to extend the prices, terms, and conditions of its bid and subsequent contract to the Other Government Entities, the Vendor must clearly indicate such refusal in its bid. A refusal to extend this Contract to the Other Government Entities shall not impact or influence the award of this Contract in any manner.
- 49. CONFLICT OF INTEREST:** Vendor, its officers or members or employees, shall not presently have or acquire any interest, direct or indirect, which would conflict with or compromise the performance of its obligations hereunder. Vendor shall periodically inquire of its officers, members and employees to ensure that a conflict of interest does not arise. Any conflict of interest discovered shall be promptly presented in detail to the Agency.
- 50. REPORTS:** Vendor shall provide the Agency and/or the Purchasing Division with the following reports identified by a checked box below:
- Such reports as the Agency and/or the Purchasing Division may request. Requested reports may include, but are not limited to, quantities purchased, agencies utilizing the contract, total contract expenditures by agency, etc.
 - Quarterly reports detailing the total quantity of purchases in units and dollars, along with a listing of purchases by agency. Quarterly reports should be delivered to the Purchasing Division via email at purchasing.requisitions@wv.gov.
- 51. BACKGROUND CHECK:** In accordance with W. Va. Code § 15-2D-3, the Director of the Division of Protective Services shall require any service provider whose employees are regularly employed on the grounds or in the buildings of the Capitol complex or who have access to sensitive or critical information

to submit to a fingerprint-based state and federal background inquiry through the state repository. The service provider is responsible for any costs associated with the fingerprint-based state and federal background inquiry.

After the contract for such services has been approved, but before any such employees are permitted to be on the grounds or in the buildings of the Capitol complex or have access to sensitive or critical information, the service provider shall submit a list of all persons who will be physically present and working at the Capitol complex to the Director of the Division of Protective Services for purposes of verifying compliance with this provision.

The State reserves the right to prohibit a service provider's employees from accessing sensitive or critical information or to be present at the Capitol complex based upon results addressed from a criminal background check.

Service providers should contact the West Virginia Division of Protective Services by phone at (304)558-9911 for more information.

52. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process.

The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:

- a. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
- b. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

53. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a “substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products.

This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

3. GENERAL REQUIREMENTS:

- 3.1 Contract Items and Mandatory Requirements:** Vendor shall provide Agency with the Contract Items listed below. Contract Items must meet or exceed the mandatory requirements as shown below.

3.1.1 GENERAL SPECIFICATIONS

To deliver the complete software/hardware Integration of the WVDOH Transportation Management Center's current off-the-shelf (COTS) with Nicholas, Braxton, Morgan, Pendleton, Clay, Doddridge and Taylor County 911 Centers. This integration would allow a system capable of integrating traffic incident information from multiple existing sources. This system is to give incident responders and traffic managers more complete and timely information to further improve incident response in West Virginia. The system will have the capability to integrate information from 911 centers, traffic operations centers, traffic signal systems and potentially state police fusion CAD systems.

All work shall be performed in accordance with WVDOH standards and the WVDOH Statewide ITS Architecture. Intent is to award to one vendor.

The system will provide a common operational picture across all of the areas being integrated. All of the information from all of the various sources will be available in a single, easily understandable interface. By having real-time access to 911 center data, traffic managers will be able to respond more quickly as events occur and situations change. Primary incident responders will have better information on what is happening in neighboring jurisdictions, and will be less burdened by requests for information from traffic managers.

3.1.2 SPECIFICATIONS

The specifications named herein, mandatory or non-mandatory, establish the acceptable level of quality only and are not intended to reflect a preference or favor any particular vendor.

3.1.3 MANDATORY SPECIFICATIONS:

All specifications preceded by "shall, will, and/or must" or are stated as a "minimum and/or maximum" are mandatory as stated in Purchasing Divisions Policies and Procedures. Any bid failing to meet any mandatory item shall be

immediately disqualified. Failure to respond in the appropriate evaluation section may also be grounds for immediate disqualification at the discretion of the State.

3.1.4 MATERIALS:

New Items and Warranties: All items must be new products (not used, remanufactured, refurbished, rebuilt or reconditioned, etc.) and are not to contain components that are not newly manufactured, unless specifically stated otherwise in the bid specifications. Bidder warrants all goods and services will meet or exceed applicable drawings specifications, samples and/or other descriptions given to the WVDOH, and will be free of any defects.

All proposed pricing shall include all equipment, product, labor, installation, removal or disposal and delivery. FOB destination.

The Contractor/Vendor shall provide the WVDOH ITS Coordinator with the following information prior to commencing award of the contract:

1. Names and mailing addresses of the suppliers and manufacturers.
2. Product information to be supplied.
3. Written confirmation from the manufacturer that the materials to be supplied meet all specified requirements.

3.1.5 BOND AND INSURANCE REQUIREMENTS:

Bid and Performance Bonds: See **Terms and Conditions of Section 8.**

3.1.6 CONTRACT DELIVERABLES:

This contract shall be considered complete when all designated County 911 Centers/PSAPS (Public Safety Answering Points) have been fully integrated within the West Virginia Division of Highway's TMC. This integration shall consist of documented incorporated transportation filtered CAD information via XML from each aforementioned County PSAP to the WVDOH TMC. All Counties which utilize NCIC terminals shall be reviewed and approved by the West Virginia State Police in addition to the WVDOH TMC approval. The Contractor shall have twelve (12) months to integrate designated County PSAPS from the date of the award of this contract.

3.1.7 LIQUIDATED DAMAGES:

According to West Virginia State Code 5A-3-4(8), firm agrees that liquidated damages shall be imposed at the rate of \$2,000 per workday, for failure to provide deliverables at the agreed upon date identified in the final contract. This clause shall in no way be considered exclusive and shall not limit the State or Agency's right to pursue to any other additional remedy to which the State or Agency may have legal cause for action including further damages against the firm.

3.2 Contract Items #1 – 911 Center Integration

3.2.1 INTEGRATION:

The system will have the capability to integrate multiple types of traffic incident information. Each information source will have complete control over what data they choose to publish to the system. The integrations will only include the seven (7) 911 systems as noted below.

3.2.2 911 COMPUTER AIDED DISPATCH (CAD) SYSTEMS:

The system will automatically extract information on traffic related events. Extraction will not require any action by the 911 dispatcher. Much of the information in a CAD system is highly sensitive. The extraction will only query data fields which have been approved for integration, and conform to all legal and organizational standards for data sharing. The system will start with integration into the Nicholas, Braxton, Morgan, Pendleton, Clay, Doddridge and Taylor Counties 911 systems. The system must be expandable to include future integrations of all existing and future West Virginia 911 systems.

3.2.3 TRAFFIC OPERATIONS CENTER (TOC) INCIDENT MANAGEMENT (IM) SYSTEMS:

The system will automatically extract information from the IM system, and, if possible, inject information from other sources into the IM system.

3.2.4 TRAFFIC SIGNAL SYSTEMS:

The system will have the capability to automatically extract information on signal events which are relevant to incident management and response. Some examples of those events are: signal failures, railroad preemptions and incident responder priority preemptions. The specific types of events and information that is available will depend on the characteristics of the signal system.

3.2.5 OTHER SOURCES:

Other potential future data sources could include: transit systems, weather sensors and other ITS field devices. Where possible the system will be expandable to integrate data from sources such as these.

3.2.6 STANDARDS AND MIDDLEWARE BASED:

To maintain the vitality and flexibility of the system now and in the future it is critical that the architecture is extensible and that the data formats are open.

Middleware architecture is a technique for integrating multiple systems. Under a middleware approach the cooperating systems do not communicate with each other directly. Instead each system communicates with a single common interface component (the middleware). This way when one of the cooperating systems changes all of the other systems are unaffected. The West Virginia system is a middleware architecture system. The proposed system must be compatible with and integrate into the existing West Virginia TMC System.

The system will conform to all relevant data standards. This will maximize the opportunities for the system to work with other systems in the future and respond to changing needs.

The two most significant data standards for traffic incident management are the Common Alerting Protocol (CAP) and the IEEE 1512 family of standards. The system will be able to deliver all event data in either of those standards. The Emergency Data Exchange Language (EDXL) is also an important standard for emergency response data. All system messages will be wrapped within EDXL packets.

3.2.7 DATA PRESENTATION CLIENTS:

The system provides value only if operators and responders can use the system to make good decisions. For that to happen, the system must deliver the information from all the various systems in a useful and comprehensible manner. The data presentation clients will provide data in both a graphical, map-based view and a tabular data view. The map based view will contain icons for all active events known to the system, and will provide detailed information on the events when the icon is selected or rolled over. The tabular view will contain a sortable table containing event data. Links on each event will allow the user to get more detailed information or zoom to the event on the map view. System users will be able to view all event data in the form that is most useful to them. For information to be useful it must not be overwhelming. In integrating data from so many sources the system runs the risk of cluttering the display with so much information that the operator cannot absorb anything. The system will allow individual users to set personalized information filters which will suppress data from sources which are not of interest to that user.

The stakeholders involved in incident response and traffic management operate under very diverse conditions. Some responders may only have access to a mobile, hand held device, and some dispatch centers may have slower internet connections. To meet the needs of all these users the system will provide at least three different clients:

- High speed internet client – this client will provide maximum functionality.
- Low speed internet client – all system information will be available in this client, but some functionality may not.
- Mobile client – this client will be available on mobile devices. All system information will be available (including the map interface), but some functionality will not.

3.2.8 GEOGRAPHIC INFORMATION SYSTEM (GIS) BASED:

The map based interface is a particularly important aspect of the system. More and more types of information are becoming available in GIS formats. The system should be able to add new GIS sources in the future. For the system to remain flexible and extensible it is important the presentation client supports Open Geospatial Consortium (OGC) standards. At a minimum the client will be able to display data and data layers available in Web Map Service (WMS) and Web Feature Service (WFS).

3.2.9 INCIDENT MANAGEMENT TOOLS:

Some traffic management centers may not have an incident management system already in place. The new system will provide basic tools for creating and managing traffic events. Events created with these tools will be presented in the integrated client display similar to the events automatically extracted from existing native systems.

3.2.10 DATA WAREHOUSE:

All event information will be stored in a common data warehouse. This data can be used to analyze incident response and management across the whole region. The data warehouse will be an important tool for documenting regional compliance with SAFETEA-LU section 1201 requirements for real time system management. SAFETEA-Lu can be found at the following link: <http://www.fhwa.dot.gov/safetealu/>.

The system will provide reporting and analysis tools which can be used to identify trends and document improvements in incident management.

3.2.11 REMOTE ADMINISTRATION:

The system will be structured to minimize the impact on information technology (IT) staff at the various locations being integrated. This will reduce the long term cost of the system and remove an important practical barrier to data integration.

Each center that is integrated will require some software that is installed at that site. However, virtually all of the maintenance of that software can be done from a remote location by general system administrators rather than the local IT staff at the center. The local software can be restarted or updated from a remote location.

The system will also actively monitor its own operations for indications of trouble and alert administrators when it suspects a problem. For example, if the system has not received any new events from a center over a certain period of time then it will automatically alert a system administrator so they can investigate.

3.2.12 WARRANTY:

The Work covered under this Contract shall be warranted for a minimum of one year. Any deficiencies noted prior to the expiration of the warranty shall be corrected or replaced according to this Specification and in accordance with the General Provisions at no additional cost to the WVDOH/Agency.

3.2.13 WVOT Project Management Oversight:

Pursuant to West Virginia Code §5A-6-4b, the WV Office of Technology Enterprise Project Management Office (EPMO) has the responsibility for managing information technology projects and providing oversight for state agency information technology projects. EPMO uses a project management methodology based on the Project Management Institute, Project Management Body of Knowledge (PMBOK). EPMO offers a methodology to its customers and their vendors that encompass a variety of templates and tools for project management.

Project oversight is an independent review and analysis of project artifacts and processes to determine if the project is on track, to be completed within the estimated schedule and cost, and will provide the functionality required by the sponsoring organization. The successful bidder will be required to utilize a formalized approach to project management, which is compliant with the Project Management Body of Knowledge (PMBOK) and WV Office of Technology (WVOT) Enterprise Project Management Office (EPMO) and includes the following:

- The successful vendor must assign an experienced and skilled project manager to the project. This Project Manager will be responsible for the successful completion of all work tasks and deliverables as defined within the project work plan and will work under the direction of the DOT's Project Manager and under oversight direction from the WVOT Project Manager to ensure that all work is performed in accordance with the terms and conditions of the contract.
- The successful vendor's Project Manager will be required to maintain a detailed project work plan through the full term of the implementation process. The vendor's Project Manager will be required to submit an updated work plan to the DOT's Project Manager and WVOT Oversight Project Manager on a date and time that will be determined during contract negotiations.

- The successful vendor's Project Manager will be required to track and report on via status reports the following: schedule, scope, budget, issues, risks, specified performance indicators, and other metrics determine appropriate when establishing the project Charter. The successful vendor will work with the DOT's Project Manager and the WVOT Oversight Project Manager to establish, publish and follow a formal communications plan.

4. CONTRACT AWARD:

- 4.1 Contract Award:** The Contract is intended to provide Agencies with a purchase price on all Contract Items. The Contract shall be awarded to the Vendor that provides the Contract Items meeting the required specifications for the lowest overall total cost as shown on the Pricing Pages.

WVDOH will recommend the award in accordance with the RFQ evaluation criteria described in the requisition. The award shall be made to the lowest lump sum cost from the vendor that meets or exceeds the specifications.

The Pricing Pages contain a list of the Contract Items and estimated purchase volume. The estimated purchase volume for each item represents the approximate volume of anticipated purchases only. No future use of the Contract or any individual item is guaranteed or implied.

Notwithstanding the foregoing, the Purchasing Division may correct errors at its discretion. Vendor shall type or electronically enter the information into the Pricing Pages to prevent errors in the evaluation. The Pricing Pages were created as a Microsoft Excel document and Vendor can request an electronic copy for bid purposes by sending an email request to the following address: Alan.w.cummings@wv.gov

- 5.1 Ordering:** Vendor shall accept orders by regular mail, facsimile, e-mail, or any other written forms of communication. Vendor may, but is not required to, accept on-line orders through a secure internet ordering portal/website. If Vendor has the ability to accept on-line orders, it should include in its response a brief description

of how Agencies may utilize the on-line ordering system. Any on-line ordering system must have the capability to restrict prices and available items to conform to the Catalog originally submitted with this RFQ. Vendor shall ensure that its on-line ordering system is properly secured prior to processing Agency orders on-line.

- 5.2 Payment:** Vendor shall accept payment in accordance with the payment procedures of the State of West Virginia.

6. MISCELLANEOUS:

- 6.2 Reports:** Vendor shall provide quarterly reports and annual summaries to the Agency showing the Agency's items purchased, quantities of items purchased, and total dollar value of the items purchased. Vendor shall also provide reports, upon request, showing the items purchased during the term of this Contract, the quantity purchased for each of those items, and the total value of purchases for each of those items. Failure to supply such reports may be grounds for cancellation of this Contract.
- 6.3 Contract Manager:** During its performance of this Contract, Vendor must designate and maintain a primary contract manager responsible for overseeing Vendor's responsibilities under this Contract.
