**SOLICITATION NUMBER: COR61645**  
**Addendum Number: 2**

---

The purpose of this addendum is to modify the solicitation identified as COR61645 ("Solicitation") to reflect the change(s) identified and described below.

**Applicable Addendum Category:**

- Modify bid opening date and time
- Modify specifications of product or service being sought
- Attachment of vendor questions and responses
- Attachment of pre-bid sign-in sheet
- Correction of error
- Other

**Description of Modification to Solicitation:**

1. Responses to vendor questions attached.
2. Pre-bid sign-in sheets attached.

**Additional Documentation:** Documentation related to this Addendum (if any) has been included herewith as Attachment A and is specifically incorporated herein by reference.

**Terms and Conditions:**

1. All provisions of the Solicitation and other addenda not modified herein shall remain in full force and effect.
2. Vendor should acknowledge receipt of all addenda issued for this Solicitation by completing an Addendum Acknowledgment, a copy of which is included herewith. Failure to acknowledge addenda may result in bid disqualification. The addendum acknowledgement should be submitted with the bid to expedite document processing.

ATTACHMENT AQuestions:

Q1: Can we use an existing line post on the existing fence as a terminal post in lieu of trying to set a new terminal post right beside existing post?

A1: Yes.

Q2: The specification call for each post to be 2' deep in the ground, due to the weight of the post and the fencing fabric we feel that the post should be at a minimum of 4' deep.

A2: The fencing post must be installed a minimum of thirty-six (36") inches deep.

Q3: What is the desired diameter for the intermediate and terminal fence post hole?

A3: The diameter must be twelve (12").

Clarifications:

C1: Please see Exhibit #1 for the pre-bid sign-in sheet.

C2: All new razor wire must be the thirty (30") inch super maze stainless steel.

C3: In the specifications under section 1.01(E), subsection 2(b), no middle supports can be installed and tie into the existing concrete floor.

C4: In the specifications under section 1.01(E), subsection 3(c), there must be two layers high of razor wire installed.

C5: In the specifications under section 1.01(G), add the following:

- 3) Contractor must remove all the existing Constantine wire between the left side of the Jones Building and sally port gate B. The estimated length is nine hundred (900') feet. Contractor must remove all existing no climb fencing in the previous stated area. Contractor must install no climb fabric from the top of the existing fencing. The no climb fencing must be six (6') wide with one-half (1/2") holes, and is to be eleven (11) gage wires. The wire must be aluminized. After the no climb fencing is installed, new thirty (30") inch super maze razor must be installed on top of the existing fencing. (Please note the top layer of razor wire for the area that is seventy-five (75') feet from the Jones Building is already being replaced.)

- C6: Corner post must be a minimum four (4") inches in diameter. Line post must be a minimum of three (3") inch in diameter. The rails must be a minimum of one and five eighths (1-5/8") inch in diameter. All to be schedule forty (40).
- C7: All tire wire must be nine (9) gage mechanical twist ties and must be steel.
- C8: All items removed must be turned over to the DOC.

**Other Information:**

1. The bid opening remains 10/10/2013 at 1:30 pm.
2. No additional questions will be accepted on this RFQ.
