SOLICITATION NUMBER: DEP16388

Addendum Number: 01

The purpose of this addendum is to modify the solicitation identified as (“Solicitation”) to reflect the change(s) identified and described below.

Applicable Addendum Category:

- Modify bid opening date and time
- Modify specifications of product or service being sought
- Attachment of vendor questions and responses
- Attachment of pre-bid sign-in sheet
- Correction of error
- Other

Description of Modification to Solicitation:

Additional Documentation: Documentation related to this Addendum (if any) has been included herewith as Attachment A and is specifically incorporated herein by reference.

Terms and Conditions:

1. All provisions of the Solicitation and other addenda not modified herein shall remain in full force and effect.
2. Vendor should acknowledge receipt of all addenda issued for this Solicitation by completing an Addendum Acknowledgment, a copy of which is included herewith. Failure to acknowledge addenda may result in bid disqualification. The addendum acknowledgement should be submitted with the bid to expedite document processing.

**Addendum #1 - Questions During Pre-Bid Meeting
ROGER CAMP HILL REFUSE
DEP16388**

The following comments and questions were identified from the Pre-Bid Conference. The answers provided herein take precedence over verbal answers at the PBC should there be any conflict between the two.

Comments:

Soil material for covering exposed coal refuse at final grade shall be obtained in accordance with Section 8.2.3 of the Specifications. The Contractor shall make every effort to obtain soil cover from the clearing and grubbing operations and regrading and/or drainage feature excavations. However, should an adequate amount of soil cover not be available an alternate on-site borrow site (Borrow Site #2) may be utilized if necessary and only if necessary, as stated in Section 8.2.2. The Contractor is advised, if Borrow Site #2 is proposed to be used, he is required to obtain a Borrow/Disposal Agreement from the landowners, Western Pocahontas Limited Partnership and/or American Forest Management, before WVDEP will approve the use of this area for additional cover material as per Section 8.2.2 of the Specifications.

The Contractor is advised that Western Pocahontas Limited Partnership shall be named as an additional insured before a Notice to Proceed will be issued. Contact information is as follows:

Doug Tooth man	304-634-5781 (Cell) 304-522-5757 (Office)
Ralph Dodrill	304-259-5683 (Office)

The AASHTO Size 3/16 Dust, as specified in Section 8.3.2 of the Specifications is available from local suppliers. It would be advisable for the Contractor to notify the supplier in advance of placing an order so that limestone dust meeting the 80% calcium carbonate content requirement can be separated from and not mixed with limestone dust having less than 80% calcium carbonate content.

The woody debris scattered over the proposed re-grade area must be collected and removed prior to commencing regrading of the site. The Contractor has the option to burn or windrow the woody material. If the material is burned, it must be in a location where contact with the refuse will not occur to prevent the refuse from catching fire. If the Contractor chooses to windrow the woody material, it must be collection in a manner that precludes an excessive amount of refuse

Addendum #1 – Roger Camp Hill Refuse
Page Two

being incorporated with the woody material such as utilizing a root rake for collection. If there is an excessive amount of refuse mixed with the collected woody material, as determined by the WVDEP, windrowing will not be allowed. If windrowing is allowed, the woody material shall be windrowed inside of and along the edge of the limits of construction to a maximum height of six (6) feet. The windrows shall be free of refuse/soil material. The woody debris shall be removed from the refuse before the refuse is incorporated into any backfill areas. The refuse shall be separated from the woody material by use of a root rake, screens or other device. The location of windrowed material shall be subject to the approval of the WVDEP.

The Contractor shall have 90 days from the date of the Notice to Proceed to complete construction activities on the project. The \$250.00 per day liquidated damages clause will be in effect after the 90 days. However, the total performance period will be 365 days from the date of the Notice to Proceed for invoicing purposes.
