eCopy® PDF Pro Office

eCopy PDF Pro Office, the latest enterprise-ready PDF solution from Nuance for every desktop that's easy to use. Automatically receive files from the eCopy ShareScan, create, convert and collaborate with PDF like never before. Nuance PDF solutions are the world's leading replacement for Adobe® Acrobat®, delivering superior speed, functionality and ease of use at a significantly lower cost.

With more than 6,000 employees and millions of business users world-wide, Nuance is a leading provider solutions for enterprise speech and customer care; mobile devices and networks; healthcare dictation and transcription; and PDF and document capture and conversion. Every day, Nuance's technologies, applications and services make the user experience more compelling by transforming the way people interact with information and how they create, share and use documents.

Enjoy cost savings without compromise

More affordable than Adobe Acrobat, eCopy PDF Pro Office lets you do more with your limited budget. It offers powerful functionality, proven reliability and remarkable ease of use in a small footprint solution that doesn't eat up resources or impede system performance. Plus, it's fully compatible with popular document management systems to give users across the enterprise controlled access to PDF files—without placing an additional burden on IT.

eCopy PDF Pro Office is fast and easy to install, too. You can conveniently service all enterprise users with network push install and software access options through virtualized software environments.

Get a complete pdf solution for every desktop

Designed specifically for the business user, eCopy PDF Pro Office is intelligent and easy to use, putting commonly used creation, conversion and collaboration features just a click away. So you can enjoy incredible time savings and the flexibility of a universal document format for higher productivity and seamless information exchange.

Instantly create 100% industry-standard, universally viewable PDFs files—including all PDF and PDF/A versions—from any PC application. Convert to PDF from within Microsoft® Office documents or create PDF files of any document with a single click while browsing with Windows®.

eCopy PDF Pro Office provides the most accurate conversion of PDF files into editable, searchable XPS, Corel® WordPerfect® and Microsoft® Word, Excel® or PowerPoint documents— complete with fully-formatted text, columns, tables and graphics. It even lets you combine all pages of a PDF document into a single Excel worksheet. Support for Windows 7 Jump Lists provides quick access to recent files and common PDF creation and conversion tasks.

Combine files and remove or replace pages with drag-and-drop ease. View and select pages from a source document—Word, Excel, PowerPoint, WordPerfect, XPS, JPG, BMP or TIF—to insert into a target document. It makes document assembly faster and simpler than ever.

Fill and save PDF forms

Use FormTyper™ to convert static forms into fillable PDF forms that you can complete, save and email.

Scan directly to PDF

Get one-click scanning to PDF by pre-setting your scanner preferences. Scan and highlight, cross-out, underline or redact—all in a single step.

Manage multi-layer graphics

View, select, merge and flatten layers created by programs like AutoCAD© and Microsoft Visio©.

Bring multimedia to PDF

Embed Flash and Microsoft Silverlight into PDF files to create attention-grabbing multimedia documents — quickly and easily.

Protect sensitive documents

Control viewing, printing and modifications by adding passwords with secure encryption and permission controls to PDF documents. Or flatten everything in a document to protect sensitive information during file sharing or archival.

Meet accessibility standards

Automatically tag PDF files to ensure document compliance with Section 508 and other accessibility standards.

Connect to document management systems

Connect seamlessly to Microsoft© SharePoint© Services v3, Servers 2003, 2007, 2010; Autonomy iManage WorkSite 8.3,8.5; OpenText DocsOpen 4, Connectivity Solutions (eDocs/Hummingbird) 6, 5.2 LiveLink 9.7; and LexisNexis CaseMap 8.5 for enterprise-wide document management from each user's desktop.

Users across the enterprise can collaborate more effectively with annotation tools that let you add notes, stamps, call-outs and more to PDF documents. Plus, it's easy to view, organize, prioritize and update comments using the convenient Comment Panel.

Produce impressive documents that mean business

eCopy PDF Pro Office enables you to deliver documents that look as good in print as they do on the screen—no matter where you send them. Combine any type of file and/or folder into striking PDF Portfolios that are viewable with any popular PDF reader. Add attractive, interactive cover pages that guide the audience. Even include photos, graphics, movies, audio or 3D drawings to convey messages with attention-grabbing style!

System Requirements

- A computer with an Intel® Pentium® III or higher processor or equivalent
- Supported operating systems:
  - Windows 7 32-bit and 64-bit Editions
  - Windows Vista 32-bit or 64-bit Editions with Service Pack 2
  - Windows XP 32-bit Edition with Service Pack 3
- Microsoft® Internet Explorer®7 or above
- 512 MB of memory (RAM), 1 GB recommended
- 500 MB of free hard disk space for application files plus 50 MB working space during installation
- CD-ROM drive for installation
- Web access needed for product registration, activation and obtaining live updates for the program.
- To save DOCX, XLSX and PPTX files (for Microsoft Office 2007 or 2010 Word, Excel and PowerPoint) you should have or install Microsoft .NET Framework 3.0 on Windows XP (free download available at www.microsoft com).

Note: Performance and speed will be enhanced if your computer's processor, memory and available disk space exceed minimum requirements.
# The All-In-One Browser-Based Document Management Solution

General Overview of Content Central

Content Central sets the standard for document management and workflow solutions. Users access and interact with the application by logging in using a preferred Web browser, from Internet Explorer to Mozilla Firefox and Google Chrome. Every operation occurs within this browser-based interface, from capturing, indexing, and retrieving documents to approving and distributing them.

Take advantage of the many benefits a browser-based application offers, including quick deployment, controlled & logged access, and remote connectivity. Administrators install Content Central on a single Microsoft Windows server or across multiple servers for performance. After user accounts have been defined, users connect from available Windows, Mac, or Linux computers on the network.
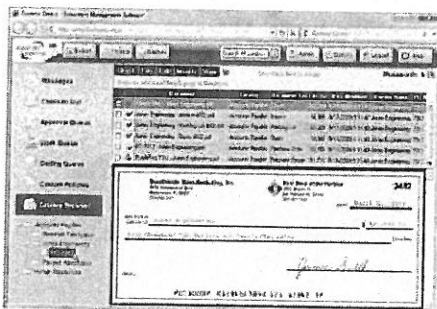

Inside Content Central you can create documents using PDF-based electronic forms. Documents and other files can be captured from document scanners, network folders, e-mail accounts, or user interaction. Content Central converts scanned images into fully searchable PDF files, and all documents can be retrieved using content keywords and other index information based on the type of document. Integrated e-mail and fax tools allow you and your team to distribute documents without requiring external software. A powerful workflow engine can manage your information behind the scenes based on system events or schedules.

Best of all, you receive every feature for one affordable price, paying only by the number of users required; there aren't any confusing add-on modules to worry about.

eCopy® ShareScan® Office

Every day, knowledge workers, managers, and administrative personnel need to get more done in less time by transforming paper into electronic documents. More than ever, on-demand scanning solutions are key to increasing productivity and accelerating business processes by automating workflows that anyone can access right at the copier.

eCopy ShareScan Office lets you scan paper documents and bring them into your daily collaboration, desktop publishing, and archiving workflows. In addition to secure scan-to-Email, scan-to-PC, and scan-to-file functionality, ShareScan Office can automatically convert those scanned documents into searchable PDFs or editable Microsoft Word and Microsoft Excel files and connect to your document management system.

eCopy ShareScan Office can also be expanded with numerous Nuance and partner connectors and extenders to further automate and integrate document workflows. From simple scanning to sophisticated conversion, eCopy ShareScan Office delivers exceptional speed, accuracy, productivity, and cost savings.
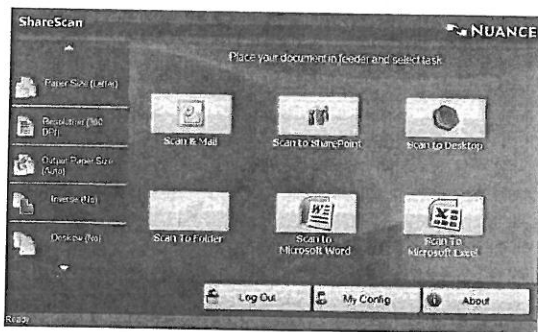

A simple interface enables users to quickly scan and send documents to their destination—right from the copier.

Touch screen user interface may vary by device.

eCopy ShareScan Office is the preferred MFP scanning and OCR solution to integrate paper documents into electronic office workflows. ShareScan Office captures paper-based information and brings it directly into Microsoft Office, eliminating the need to rekey, distribute, or archive paper. Built on a highly scalable, open, modular, device-independent, client-server platform, ShareScan Office delivers enterprise-grade performance and high ROI.

Features and benefits

- The Best MFP Scanning and OCR Solution for Productivity —Our best-in-class UI eliminates training, ensures rapid adoption, and generates the fastest ROI.

- Superior Usability—From single sign-on and one-button OCR and routing, to scrolling/fly-out menus and fast access to personal favorites, ShareScan Office is the easy answer streamlining paper-intensive office workflows. See a preview image, select from your personal Email address book or choose Email distribution lists—right from the copier's touch screen.

- Automatically Convert Hardcopy Originals into Accurate, Formatted, Editable Softcopy—Scan, convert, and edit Microsoft Word, Excel, and PDF files—including columns, graphics, and tables. You save time and money, with high accuracy and less reformatting.

- Industry-Leading Mail and File System Integration—Access global and personal address books and browse folders right at the copier—no need to go back to your desk to file or route documents. The "Express" mode automates routine Email distributions and sent Email appears in the user's personal "Sent Items" folder. And offline processing and notification means you can submit large batches and return to your office before completion.

- Streamlined Archival with Flexible ECM Options—eCopy ShareScan Office provides complete integration to content management, network folders, SQL databases, and more. Connect with your choice of leading ECMs such as Share-Point, RightFax, EMC Documentum, iManage WorkSite, OpenText DM, or OpenText eDOCS.

- Leverage Microsoft Investments—ShareScan office integrates with Active Directory®, Exchange, SharePoint1, Access®, as well as additional application connectors created by third-party software companies using the ShareScan SDK.

- Lower Document-Processing Costs—Fast, accurate recognition and conversion means you can automate more processes, improve productivity, and keep your business moving faster.

KONICA MINOLTA

SCANPATH™

SCANPATH
SCAN TO OFFICE, WORKFLOW, SHAREPOINT, WEB

EASILY CONVERT SCANNED DOCUMENTS TO WORD, EXCEL, POWERPOINT, PDFS AND MORE. SCAN TO CUSTOM-BUILT WORKFLOWS SUCH AS ACCOUNTING, LEGAL AND HR. SEND SCANNED DOCUMENTS TO GOOGLE DRIVE, BOX, DROPBOX AND MORE. SCAN DIRECTLY TO MICROSOFT SHAREPOINT DIRECTLY INTEGRATED WITH KONICA MINOLTA BEST-ENABLED MFDS.

Easily Convert and Process Scanned Documents

- At the multifunction device (MFD) user panel, select the desired scanning or document process.
- Enter either your or another person's email address, or browse a folder on the network and select applicable folder, to which you want the file sent.
- Place your documents into the MFD document tray and select "Enter" – you're done.

Convert Scans to Editable Word, Excel, PDFs & More

- Convert scanned documents to 9 different editable document and image electronic file formats.
- ScanPath has a powerful OCR (optical character recognition) engine that recognizes the text images on a page and converts it into editable text.

Scan to Network Folders

With ScanPath, it's easy to scan and automatically deposit documents to network folders for processing by others.

Scan to Custom-built Workflows

Custom workflow processes can be created and published to the MFD panel. These workflows can be created for:

- Accounting (invoice scanning & processing, purchase orders, expense reports, etc.)
- Legal (case records, discovery records, etc.)
- HR (employee records, résumé processing, etc.)

Scan Directly to Web On-line Repositories

With ScanPath, you can automatically scan documents and images from the MFD directly to the following web repositories: Google Drive, Dropbox, Box, Picasa, Microsoft SkyDrive, and Evernote. Your on-line log-in information is securely stored in ScanPath so you can log into both the MFD and your on-line document repositories at the same time.

Scan Directly to SharePoint

You can also automatically file documents scanned from the MFD directly into Microsoft SharePoint. Saves time and improves efficiencies.

Scan with barcode cover sheet

A barcode cover sheet can be used for documents that cannot be OCRed directly, due to quality or being handwritten. This works with all documents, regardless of their quality or consistency, and is ideal when working with multi-page documents that are being batch-scanned.

Follow Printing & Secure Release

Securely release your print jobs from either a web-enabled mobile device (such as a smart phone or tablet), PC, or from the user panel of the MFD. Provides convenient follow and secure printing to unlimited users.

Integrated Bates Stamping

Scan directly to pre-defined Bates stamping profiles from the user panel of the MFD. Bates stamping profiles include document serialization, naming, dates, and much more. It's easy for legal firms and departments to establish Bates stamping profiles for different cases and clients.

Microsoft Outlook Integration

Emails sent by ScanPath from the MFD appear in the users Outlook Sent folder. Allows users to easily keep track of all emails from his/her desktop.

Multiple MFD Machine Profiles

Each MFD can have a different configuration and profile allowing maximum flexibility in multi-MFD environments. Ideal when different departments require different MFD profiles and capabilities.

ScanPath Licensed by MFD

ScanPath resides on a non-dedicated, local Microsoft Windows-based server within the user's organization. A single ScanPath can handle up to 50 separate MFDs. There are no restrictions on the number of people using ScanPath at each MFD; however, each MFD does require a ScanPath license.

Dispatcher
Phoenix Government

Solutions.

At a time of shrinking budgets, rising costs and increasing expectations, government agencies are naturally looking for new ways to increase productivity, streamline processes and serve the public with greater speed, accuracy and efficiency. Konica Minolta's Dispatcher Phoenix Government provides government employees with the tools they need to handle their documents — quickly, efficiently and securely.

With Dispatcher Phoenix Government, state and federal employees can have instant access to the information they need while complying with security regulations. And manual document processes can be automated, reducing the risk of human error while optimizing operational efficiency.

Fast, Efficient Document Distribution.

Dispatcher Phoenix Government automatically collects, processes and distributes government documents such as records, applications, cross-agency communications and other filings to multiple outputs — all in a single step. Document files can be sent to network/local folders, email recipients, printers, and popular document management systems such as Microsoft SharePoint. With its visually appealing folder browsing feature at the MFP, Dispatcher Phoenix Government gives you a familiar, Windows Explorer-like view of your directory structure to help you select the correct folder as your scan destination.

Integration with Secure Infrastructure.

Through Konica Minolta MFPs, Dispatcher Phoenix Government integrates with the federal government's smart card platform to provide a seamless, secure solution that addresses federal security concerns and mandates. With support for both authentication via CAC and PIV cards and Active Directory, Dispatcher Phoenix Government meets the Two-Factor Homeland Security Presidential Directive known as HSPD-12.

Protecting Documents.

Along with CAC/PIV authentication, other security features include:

- Copy Defender process to prevent unauthorized copying of sensitive documents.
- Intelligent redaction, which permanently removes personal information from documents.
- File conversion to password-protected PDFs.
- Fully integrated support for Microsoft Windows local and domain policies for security audit and tracking.

Streamlining Government Workflows.

To help state and federal agencies as well as public sector organizations optimize workflow efficiency, Dispatcher Phoenix Government includes automated processes that get the job done quickly and accurately. You can make information instantly retrievable by converting paper-based files into PDF Searchable. Read and route invoices based on barcode. Edit scanned images by converting files to Microsoft Office formats, such as Word or Excel. Rename files at the MFP. Other advanced automated processes include zonal OCR for data extraction, metadata routing, ODBC connectivity for integration with common databases — and much more.

SharePoint Connectivity.

Dispatcher Phoenix Government includes a connector to Microsoft SharePoint for document storage, accessibility and collaboration. Files can be automatically distributed to SharePoint or directed to SharePoint at the MFP during time of scanning. Just scan, index, and send each document to the appropriate SharePoint folder — all with a few quick taps on your MFP control panel.

Dispatcher
Phoenix **Government**
Protect Your Documents.
Dispatcher Phoenix Government comes with a Copy Defender process that prevents the unauthorized copying of sensitive documents. Add Copy Protection features to documents automatically, such as pantograph backgrounds, stamps that mark copies as "Unauthorized," "Illegal Copy," etc., and more.
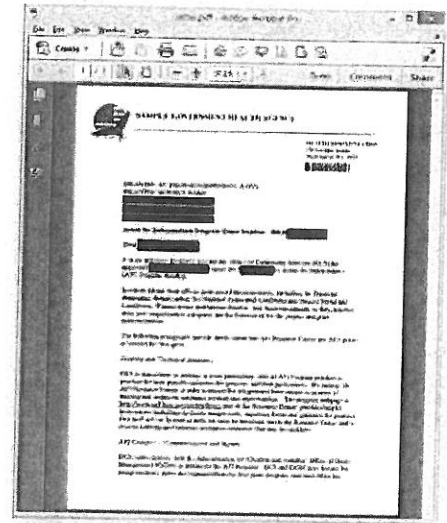

Automatic Redaction.
With Dispatcher Phoenix Government's intelligent redaction, confidential information can be automatically and permanently removed from your document. And redaction search terms can be modified or added at the MFP panel for the utmost flexibility.

Direct Integration at the MFP.
Dispatcher Phoenix Government provides a fully integrated experience at the MFP using a unique, visually appealing display. And folder browsing at the MFP is simple and intuitive with Dispatcher Phoenix Government's Windows Explorer like view of your directory structure. Select what folder you'd like to browse to, view files within folders and sub-folders, and even create a new folder — all directly at the MFP.

OP12 - A CO#2
Customized.

Dispatcher Phoenix is a family of automated document workflow solutions from Konica Minolta. For government, professional and general business applications, Dispatcher Phoenix can optimize business processes, reduce costs and increase productivity — providing advanced automation features that minimize time-consuming manual document handling and processing tasks.

Dispatcher Phoenix is available in several versions to best suit different needs. All versions of Dispatcher Phoenix include a graphical Workflow Builder tool, an intuitive Workflow Scheduler, full MFP integration with a visually enhanced display, document indexing and folder browsing capabilities at the MFP, robust authentication options, and add-in options that allow you to enhance the speed and efficiency of your document workflow. Add-in options include:

- Forms processing to automatically extract and process unique identifiers from forms (social security numbers, birth dates, etc.) using pattern matching so you don't have to know the specific content.

- Connectors to cloud storage providers — Box, Dropbox, WebDAV, Microsoft OneDrive, FileAssist (Konica Minolta's new cloud document management solution), etc.

- Advanced Bates stamping to automatically apply counters, metadata, static text, and more — anywhere on the page.

- Advanced job routing features to send your print job to the most suitable or cost-effective printer.

- Connectors to other content management systems, including OnBase® by Hyland and Worldox® by World Software.
