WHEN RESPONDING TO SOLICITATION, INSERT NAME AND ADDRESS IN SPACE ABOVE LABELED 'VENDOR'

SOLICITATION NUMBER: DEFK14010
Addendum Number: 1

The purpose of this addendum is to modify the solicitation identified as DEFK14010 ("Solicitation") to reflect the change(s) identified and described below.

Applicable Addendum Category:

- Modify bid opening date and time
- Modify specifications of product or service being sought
- Attachment of vendor questions and responses
- Attachment of pre-bid sign-in sheet
- Correction of error
- Other

Description of Modification to Solicitation:

1. Responses to vendor questions attached.
2. Pre-bid sign in sheets attached.
3. The bid opening remains 09/24/2013 at 1:30 pm.

Additional Documentation: Documentation related to this Addendum (if any) has been included herewith as Attachment A and is specifically incorporated herein by reference.

Terms and Conditions:

1. All provisions of the Solicitation and other addenda not modified herein shall remain in full force and effect.
2. Vendor should acknowledge receipt of all addenda issued for this Solicitation by completing an Addendum Acknowledgment, a copy of which is included herewith. Failure to acknowledge addenda may result in bid disqualification. The addendum acknowledgement should be submitted with the bid to expedite document processing.

ATTACHMENT A**QUESTIONS:**

Q1: What is the weight of the generator/engine set?

A1: Approximately 2,000 lbs.

Q2: How will the engine/generator set be provided?

A2: The Owner will deliver the unit to the site. The Contractor will be responsible for off-loading the engine/generator set at the site, storing it (if required), and placing it in its permanent location.

Q3: What conduits are required between the engine/generator set and the new Panel "D"?

A3: See Plan Notes "N", "O", and "P" and the "Electrical Power Riser Diagram" on drawing E-2. Panel "D" will also provide an engine block heater circuit directly to the engine/generator set.

Q4: Will the two (2) outdoor sheds at the new engine /generator set and service entrance locations be relocated by the owner prior to construction?

A4: Yes

Q5: May the conduits between the outdoor equipment (engine/generator set, transfer switch, and current transformer cabinet) be routed underground between those items and the area of entrance to the building?

A5: Yes. Some or all of the conduits may be routed below ground, if required, to make their entrance into the boiler room. The contractor will be responsible for all coordination with the building components, including, but not limited to, ductwork, piping, conduit, cabling, equipment, walls, and structural roof support members.

Q6: Once inside the boiler room, may the conduits be routed below the bottom chord of the roof trusses instead of above them (through the truss webbing)?

A6: Yes. The contractor is to verify with the Owner and/or Architect what the minimum clearance above the floor elevation is for all conduits.

Q7: Is there a contact person at APCO to discuss project details?

A7: This will be discussed after the contract award between the agency and the successful vendor.

Q8: Can the transfer switch be mounted inside if space is available?

A8: Yes.

Q9: Can the conduits from equipment outside be run underground to the building? The entry point would be at the rear door of the boiler room, entering at ceiling level. Contractor would be responsible for demo and replacing the concrete pad.

A9: Yes, if possible. Contractor will coordinate routing of conduits, penetration of sidewalls, and locations of all equipment with the Architect, Engineer, and Owner.

Q10: Can the conduits for the Fire Alarm be exposed?

A10: Yes.

Q11: Can new panel MP be mounted on exterior wall next to CT cabinet with conduits stubbed inside for future use?

A11: No. The panel is to be mounted inside as shown.

Other Information:

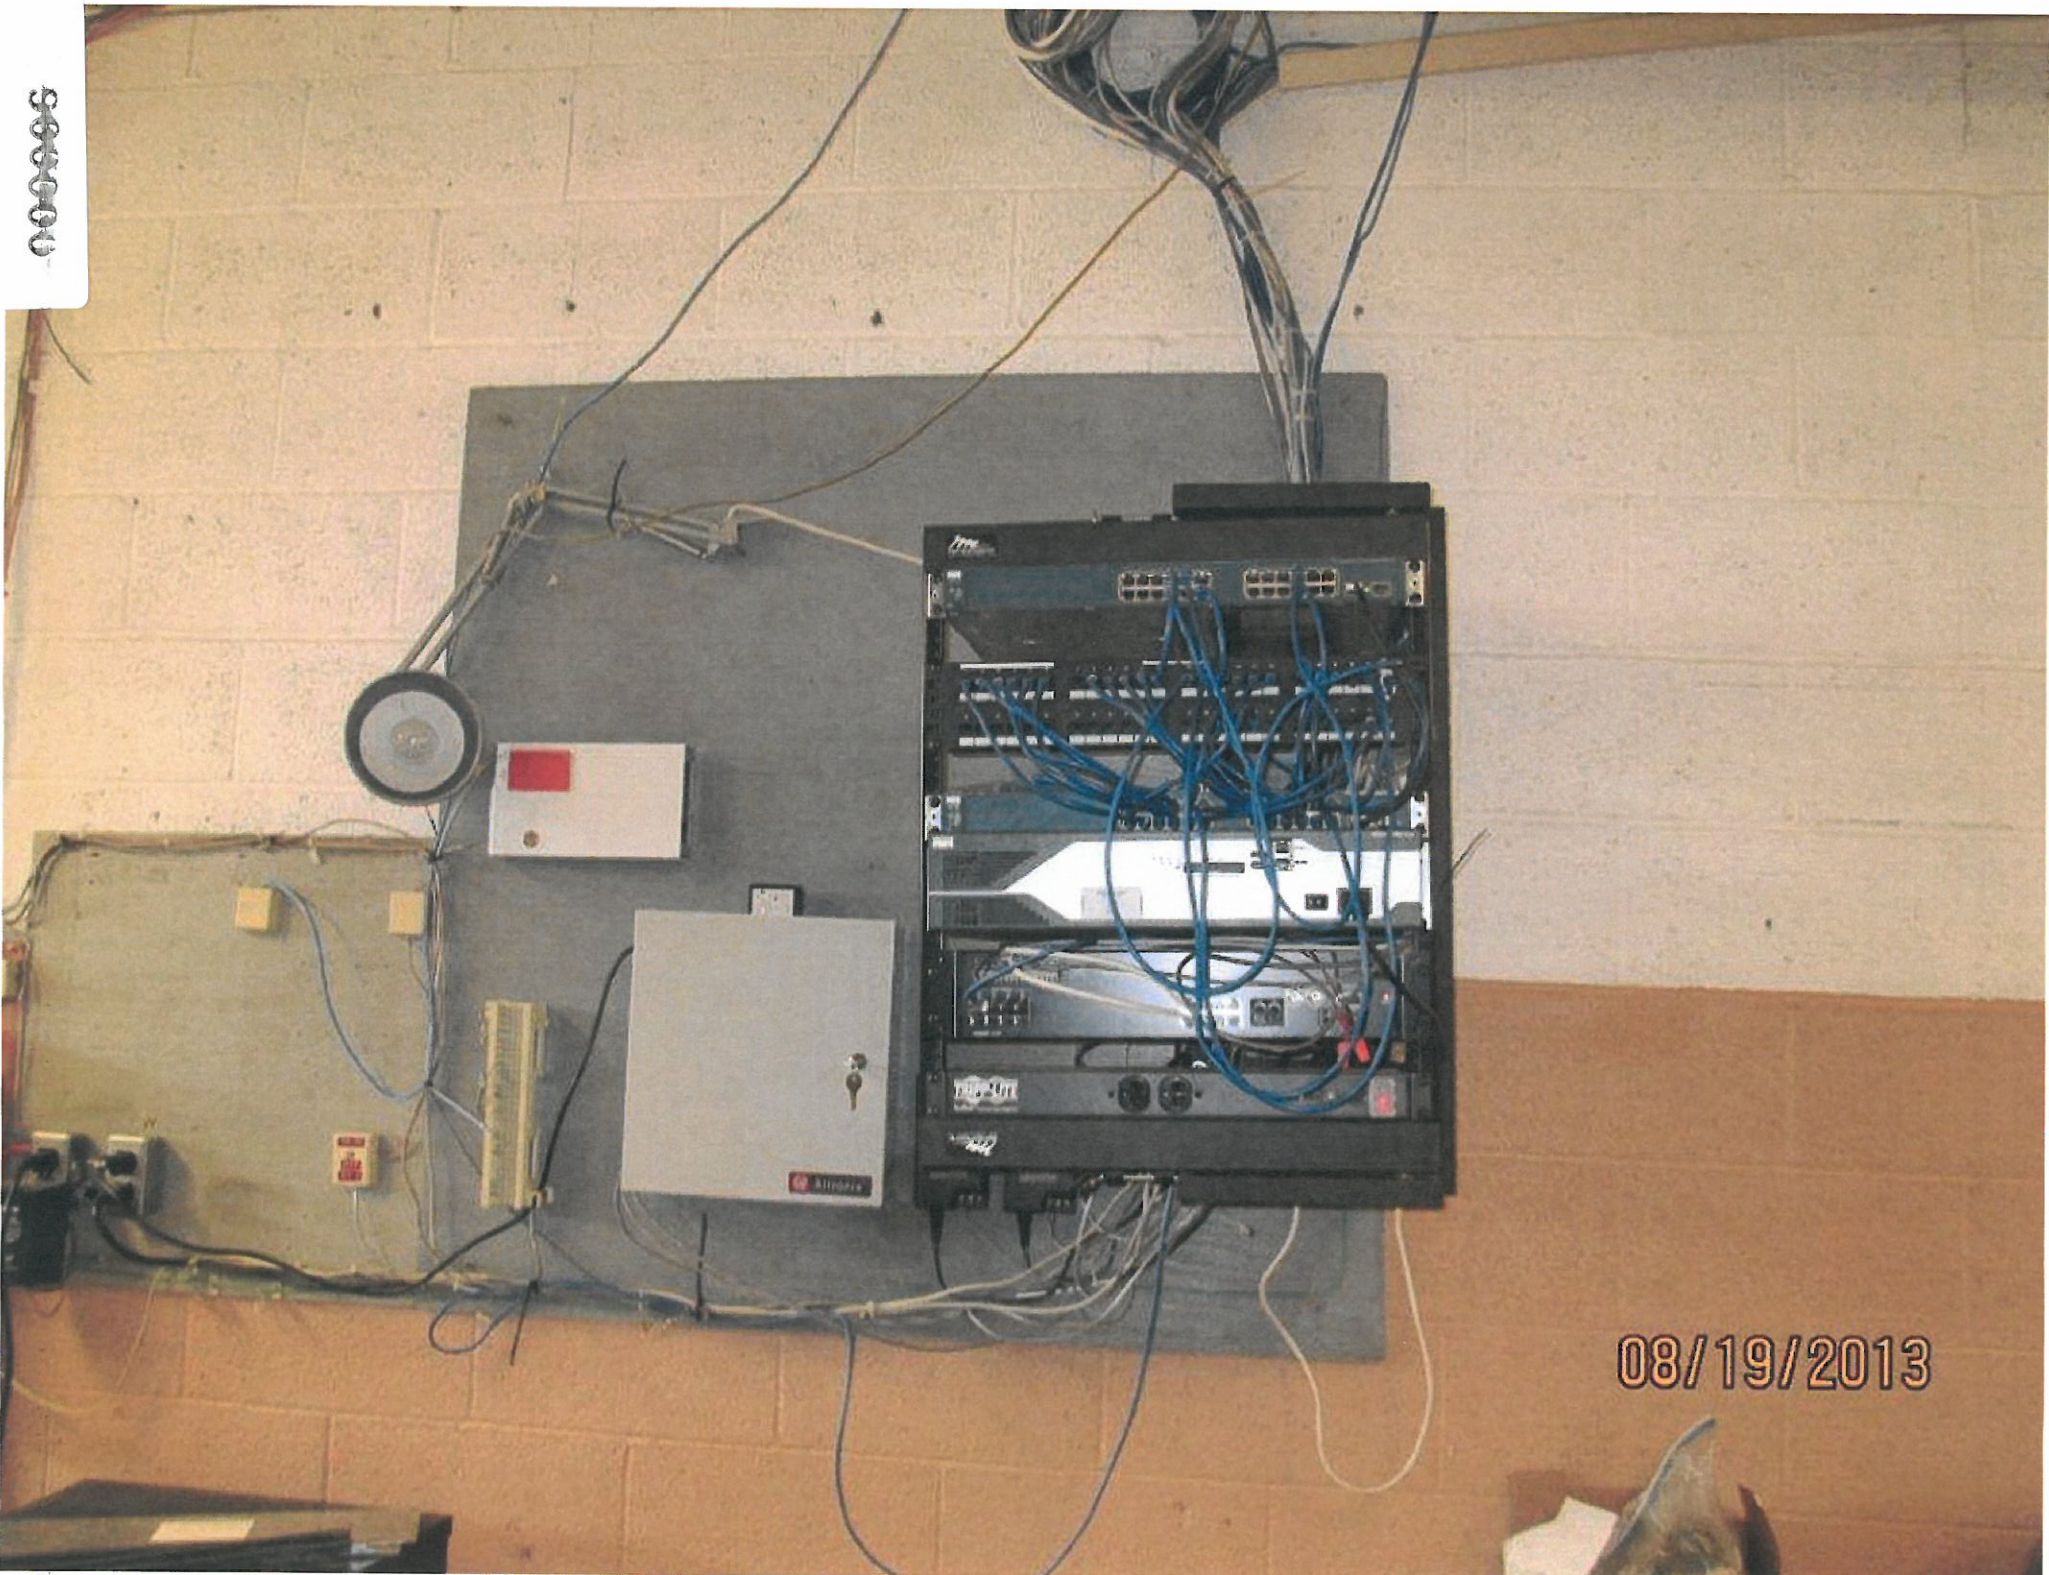

1. Attached with this addendum are eight (8) photos representing the interior of the mechanical room that was inaccessible at the time of the mandatory pre-bid meeting on Friday, 9/13/2013.
2. Pre-bid sign-in sheets attached.
3. In addition, the life of contract has been extended from 120 days after notice to proceed as advertised to 180 days after notice to proceed.
4. **The apparent successful vendor should furnish all required documents by 12:00 pm on September 26, 2013 after receipt of the official request from the Purchasing Division. Failure to do so may result in disqualification of bid.**
5. The bid opening remains 09/24/2013 at 1:30 pm.
6. No additional questions will be accepted on this RFQ.
7. No additional site visits will be granted on this RFQ.
