Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to Vendor.
- 43. VENDOR CERTIFICATIONS:** By signing its bid or entering into this Contract, Vendor certifies (1) that its bid was made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership, person or entity submitting a bid for the same material, supplies, equipment or services; (2) that its bid is in all respects fair and without collusion or fraud; (3) that this Contract is accepted or entered into without any prior understanding, agreement, or connection to any other entity that could be considered a violation of law; and (4) that it has reviewed this RFQ in its entirety; understands the requirements, terms and conditions, and other information contained herein. 52. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or

such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process.

The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:

- a. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
- b. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

53. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a “substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products.

This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

3.4 GEOFABRIC INSTALLATION

- A. Place the geofabric directly on the prepared subgrade. Install the rolls in the direction recommended by the manufacturer to insure the materials principal strength is correctly oriented. Roll the geofabric out as flat and tight as possible with no folds.
- B. Overlap the adjacent rolls with a minimum 12" overlap.
- C. Secure geofabric in place with pins, staples, granular cover material, or other suitable means to avoid shifting or movement during placement fill.
- D. Rubber tired vehicles and trucks may drive on the uncovered geofabric at speeds less than 10 mph. Avoid sharp turns or sudden stops. If damage occurs, refer to the manufacturer's repair instruction and overlap damaged geofabric by a minimum of 36" in all directions.

3.5 TYPE II BLENDED GRASS SEED INSTALLATION

3.6 AASHTO No. 1 BASE AGGREGATE PLACEMENT

- A. Base aggregate to be placed over geofabric upon inspection of area by project manager to verify subgrade is not sufficiently wet so that its surface would be marred by construction equipment.
- B. The base course shall be placed and shaped on the prepared surface in layers to achieve the compacted thickness of a minimum of 6 inches deep.
- C. To minimize the damage to previously placed material, the placement of the surfacing material should begin at the extreme end of the haul and proceed toward the point of loading. In this way, the least amount of hauling ever completed courses will be required.

3.7 CLASS I STONE

- A. After base aggregate layer has been verified to be uniformly placed and properly compacted, the finish layer of stone may be placed in the same manner and technique as specified for the base aggregate above.
- B. Finished grade of stone layer to be level with existing paved portion of the motor pool area.

3.8 FIELD QUALITY CONTROL

- A. To assure water tightness with HDPE drain pipe and fittings, field performance verification may be accomplished by testing in accordance with ASTM F2487. Appropriate safety precautions must be used when field-testing any pipe material. Contact the manufacturer for recommended leakage rates.
- B. The geofabric material rolls are to be wrapped in a UV protective cover. Contractor should insure rolls are adequately protected from moisture. If stored outdoors, the

geotextile should be elevated from the ground and covered with a tarpaulin or opaque plastic.

- C. Seeded fill areas should be inspected no more than two weeks after sowing. If area has failed to thrive or bald spots exist, reseeding in accordance with manufacturer's instruction is required to satisfy this contract item.
- D. Base aggregate and finish layer of stone material are to be inspected upon delivery to site for compliance with the specifications. The owner reserves the right to reject defective materials or workmanship. Material and/or workmanship not in conformance with the specifications will be considered defective. Rejected materials and/or workmanship shall be satisfactorily corrected in place or replaced with work conforming to the specifications at no additional cost to the owner.
- E. The thickness of the base course and finish layer of stone shall be checked for proper thickness after final compaction. The contractor shall refill all test holes with approved course materials and adequately recompact the material. Any deficiency on the total thickness of the courses in excess of ½" shall be corrected.
- F. Project manager will make frequent checks of yield to see that the specified quantity of material is placed and inspect motor pool area to make sure each course of surfacing is properly prepared and meets density specifications before allowing the next course to be placed.
- G. The surface of the completed base shall be protected against the loss of fine material by the addition of moisture when necessary, and it shall be maintained in a satisfactory and smooth condition until such time that it is finally accepted. When applying water to a surfacing course, see that it is distributed evenly over the entire course. Avoid over-watering which may cause soft spots in the subgrade.

3.9 DISPOSAL OF WASTE

- A. Contractor shall clean up and properly dispose of any excess materials and debris resulting from the work. Except for items to be salvaged, recycled, or otherwise re used, remove waste materials from the Project site and legally dispose of them in a landfill or incinerator acceptable to authorities having jurisdiction.
- B. Unless otherwise specified or instructed, do not allow waste materials that are to be disposed of to accumulate on site.
- C. Remove and transport debris in a manner that will prevent spillage on adjacent surfaces and areas.
- D. Do not burn waste materials.

PURCHASING AFFIDAVIT

MANDATE: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (*W. Va. Code §61-5-3*) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.
