ATTACHMENT A**QUESTIONS:**

Q1: If mold is present, does the WVARNG want us (vendor) to contain and clean?

A1: No, the WVARNG has retrieved a section of the water damaged flooring for testing. If mold is determined to be present, the WVARNG will contract with an abatement company to contain and clean the area. It will not be a part of this contract as bid under advertisement #DEFK14020.

Q2: Instead of what is listed in the specifications for the subfloor pad, would the WVARNG consider a suggestion to use a DIN rated, anchored sleeper plywood system with rubber pads at 2-1/2" floor height?

A2: No, the WVARNG wants the project bid as specified.

Q3: The height of the specified floor is only 2", which would not hit the required 2-1/2" for the current slab depression. Would the owner like to receive alternate pricing for products that would meet the required 2-1/2"? Or would the owner like us to include the added cost for raising the subfloor by 1/2"?

A3: No, the WVARNG wants quotes for what is specified only.

Other Information:

1. The bid opening remains 01/14/2014 at 1:30 p.m.
2. No additional questions will be accepted on this RFQ.
