**GENERAL TERMS & CONDITIONS
PURCHASE ORDER/CONTRACT**

1. **ACCEPTANCE:** Seller shall be bound by this order and its terms and conditions upon receipt of acceptance of this order.
2. **APPLICABLE LAW:** The laws of the State of West Virginia and the *Legislative Rules* of the Purchasing Division shall govern all rights and duties under the Contract, including without limitation the validity of this Purchase Order/Contract.
3. **NON-FUNDING:** All services performed or goods delivered under State Purchase Orders/Contracts are to be continued for the terms of the Purchase Order/Contract, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise available for these services or goods, this Purchase Order/Contract becomes void and of no effect after June 30.
4. **COMPLIANCE:** Seller shall comply with all Federal, State and local laws, regulations and ordinances including, but not limited to, the prevailing wage rates of the WV Division of Labor.
5. **MODIFICATIONS:** This writing is the parties final expression of intent. No modification of this order shall be binding unless agreed to in writing by the Buyer.
6. **ASSIGNMENT:** Neither this Order nor any monies due, or to become due hereunder may be assigned by the Seller without the Buyer's consent.
7. **WARRANTY:** The Seller expressly warrants that the goods and/or services covered by this Order will: [a] conform to the specifications, drawings, samples or other description furnished or specified by the Buyer; [b] be merchantable and fit for the purpose intended; and/or [c] be free from defect in material and workmanship.
8. **CANCELLATION:** The Director of Purchasing may cancel any Purchase Order/Contract upon 30 days written notice to the Seller.
9. **SHIPPING, BILLING & PRICES:** Prices are those stated in this order. No price increase will be accepted without written authority from the Buyer. All goods or services shall be shipped on or before the date specified in this Order.
10. **LATE PAYMENTS:** Payments may only be made after the delivery of goods or services. Interest may be paid on late payments in accordance with the *West Virginia Code*.
11. **TAXES:** The State of West Virginia is exempt from Federal and State taxes and will not pay or reimburse such taxes.
12. **RENEWAL:** Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.
13. **BANKRUPTCY:** In the event the vendor/contractor files for bankruptcy protection, this Contract is automatically null and void, and is terminated without further order.
14. **HIPAA BUSINESS ASSOCIATE ADDENDUM:** The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, and available online at the Purchasing Division's web site (<http://www.state.wv.us/admin/purchase/vrc/hipaa.htm>) is hereby made part of the agreement. Provided that, the Agency meets the definition of a Covered Entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the vendor.

2 SPEEDTRANSFER CASE	\$168.00
GRAY RUNNING BOARDS	\$338.00

Miscellaneous: Inspection of Sample Vehicle(s): Within one week after the issuance of a purchase order, the successful bidder shall make arrangements to deliver to the West Virginia State Police, 725 Jefferson Road, South Charleston, West Virginia, a sample vehicle having the same general body, chassis, engine and transmission as the vehicle on which the bid was submitted. This vehicle is not a patrol vehicle and may be a vehicle from the dealer's stock. It will be used as a prototype for determining the method of attaching various items of police equipment.

The standard factory warranty of the vehicle bid shall be clearly specified within the body of the Vendor's bid submission. In addition, any available extended factory warranties which are optional shall also be bid as separate items, listing all areas and items covered.

Note: Equipment installation to be at the factory and not "add on" dealer accessories. Any exception(s) will be clearly stated within the body of the respective Vendor's bid submission.

Inspection, Testing and Evaluation -- State Police Vehicle Only .

Pre-Delivery: Prior to delivery, each, new vehicle must be completely serviced in accordance with standard new car dealer "make ready" preparation and in accordance with these specifications and the manufacturer's recommendations. Crankcase, differential, transmissions and fuel tank must be filled to capacity as recommended by the manufacturer. Each vehicle shall contain a pre-delivery check sheet showing what operations have been performed on the vehicle and signed by the mechanic(s) or individuals that worked on the same prior to the department inspection.

Delivery, Testing and Evaluation: Vehicles will be inspected, tested and evaluated to determine if they meet the requirements of this specification.

Vehicles will be delivered by the dealer. (Vehicles purchased by the West Virginia State Police will be delivered to 725 Jefferson Road, South Charleston, West Virginia.) Vehicles will not be accepted until inspected and approved by the Purchaser. All repairs and corrections will be the responsibility of the dealer. Dealer will provide dealer's license, insurance (as required for dealer license), and reasonable management assistance for pre-delivery acceptance inspections. If the successful bidder's car does not meet the requirements of this specification, it will be rejected.

Dodge Charger: Taking Control at All Times

Police-Specific ESP

For maximum vehicle control, the Dodge Charger Police Vehicle is equipped with our exclusive Electronic Stability Program⁽¹⁾ (ESP), which has been specifically calibrated for police use. It electronically detects and automatically assists drivers in critical driving situations, including adverse conditions.

ESP Components:

- Antilock Brake System (ABS)
- All-Speed Traction Control
- Yaw Sensor
- Steering Angle Sensor

ESP technology works by constantly comparing the driver's intended course with the vehicle's actual course, detecting differences, applying the brakes to individual wheels and controlling engine power to help keep the vehicle on its intended path.

For example, in the event the vehicle understeers, ESP automatically applies the inside rear brake to help the driver achieve the desired turn. It may also reduce engine power.

The opposite occurs when a vehicle oversteers. ESP automatically applies the outside front brake to help correct the oversteer or "fishtail" situation.

⁽¹⁾ No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESP warning lamp in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Please always wear your seat belt.

Standard ESP — One of a Kind

Charger is the only police vehicle with standard ESP with three different modes. A study conducted by the National Highway Traffic Safety Administration (NHTSA) shows that electronic stability control, our ESP system, reduced single-vehicle crash risk for cars by 35 percent.

Three Levels of Stability

The special police version of ESP found on Charger and Magnum operates in three different modes:

- **ESP On** offers fully enhanced vehicle stability
- **Partial Off** turns the system partially off, modifying ESP thresholds and disabling traction control at low speeds
- **Full Off** works the same as **Partial Off**; however the ESP function is turned completely off

In all modes, ABS and Brake Assist are not affected.

ESP works in concert with the vehicle's brake system, which includes heavy-duty, four-wheel disc antilock brakes and Brake Assist — all standard and all designed to deliver maximum braking power.

Dodge Charger: Engineered to Handle the Way You Drive

Police-Specific Brake System

For quicker stopping power, Charger is equipped with an impressive brake system that is unique to police vehicles and includes:

- High-performance brake pads — front and rear
- Heavy-duty four-wheel disc brakes with ABS
- 13.6x1.1-inch-vented front rotors
- 13.8x1.0-inch-vented rear rotors
- Modified rear caliper
- Larger master cylinder

The standard antilock brake system — with unique ABS calibration — increases vehicle control and stability under extreme braking conditions. Charger is also equipped with Brake Assist. This standard feature helps apply maximum braking power in emergency situations.

Steering/Suspension

Dodge Charger features performance-tuned steering that really excels at high speeds, as well as a heavy-duty, performance-tuned suspension that incorporates rear load leveling and height control to handle bigger cargo loads. Charger is also the only rear-wheel-drive police vehicle with a standard short/long arm front suspension and a five-link rear suspension, providing high-performance handling, optimal ride comfort and maximum traction.

Best-in-Class Braking and Handling

According to 2005 Michigan State Police vehicle testing, Dodge Charger delivers best-in-class braking power — 60-0 mph in 130.1 feet (projected stopping distance). And according to 2005 Los Angeles County Police testing, Dodge Magnum and Dodge Charger took first and second place in the handling phase, as well as top honors in brake testing, pursuit and acceleration.

Tires/Wheelbase

Handling, ride comfort and traction are further accentuated by Charger's standard 18-inch heavy-duty steel wheels and P225/60R18 all-season performance tires — the largest offered on a police car.

Dodge Charger has the longest wheelbase in its class — 120 inches. It also has a nearly 50/50 front-to-rear weight distribution for improved balance and traction. Its “wheels-to-the-corners” design and wider track provide greater stability and improved handling.

Dodge Charger: Designed with Police Officers in Mind

Outstanding Safety Features

Dodge Charger has earned five stars, the highest frontal crash test rating, from NHTSA. This outstanding rating results from Charger's rigid Unibody steel construction, a structure that provides solid occupant protection. Three distinct front-crush zones absorb and direct-impact energy away from the passenger compartment.

Front and Supplemental Side Air Bags

To protect officers inside the vehicle, multistage driver and front-passenger air bags are standard.⁽¹⁾

Supplemental side-curtain air bags are available and provide an additional level of protection from side impacts. They may not be compatible with the prisoner partition.

Charger is equipped with a saddlebag fuel tank that is mounted forward of the rear axle.

⁽¹⁾ Always use seat belts. Remember, a booster seat is the safest place for children 12 and under.

Best-in-Class Rear-Seat Leg Room

Dodge Charger provides more rear-seat leg room than the Ford Crown Victoria or Chevrolet Impala police vehicles.

Seats

Charger's heavy-duty front bucket seats are covered in heavyweight cloth, and the seats' low side bolsters allow enough space for taller, fully equipped officers to comfortably buckle their seat belts over their utility belts.

Police-Specific Shifter

The five-speed automatic transmission shift lever is mounted on the instrument panel to make room for police equipment in the center console area, and to prevent accidental downshifting. When activated, AutoStick® enables police officers to manually select optimal gearing while driving. The standard tilt steering column adjusts easily to the driver's comfort.

Police Lighting

To also help with nighttime activities, the Stealth Mode Switch turns off instrument cluster and radio indicators and dims the PRNDL to the lowest legal level.

Spacious Trunk

When outfitted with the standard compact spare tire, Charger's trunk delivers 16.2 cubic feet of cargo capacity. The optional full-size spare tire mounts above and forward of the compact tire mounting, providing plenty of storage room for police equipment.

Dodge Charger and Magnum Designed to Keep Your Uprighting Costs Down

Police-Specific Features

From their inception, Dodge Charger and Magnum Police Vehicles were designed with the needs of law enforcement agencies in mind. Proof can be found in the many features that are exclusive to these vehicles ... police-specific features designed to make it easier for your officers to do their jobs while keeping your upfitting costs down.

LED Interior Dome Lamp

Charger and Magnum have an available unique, independently-switched red/white LED interior dome lamp. It gives officers a white light to illuminate the interior and a red light for use with night vision equipment.

Police Equipment Mounting Bracket

The Chrysler Group is also the only OEM to provide a standard Police Equipment Mounting Bracket. This unique bracket is installed in the center console area between the front and rear seats and provides a single surface to easily mount a radio, computer system, video control and other police equipment.

Police Equipment Interface Module

Another feature unique to Charger and Magnum is the Police Equipment Interface Module. This police vehicle first gives upfitters a single interface connection for most aftermarket electrical police equipment. It's located under the instrument panel center stack area.

120-Amp Power Connection

In the same location is a standard, auxiliary 120-amp power connection that consists of three 20-amp fused battery feeds and three 20-amp fused ignition feeds.

Easy Path Wiring Grommet

Both Charger and Magnum are equipped with a unique Easy Path Wiring Grommet in the engine bulkhead. It makes wiring easier for upfitters and the flexible cone can be adjusted to the amount of wiring passing through, thus providing a tight seal to prevent moisture from entering the cabin.

Wigwags

Completing our list of best-in-class interior features are the standard integrated headlamp and taillamp flashers, or wigwags. This police vehicle first — direct from an automotive manufacturer — provides a single connection that helps reduce the amount of time an upfitter would spend installing the wigwags. The wigwags must be activated by the upfitter.

Dodge Charger and Magnum:
Standard and Optional Police Equipment

STANDARD POLICE EQUIPMENT

- 160-amp high-output alternator
- 160-mph or 260-km/h (certified) calibrated speedometer
- 18x7.5-inch steel wheels
- 3.5-liter High Output V6 engine with 250 hp @ 6,400 rpm and 250 lb-ft of torque @ 3,800 rpm
- 800 CCA battery
- AM/FM radio with CD player, changer controls, four speakers, and clock with auxiliary audio input jack
- Bright hubcaps
- Easy Path Wiring Grommet between underhood and passenger compartments
- External oil coolers: engine oil, transmission fluid, power steering fluid
- Five-speed automatic transmission with overdrive and AutoStick®
- Four-wheel disc heavy-duty antilock brakes with all-speed traction control
- Four-wheel independent performance suspension
- Heavy-duty cloth front bucket seats with manual lumbar and rear fixed cloth bench seat
- Fixed vinyl rear bench seat (Magnum)
- Instrument panel-mounted shift lever
- Load-leveling, height-control shock absorbers
- P225/60R18 BSW V-rated performance tires
- Police Equipment Mounting Bracket
- Police Performance Electronic Stability Program (ESP)⁽¹⁾ with Brake Assist and all-speed traction control
- Police performance-tuned steering
- Trunk-lid/rear liftgate key lock cylinder (Charger/Magnum)

STANDARD POLICE EQUIPMENT (CONT.)

- Security alarm system⁽²⁾
 - Separate key and key fob
 - Severe-duty cooling system
- #### STANDARD POLICE ELECTRICAL EQUIPMENT

 - Front — Height-adjustable, outboard shoulder belts, three-point
 - Rear — Non-height-adjustable shoulder belts, three-point
- Speed Control
- Steering Column — Tilt
- Windows — Power with driver's one-touch-down feature
- Windshield Wipers — Two-speed with variable intermittent modes

⁽¹⁾ No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESP warning light in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Please always wear your seat belt.

⁽²⁾ Not available with key alike.

⁽³⁾ Always use seat belts. Remember, a backseat is the safest place for children 12 and under.

⁽⁴⁾ May not be compatible with some aftermarket equipment.

Dodge Charger and Magnum: Dimensions/Specifications/Colors

DIMENSIONS⁽¹⁾/SPECIFICATIONS

Exterior	Charger	Magnum
Wheelbase	120.0	120.0
