Addendum Number: #1

---

The purpose of this addendum is to modify the solicitation identified as (“Solicitation”) to reflect the change(s) identified and described below.

**Applicable Addendum Category:**

- Modify bid opening date and time
- Modify specifications of product or service being sought
- Attachment of vendor questions and responses
- Attachment of pre-bid sign-in sheet
- Correction of error
- Other

**Description of Modification to Solicitation:**

1. To provide responses to questions submitted regarding the original solicitation. Questions and answers are attached.
2. To provide revised bid schedule.
3. To provide a copy of the mandatory pre-bid meeting sign-in sheet, per attached.
4. To provide addendum acknowledgment form.

**Additional Documentation:** Documentation related to this Addendum (if any) has been included herewith as Attachment A and is specifically incorporated herein by reference.

**Terms and Conditions:**

1. All provisions of the Solicitation and other addenda not modified herein shall remain in full force and effect.
2. Vendor should acknowledge receipt of all addenda issued for this Solicitation by completing an Addendum Acknowledgment, a copy of which is included herewith. Failure to acknowledge addenda may result in bid disqualification. The addendum acknowledgement should be submitted with the bid to expedite document processing.

# ATTACHMENT A

**Addendum #1 - Questions During Pre-Bid Meeting**

**For DEP 16600**

**West Fork Rail Trail Portals**

The following comments and questions were identified from the Pre-Bid Conference. The answers provided herein take precedence over verbal answers at the PBC should there be any conflict between the two.

**Correction to the Plans:**

1. Page 1 of Plans Bid Schedule: Item 8.0 will Now read Rock Fill. Delete the word Shot.

**Corrections to the Specification:**

1. **Now reads: Description**

This work shall consist of furnishing all labor, equipment and materials necessary to construct the drainage structures shown on the drawings. Drainage structures shown include 6' Riprap channel, Splash Pad, 18" HDPE Pipe and 6' grass line channel with P-300 lining that are required for the project work.

**Should read: Description**

This work shall consist of furnishing all labor, equipment and materials necessary to construct the drainage structures shown on the drawings. Drainage structures shown include 6' Riprap channel, Splash Pad, 18" HDPE Pipe and 6' grass line channel with Curlex Type I lining that are required for the project work.

2. **Now reads:**

**7.4.5** The method of measurement for construction of the 6' Grass Line Channel shall be on a linear foot basis and shall include excavation, disposal of material, purchase and installation of rock.

**Should read:**

**7.4.5** The method of measurement for construction of the 6' Grass Line Channel shall be on a linear foot basis and shall include excavation, disposal of material, purchase and installation of the Curlex Type I Lining..

3. **Section 8 Unclassified Excavation:** Any place where the specifications say Shot Rock Fill it will now read Rock Fill. The rock requirement for Section 8 will be clean 12" Limestone Rock.

**Page 2 West Fork Rail Trail Portals Addendum #1**

**Question #1.** Is there a place to allow truck to pass each other during paving?

**Answer #1.** There are some wide spots along the trail. That will be determined at the start of construction. The wide areas may require longer trips between truck because of the wide area locations. An damage that is done below the trail will be the contractor's responsibility and repaired at his cost.

**Question #2.** Is there a place for staging materials?

**Answer #2.** There is a wide area that was used by the emergency group for disposal of the excess slide material. There is room there to stage material. Contractor will be responsible for any repairs on site used for the staging area

**Question #3.** What do we do with trees that have to be removed?

**Answer #3.** The trees can be stockpiled along the trail for Marion County Parks and Recreation. The brush can be stacked across the access roads that are used during construction. This will help block access to the area above the trail. The exact location will be determined at the Pre-Construction.

**Attached : Revised Bid Sheet**

**Attached: NPDES Permit Information for Contractor Co-Application and Co-Applicant Signature Page**

The Contractor shall have 90 days from the date of the Notice to Proceed to complete construction activities on the project. The \$250.00 per day liquidated damages clause will be in effect after the 90 days. However, the total performance period will be 365 days from the date of the Notice to Proceed for invoicing purposes.

## **NPDES permit information**

### **History**

In the past, applications for NPDES permits (i.e. Construction Storm Water General Permits from the WVDEP Division of Water and Waste Management (WVDEP DWWM)) have been prepared and submitted by the design consultant and/or the WVDEP-AML. This will continue unchanged. An individual with WVDEP-AML (typically the Chief, Regional Engineer, Project Manager, etc.) has been listed as the single applicant for the permit. This will change slightly in that the permit will be modified to include the construction contractor as a Co-Applicant (see below).

### **Changes**

The permit will be modified to include the Contractor as Co-Applicant #1, with the WVDEP-AML being Co-Applicant #2. As such, the Contractor shall assume responsibility for compliance with the terms and conditions of the permit including modifications and any future correspondence such as registration renewal invoices, inspection reports, and notices of violation shall be forwarded to the Contractor. Upon award of the contract, the Contractor shall complete a Co-Applicant #1 signature page and submit the completed form to WVDEP-AML prior to scheduling a Pre-Construction Conference (PCC).

Upon receipt of the completed form, WVDEP-AML will request the WVDEP DWWM to modify the existing NPDES registration for the project to make the Contractor the Co-Applicant #1 to the permit.

The WVDEP-DWWM will notify the Contractor and WVDEP-AML when the successful transfer of registration under WV/NPDES Storm Water Construction General Permit (No. WVR106664) is completed. A Notice to Proceed (NTP) will not be issued until the successful transfer of registration has been completed. Once the transfer has been completed, the Contractor shall be responsible for any and all fees, violations and fines assessed against the project that are a result of the Contractor's negligence, carelessness, or failure to install permanent controls as part of the work as scheduled.

The Contractor shall apply for a Notice of Termination (NOT) from WVDEP DWWM via the Construction Storm Water website

<http://www.dep.wv.gov/Programs/stormwater/csw/Documents/Construction>

upon completion of construction activities at the site. The NOT (Notice of Termination) shall be issued by WVDEP DWWM upon completion of the project. The Contractor will continue to be bound by the terms and conditions of the permit until the NOT (Notice of Termination) has been approved by WVDEP DWWM. Once the project is complete, the Contractor will still bear responsibility for the NPDES registration until a NOT (Notice of Termination) is received from the WVDEP DWWM.

### **Additional notes**

Once the permit transfer has been completed, the WVDEP-AML will continue to be responsible for any modification fees and annual renewal fees incurred up until the date of the final inspection of the project that occurs after completion of construction activities at the site.

The Contractor will be responsible for any and all fees, violations and fines assessed against the project that are a result of the Contractor's negligence, carelessness, or failure to install permanent controls as part of the work as scheduled (this statement is repeated from above).

The Contractor will apply for the NOT (Notice of Termination) following the final inspection approval from the WVDEP-AML. WVDEP-AML will not finalize the project until adequate vegetation is established and the sediment control has been removed. The Contractor cannot apply for the NOT (Notice of Termination) without WVDEP-AML's approval.
