**SOLICITATION NUMBER: DEP16564**  
**Addendum Number: 2**

---

The purpose of this addendum is to modify the solicitation identified as DEP16564 (“Solicitation”) to reflect the change(s) identified and described below.

**Applicable Addendum Category:**

- Modify bid opening date and time
- Modify specifications of product or service being sought
- Attachment of vendor questions and responses
- Attachment of pre-bid sign-in sheet
- Correction of error
- Other

**Description of Modification to Solicitation:**

1. The bid opening has moved from 06/10/2014 to 06/17/2014. The bid opening time remains at 1:30 p.m.
2. Responses to vendor questions and clarifications attached.
3. Pre-bid sign-in sheets attached.

**Additional Documentation:** Documentation related to this Addendum (if any) has been included herewith as Attachment A and is specifically incorporated herein by reference.

**Terms and Conditions:**

1. All provisions of the Solicitation and other addenda not modified herein shall remain in full force and effect.
2. Vendor should acknowledge receipt of all addenda issued for this Solicitation by completing an Addendum Acknowledgment, a copy of which is included herewith. Failure to acknowledge addenda may result in bid disqualification. The addendum acknowledgement should be submitted with the bid to expedite document processing.

**DEP16564**  
**Blackeagle # 2 Refuse Piles**  
**Addendum # 1**

Item 1: The contractor will have 180 days from the date of the Notice to Proceed to complete construction activities on the project. The \$250 per day liquated damage clause will be in effect after the 180 days. However, the total performance period will be 365 days from the date of the Notice to Proceed for invoicing purposes.

Item 2: All rock riprap used throughout the project shall consist of locally available, commercially purchased, or on-site stone meeting the following requirements. The rock riprap shall have a maximum weighted loss of thirty percent when subjected to five (5) cycles of the Sodium Sulfate Soundness Test, 30% requirement – ASTM C88 (ASTM C88-99a Standard Test Method for Soundness of Aggregates by Use of Sodium Sulfate or Magnesium Sulfate), as modified by the American Association of State Highway and Transportation Officials (AASHTO) T-104. A certification on sodium sulfate soundness test shall be submitted to the WVDEP prior to delivery and/or use.

Item 3: Please see the attached sheets concerning NPDES storm water permit information.

Item 4: The contractor will have the option to cut and stockpile timber in accordance with the project specifications, or pay the landowner \$300 per disturbed/cut acre.

Item 5: Q: What are the lengths of the ditches?

A: The bid quantities for the *2.0' Deep Vee Ditch (Grouted)* and the *3.0' Deep Vee Ditch (Grouted)* are 230 L.F. and 355 L.F., respectively. Please refer to the project plans for details.

**NPDES permit information****History**

In the past, applications for NPDES permits (i.e. Construction Storm Water General Permits from the WVDEP Division of Water and Waste Management (WVDEP DWWM)) have been prepared and submitted by the design consultant and/or the WVDEP-AML. This will continue unchanged. WVDEP-AML has been listed as the single applicant for the permit. This will change slightly in that the permit will be modified to include the construction contractor as a Co-Applicant (see below).

**Changes**

The permit will be modified to include the Contractor as Co-Applicant #1, with the WVDEP-AML being Co-Applicant #2. As such, the Contractor shall assume responsibility for compliance with the terms and conditions of the permit including modifications, and any future correspondence such as registration renewal invoices, inspection reports, and notices of violation shall be forwarded to the Contractor. Upon award of the contract, the Contractor shall complete a Co-Applicant #1 signature page and submit the completed form to WVDEP-AML prior to scheduling a Pre-Construction Conference (PCC).

Upon receipt of the completed form, WVDEP-AML will request the WVDEP DWWM to modify the existing NPDES registration for the project to make the Contractor the Co-Applicant #1 to the permit.

The WVDEP-DWWM will notify the Contractor and WVDEP-AML when the successful transfer of registration under WV/NPDES Storm Water Construction General Permit (No. WV0115924) is completed. A Notice to Proceed (NTP) will not be issued until the successful transfer of registration has been completed. Once the transfer has been completed, the Contractor shall be responsible for any and all fees, violations and fines assessed against the project that are a result of the Contractor's negligence, carelessness, or failure to install permanent controls as part of the work as scheduled.

The Contractor shall apply for a Notice of Termination (NOT) from WVDEP DWWM via the Construction Storm Water website:

<http://www.dep.wv.gov/Programs/stormwater/csw/Documents/Construction>. The Contractor will continue to be bound by the terms and conditions of the permit until the NOT (Notice of Termination) has been approved by WVDEP DWWM.

**Additional notes**

Once the permit transfer has been completed, the WVDEP-AML will continue to be responsible for any modification fees and annual renewal fees incurred up until the date of the final inspection of the project.

The Contractor will apply for the NOT (Notice of Termination) following the final inspection approval from the WVDEP-AML. WVDEP-AML will not finalize the project until adequate vegetation is established and the sediment control has been removed. The Contractor cannot apply for the NOT (Notice of Termination) without WVDEP-AML's approval.

The payment of any additional fees that may be incurred after the final inspection, but prior to issuance of the Notice of Termination by the WVDEP-DWWM, will be the responsibility of the Contractor.
