ATTACHMENT A**Questions:**

Q1: [A]fter reviewing the specs on this bid. We do not qualify as this bid is limited to a “proprietary” solution (NXDN) which is unique to one vendor, Kenwood. It is in the best interest of the State of West Virginia to explore alternative “open standard” protocols to be fully interoperable with other types of systems. Hytera is the 2nd Largest Global Manufacturer of Digital Two-Way Trunked Radio Communications that follows “open standards” where it allows open competition from various manufacturers. Will you reconsider?

A1: NXDN is not “proprietary” to Kenwood. According to the NXDN website, NXDN became “open standard” in 2012.

The following link, <http://www.nxdnforum.com/our-members/who-are-members/> list several companies, including Hytera Communications Corp., Ltd as members. Members have access to use and incorporate NXDN in their radios.

The West Virginia Division of Corrections intends to leverage the low complexity and very narrowband 6.25 KHz characteristics of NXDN/FDMA to better manage the Divisions UHF legacy radio systems simplex and repeater frequencies, the ability to operate our simplex frequencies at 6.25KHZ is of great importance to us. We feel that the low complexity characteristics of a NXDN / FDMA will provide a simple, stable, and reliable system at our smaller facilities and can be expanded to handle our larger facilities.

Other Information:

1. The bid opening has moved from 11/26/2013 to 12/03/2013. The bid opening time remains at 1:30 pm.
2. No additional questions will be accepted on this RFQ.
