Wood Finish/Color Legend

Because of the natural properties of wood, variations of grain and finish color can be expected. Haworth carefully selects materials used in the manufacturing of products to ensure consistent and acceptable color.

Wood is susceptible to color change from exposure to UV rays. Haworth controls this by using surface finishes to reduce color change. However, change may be more evident in light-colored finishes.

Haworth wood products are available with either an EcoShield™ water-based finish or a hand-applied, water-based finish.

EcoShield water-based and conversion varnish finished products are not designed to go together and are not recommended for use within the same space.

Masters Series has a water-based, UV cured EcoShield finish.

Wood Finish/Color Legend

Because of the natural properties of wood, variations of grain and finish color can be expected. Haworth carefully selects materials used in the manufacturing of products to ensure consistent and acceptable color.

Wood is susceptible to color change from exposure to UV rays. Haworth controls this by using surface finishes to reduce color change. However, change may be more evident in light-colored finishes.

Haworth wood products are available with either an EcoShield™ water-based finish or a hand-applied, water-based finish.

EcoShield and conversion varnish finished products are not designed to go together and are not recommended for use within the same space.

Vancouver has a water-based, UV cured EcoShield finish.

York Tables Finish Matrix

York's finishing system is a durable, high performance, hand-applied, water-based finish, providing a superb visual appearance of the grain definition. York's finishing system does not contribute to *Leed CI 4.5 Indoor Air Quality*. Also, please not that the P veneer finished may be slightly different in appearance versus the water-base finishes on other Haworth product lines. Please take this in consideration when combining other Haworth wood products with York.

Wood Group B (Option P)

Plain-Cut Veneer	Finish Color	Finish Code
Cherry	*Amber*	YD-CA1
	American	YD-W23
	Carmel	YD-W33
	Heritage	YD-W30
	Pacific	YD-W32

	Sand	YL-AD
Walnut	*Espresso*	YN-W15
	Mahogany Satin	YN-W21
	Naturally	YN-W12
	Retro	YN-W31

Note: Option P finish is comprised of **plain cut** *(flat, straight sliced)* veneers, laid in book-matched application information. Plain cut veneers are know for cathedral formations within the grain.

Work-tops are finished in a uniform plain cut veneer.

Wood Group B (Option Q)

Quarter-Cut	Finish Color	Finish Code
Anegre	*Golden*	V1-Y18
Ash	*Flax*	V2-Y01
Maple	*Sycamore*	VQ-Y14
Khaya	*Cinnamon*	V4-Y16
Lyptus	*Cabernet*	V6-Y12
Lyptus	*Coffee*	V6-Y10

Note: Option Q finish is comprised of **quarter cut** *(quartersawn)* veneers mated with a ***figured*** veneer (where applicable). Quarter cut veneers are sliced to exhibit straight-grained formations. The cut of a Figured veneer is guided by wood species to achieve unique and attractive grain patterns (figures).

Work-tops are finished in a quarter cut veneer, laid in book-matched application.

- Finished with conversion varnish.
- Two-piece tops are field joint built and secured with tight joint fasteners.
- Knife edge is 1 1/2″(38mm) thick solid wood with a rake of 20.82° tapering 3″(76mm) from the edge.
- Black inlay is 1/8″(3mm) thick and set 3″(76mm) from the edges.
- Cutouts available for separately specified Electric Lift Interface Module.
  –2 Cutout option available on all sizes.
  –3 Cutout option available on tops 192″(4877mm) wide or greater.
- Base, Electric Lift Interface Module and Glass Centerpiece must be specified separately.

Note: On site measurements should be taken to ensure there is adequate room in elevators and/or hallway conditions to accommodate the top sizes.

To Order, Specify:

1) Product number, including:

❶ Cutout Option:

- **2** Two (left/right) cutouts for Electric Lift Interface Module, add **$436.80** list
- **3** Three (left/center/right) cutouts for Electric Lift Interface Module, add **$655.20** list (192″(4877mm) width or greater)
- **N** No cutout

2) Wood finish.

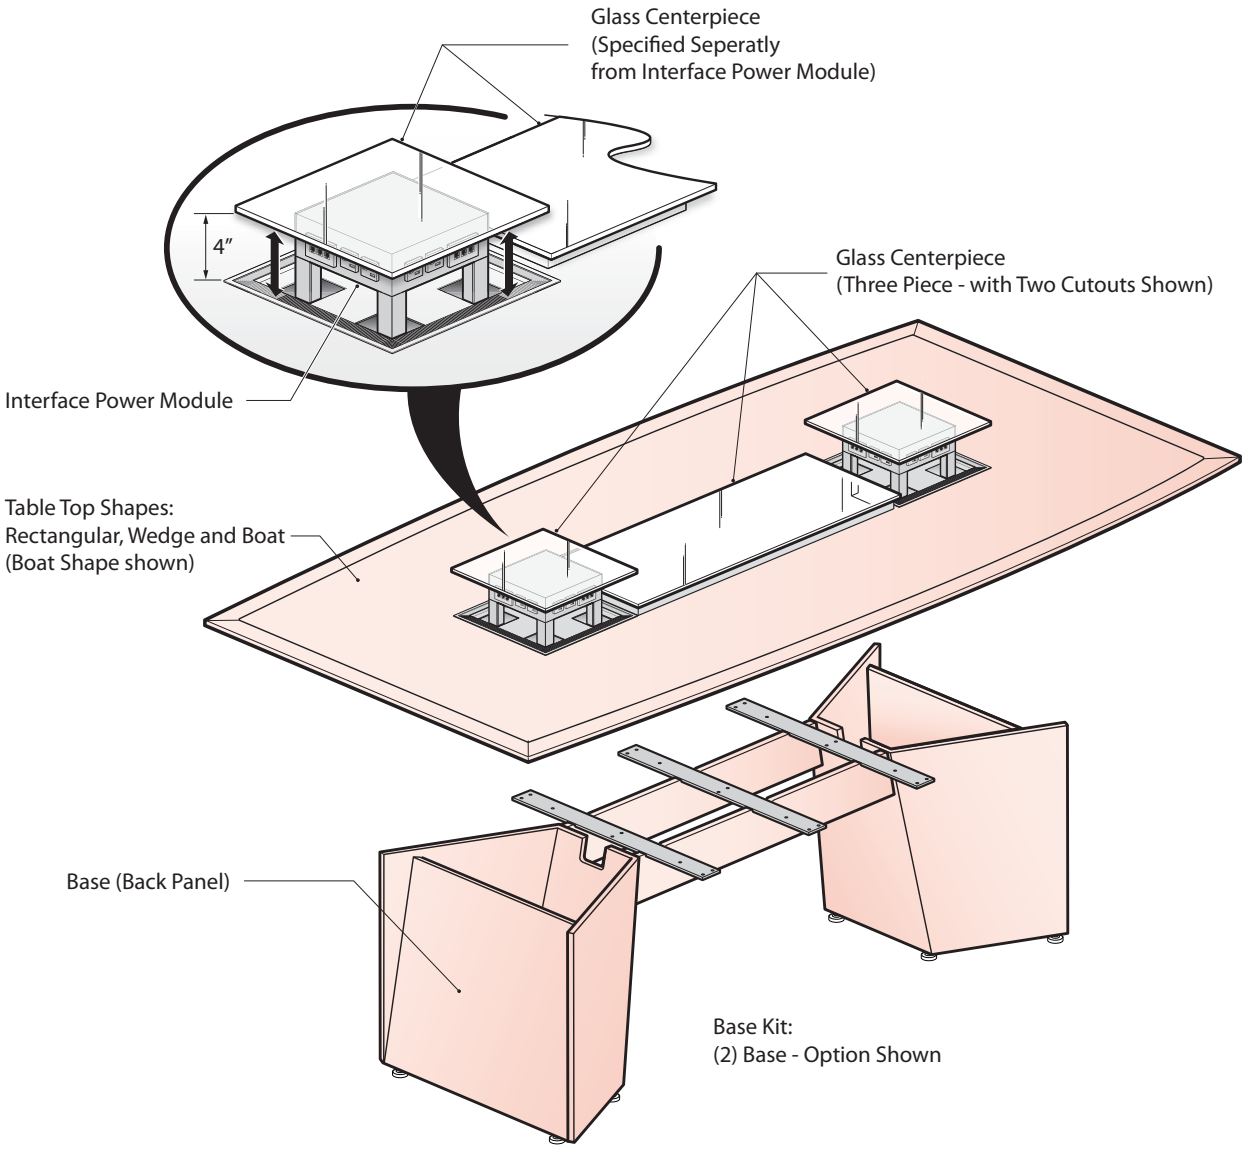
Executive Wood Tables – A5 — Specifications



Construction Features

- One piece tops (120" [3048mm] widths) are constructed with 1 ½"(38mm) fiber board substrate.
- Two piece tops (132" -240" [3353mm-6096mm] widths) are constructed with 1½"(38mm) fiber board substrate and are secured together with tight joint fasteners. The tops are field joint built to go together.
- Knife edge is 1 ½" (38mm) thick solid wood with a rake of 20.82° tapering 3" from the edge. The top of the edge is made of quarter cut veneer of the species specified for the top, creating a 3" border which is separated by the field with a ⅛" (3mm) thick black inlay.
- Base height is 28" (711mm).
- Finished table height is 29 ½ " (749mm).
- Table top dimensions are actual; however, the tables are natural wood and dimensional variance is +/- ¼" per top.
- Boat Table Top Depth / Taper:
  - The 54" depth Boat Table Top tapers to a 48" depth at each end.
  - The 60" depth Boat Table Top tapers to a 54" depth at each end.
- Wedge Table Top Depth / Taper:
  - The 54" depth Wedge Table Top tapers to a 42" depth on one end.
  - The 60" depth Wedge Table Top tapers to a 48" depth on one end.

Wood / Finish Features

- Top field veneer is plain-sliced and book-and-center matched; border is quarter-cut veneer.
- Veneer is AWI (Architectural Woodworking Institute) Grade AA tops with conversion varnish finish. Refer to finish matrix.
- Table is designed for non-dining applications; it is highly recommended that a protective accessory be used on table tops when possible.

Construction Features

- One piece tops (36″-120″[914mm-3048mm] widths) are constructed with 1 1/2″(38mm) fiber board substrate with solid wood segmented edges.
- Two piece tops (132″-240″[3353mm-6096mm] widths) are constructed with 1 1/2″(38mm) fiber board substrate with solid wood segmented edges and tight joint fasteners. The tops are field joint built to go together.
- All base heights are 28″(711mm).
- All finished table heights are 29 1/2″(749mm).
- Solid wood edges are constructed of the same species as the veneer specified on the tops and are applied to tops in segments.
- 2 3/4″(70mm) thick edges (Bullnose Smooth and Bullnose Notched) are build-up construction with mitered corners; 1 1/2″(38mm) thick edges are solid core construction with butt joint corners. Refer to Edge Details.
- Dimensions are actual, however the tables are natural wood and dimensional variance is ± 1/4″(6mm) per top.

Wood/Finish Features

- All exposed veneers are plain-sliced and book-and center-matched (excludes patterns).
- Executive Wood Tables feature AWI (Architectural Woodwork Institute) Grade AA tops. They are finished with a hand-applied, water-based finish. Refer to Finish Matrix.
- Executive Wood Tables are designed for non-dining applications; it is highly recommended that a protective accessory be used on table tops when possible.

Pattern and Border Options

Flip Top Unit Cutout Locations

One-piece tables are available with a single centered cutout option. If a centered flip top unit cutout is specified, the cutout is located at half the length and half the depth of the table top.

Two-piece tables are available with a dual left and right cutout option, which is located at half the depth and one/third the length from both ends. The cutout is sized for a dual-sided flip top unit, which is specified separately.

Executive Wood Tables Finish Matrix

Wood Finish/Color Legend

Because of the natural properties of wood, variations of grain pattern and finish color can be expected. Materials used in the manufacturing of products are carefully selected to promote consistent and acceptable color. Wood is susceptible to color change as it ages and is exposed to sunlight.

Natural finish on Oak, Maple and Beech is a clear coat only and will show all the characteristics of the wood.

Non-standard wood finishes are available for an additional charge and at extended lead times.

Haworth wood products are available with either an EcoShield™ water-based finish or a hand-applied, water-based finish.

EcoShield and conversion varnish finished products are not designed to go together and are not recommended for use within the same space.

Executive Wood Tables are finished with a hand-applied, water-based finish.

Notes:
- Specifying a common stain color for casegoods, wood seating, and wood occasional tables will result in a suite of furniture which has a commercially acceptable finish match.
- Different wood species are offered on the various casegoods, chairs, and tables. Each species offer unique texture, grain, and color of raw wood and veneer. Minor variations in finish color and texture may occur due to these natural characteristics of wood. This is part of the natural beauty of wood and is not considered to be a defect.

Tripoli Finish Matrix

Wood Finish/Color Legend

Because of the natural properties of wood, variations of grain and finish color can be expected. Haworth carefully selects materials used in the manufacturing of products to ensure consistent and acceptable color.

Wood is susceptible to color change from exposure to UV rays. Haworth controls this by using surface finishes to reduce color change. However, change may be more evident in light-colored finishes.

Haworth wood products are available with either an EcoShield™ water-based finish or a hand-applied, water-based finish.

EcoShield and conversion varnish finished products are not designed to go together and are not recommended for use within the same space.

Tripoli has a water-based, UV cured EcoShield finish.

North American Terms of Sale

These Terms of Sale are part of a quotation, bid response, or other sales document issued by Haworth, Inc., Haworth, Ltd. ("Haworth").

These Terms of Sale do not cover products manufactured in North America shipping to non-North American countries nor do they cover products manufactured in non-North American countries shipping to North America. For those terms of sale, please contact Haworth's Global Trade and Compliance Department at 616.393.3000 or through Haworth.com.

A. Ordering Information

Haworth sells its products on the terms set forth in these standard Terms of Sale:

ORDERS MUST BE SUBMITTED IN WRITING OR ELECTRONICALLY (Lynx) AS REPRESENTED BY A VALID PURCHASE ORDER, WHICH INCLUDES PRODUCT TOTAL.

An order is not binding upon Haworth until Haworth issues an order acknowledgment to the customer (the "Customer"), which will include price information and an anticipated delivery date.

1. Order Changes/Cancellations

For Specials, Customer's Own Material (C.O.M.), finish matches, custom colors, custom products, Master lock and key orders, and RUSH orders, no changes or cancellations are allowed 24 hours after order placement. All other products require approval for changes or cancellations. A change/cancellation fee may apply. Contact Order Services for applicable charges.

Ship-to addresses changed within five (5) business days of delivery will incur fees to cover administrative costs due to re-labeling of product and/or reconsignment fees with the carrier.

Order cancellations are complete annulments of orders. Order changes are the deletion of line items or a change in size, color, quantity, ship-to address, or scope of work. There is no penalty for additions; however, any change may cause the order or the line items affected to be rescheduled. Order changes involving additional product and services which increase the value must be accompanied by an amended Purchase Order or other document as agreed.

ALL CHANGES MUST BE IN WRITING, REGARDLESS OF THE (DOLLAR) VALUE. CHANGES ARE NOT BINDING UPON HAWORTH UNTIL HAWORTH ISSUES AN ACKNOWLEDGMENT OF THE CHANGE.

2. C.O.M. (Customer's Own Material)

A Customer who requests a fabric, surface or finish material (C.O.M.) not in Haworth's standard finish offering must first confirm approval of or request new approval for the C.O.M.

Haworth will determine feasibility of the material for manufacturability. For a description of the procedure to submit C.O.M. samples, contact Haworth's Order Services department. For testing information, see the C.O.M. section of the catalog, or call Haworth Order Services.

If Haworth agrees to use the C.O.M., (1) Haworth shall have no responsibility for the condition, quality, value, performance, physical properties, or any other aspect of the C.O.M.; and (2) Haworth shall have no liability for any damages, injuries, or losses to the Customer or to any third party that shall be caused by any C.O.M., and the Customer shall hold Haworth harmless for all such liability.

3. Valid/Complete Purchase Order

The following information is required in order to process an order with Haworth:

a. Customer Information

i. **Sold To:** Legal name, complete address (if Haworth is to bill the end user, provide end user Purchase Order made out to Haworth, Inc., Haworth, Ltd.) and phone and fax number.

ii. **Ship To:** Legal name and address.

iii. **Purchase Order Number:** From the party Haworth will be billing.

iv. **Authorized Signature:** All Purchase Orders must be signed by a duly authorized representative if a signature line is present. Electronically transmitted Purchase Orders will be accepted without a signature if dealer billed and the dealer has an electronic purchase payment agreement on file.

v. **Contact Name and Phone Number:** Person Haworth should contact with any questions regarding the order.

vi. **Shipping Contact:** Name and phone number of person to be contacted regarding shipping and delivery matters.

vii. **Tagging Instructions:** This information will appear on all documentation received from Haworth including: cartons, acknowledgments, and invoices.

viii. **Price Agreement or National Sales Agreement Number**

ix. **Product Total:** Net dollars.

x. **Installation, Design, Project Management, and/or Service Fees**

b. Product Information

i. **Quantity**

ii. **Product Numbers**

iii. **Colors**

iv. **Specials:** Specify special part number for new special products.

v. **Customer's Own Material:** Order entry code, manufacturer, pattern, and color.

vi. **Approval Drawings:** An authorized signature by a duly authorized representative is required for shop drawings when applicable.

vii. A deposit may be required for custom materials.

c. Order Confirmation

All orders will be acknowledged.

B. Pricing Policies

1. Terms of Payment

Terms of payment and credit limits will be established based on financial information. Standard payment terms on open credit are net thirty (30) days from invoice date. Advance payments or other payment security may be required by Haworth. The account balance must be at or below the credit limit and current at all times (no past-due balances). Haworth reserves the right to delay or cancel any delivery to a Customer whose Haworth account balance is over the credit limit and/or past due. For walls and floors a deposit will be required.

2. Terms of Credit

Customer hereby authorizes Haworth to obtain such credit reports, financial information or other information as Haworth may request, including, without limitation, credit information from any financial institutions or others having a business relationship with the Customer. Customer hereby authorizes any credit references to answer Haworth's inquiries and provide such credit information and documentation as Haworth may request.

The Customer hereby releases and holds Haworth harmless for any inconvenience whatsoever, caused by any temporary or permanent withdrawal or restriction of credit privileges hereunder, or the enforcement of any of the provisions contained in this paragraph.

3. Past-Due Charges

Past-due balances will be increased by a maximum of 1.5% per month, or 18% annually, without forfeit of Haworth's right to immediate payment.

4. Applicable Prices

The price of any product sold to Customer by Haworth will be based upon the North American Price List (Catalog).

Prices and discounts are subject to change without notice or approval. In the event of an adjustment to pricing, National Sales Agreement (NSA) Customers will be notified in advance according to the terms of the NSA.

Applicable prices and currency exchange rates are those in effect at the time of the RECEIPT of an **ORDER**; Haworth reserves the right to use the published pricing effective at the time of shipment, if the requested delivery date is more than 120 days after the order receipt date.

North American Terms of Sale

Haworth Flooring products are sold using the North American price list in US dollars. Currency exchange rates at the time of the transaction will be used to convert the USD amount into the alternate currency. Should the currency exchange rate between the USD and alternate currency change between a quote and the receipt of an order, the alternate currency amount will also change to equal the current, equivalent USD amount.

5. C.O.M. (Customer's Own Material) Charges

Refer to appropriate Customer's Own Material (C.O.M.) form for applicable surface material charges.

6. Taxes

Haworth prices do not include customs duty, sales, use, value added or similar taxes. Any federal, state/provincial or other taxes or assessments based upon the sale or delivery of products or services sold applicable to the customer at present or later imposed by federal, state/provincial or municipal agencies, shall be added and paid by the customer. Customer is responsible for all such taxes.

NOTE: For all countries a valid sales tax exemption certificate must be approved by and on file with Haworth prior to product shipment. Otherwise, sales tax will be due and payable to Haworth when such tax is invoiced to Customer.

7. Services

If, as a result of Customer request, the Haworth dealer or Haworth subsidiary provides planning/design services, storage, project management, special handling, set-up, installation and/or other services, the Customer will be charged at the local Haworth dealer/subsidiary's prevailing rates.

8. Termination by Haworth

Haworth may immediately terminate an order upon written notice in the event bankruptcy or insolvency proceedings are instituted by or against the Customer, or the Customer is adjudicated as bankrupt, becomes insolvent, makes an assignment for the benefit of creditors, or proposes or makes any arrangements for the liquidation of its debts, or a receiver or receiver and manager is appointed with respect to all or any part of the assets of the Customer.

C. Shipping and Delivery

Haworth will have the right to determine the method of shipment and routing of product.

This section does not apply to any of Haworth's Flooring products. All Haworth Flooring products are sold freight collect.

If, for any reason, a delivery has to be made to an intermediate location (i.e. a location other than the "Ship To" location noted on the order or ultimate end user location), all handling and re-delivery costs incurred would be at the Customer's expense.

1. U.S.A. - Contiguous

All deliveries will be CPT (Carriage Paid To) (ICC Incoterms 2010) Haworth's manufacturing facilities or distribution centers. Freight charges will be prepaid by Haworth on all orders to locations within the continental United States. Customer bears all risk of loss or damage to the goods when they are placed on Haworth's means of transport.

2. U.S.A. - Non-contiguous (Alaska, Hawaii and Puerto Rico)

All deliveries will be CIF (Cost, Insurance and Freight) (ICC Incoterms 2010). Haworth's catalog prices include ocean freight and insurance to the port of the final destination. Haworth has the right to determine the carrier, method of shipment and routing. Haworth will contract with the insurer and provide minimal insurance coverage (CIF @ 110%) made payable to the Customer. Customer is responsible to obtain greater insurance if so desired.

Customer bears all risk of loss or damage to the goods when the goods are effectively at the disposal of the Customer on board the vessel at the named port of destination. Proof of delivery is a clean on board bill of lading. Customer will be responsible for all on-carriage from the receiving port to the final destination.

3. Canada

All deliveries will be DDP (Delivered Duty Paid) (ICC Incoterms 2010). Haworth's catalog prices include delivery to Customer's named place, not unloaded from any arriving means of transport. Customer bears all risk of loss or damage to the goods when they are delivered to the Customer's named facility not unloaded. Haworth will assume responsibility to file all freight claims with the carrier for any loss/damage which may occur while product is in transit, and will promptly repair or replace any damaged or lost product. Haworth requires the Customer to report all freight damage and/or loss to both the carrier and to Haworth.

NOTE: Under all delivery terms (U.S.A. and Canada), any additional expense resulting from Customer's request for expedited transportation, special services, packaging, handling, routing, and/or shipping method will be billed to Customer.

4. Mexico

All deliveries will be DAP (Delivered to Place) (ICC Incoterms 2010). Haworth's catalog prices include freight charges for normal surface transportation to a United States point of exportation within the 48 contiguous states. Haworth has the right to determine the carrier, method of shipment and routing.

Customer bears all risk of loss or damage to the goods when the goods are delivered to the named United States point of exportation. Haworth will provide customs clearance facilitation and arrangement of local delivery through an Authorized Dealer in Mexico, on a separately negotiated basis. Otherwise the Customer will be responsible for all customs clearance formalities and on-carriage from the United States point of exportation to the final destination in Mexico.

5. Delivery Dates and Delay

If Haworth cannot deliver products as scheduled due to causes beyond its reasonable control (such as casualty, labor disputes, or accident; inability to obtain necessary labor, material or transportation; or changes requested by the Customer), the delivery date will be extended to compensate for the delay as determined by Haworth.

6. Delivery Shortages and Damage

Product shortages and damage must be noted on delivery receipts at the time of delivery and reported to the carrier for correction.

Claims against Haworth for shortages, errors, or damage must be made within ten (10) days of the date of delivery or the Customer waives the right to make such a claim. Signed Bill of Ladings or Delivery Receipt must be sent in with claims. See the Haworth/Haworth Dealers Roles and Responsibilities document for further details.

7. Storage

Haworth may transfer product to storage at the Customer's risk and expense if the Customer is unable or unwilling to take delivery of product as originally scheduled. Upon such transfer to storage, the Customer assumes risk of loss. Haworth will invoice the Customer for storage fees and the Customer will make payments in accordance with Haworth's standard payment terms.

North American Terms of Sale

D. General Terms

1. Governing Law

For products purchased for delivery in the U.S. pursuant hereto, this Agreement shall be governed by and construed according to the laws of the State of Michigan. Where Products are purchased for delivery in Canada pursuant hereto, this Agreement shall be governed by and construed according to the laws of the Province of Alberta. In either case, the parties attorn to the exclusive jurisdiction of the courts of Michigan and Alberta, respectively for the purpose of hearing any disputes arising under this Agreement or with respect to any Products sold pursuant hereto, and agree that the provisions of the United Nations Convention on Contracts for the International Sale of Goods and any other provision or law which would have the effect of applying the laws of any jurisdiction other than Michigan or Alberta, as the case may be, shall be excluded.

2. Force Majeure

In the event that the performance of Customer or Haworth or its participating dealer assignee(s) would be prevented, restricted, interfered with or rendered commercially impracticable by reason of Force Majeure, then upon the giving of notice to the other parties, the party affected by the Force Majeure shall be excused from performing hereunder until the Force Majeure no longer prevents, restricts, interferes with, or renders such performance commercially impracticable.

"Force Majeure" shall mean: fire, explosion, breakdown of plant, epidemic, hailstorm, snow/ice storms en route, hurricane, tornado, cyclone, flood or power failure; war, revolution, civil or military disturbances, acts of public enemies, acts of terrorism, blockade or embargo; any law, order, proclamation, regulation, ordinance, demand or requirement of any applicable governmental authority or any subdivision, authority, or representative of any such government; labor difficulties, including without limitation, strikes, slowdowns, picketing or boycotts; or difficulties beyond Haworth's reasonable control in obtaining necessary raw materials, labor, fuels and electric power, components or facilities, and any other circumstances beyond the control of the party affected.

3. Delays by Customer

Where Haworth has not received adequate site dimensions, Product specifications, shipping information, installation particulars or other information required by Haworth to permit the efficient manufacture of any Products, or where site conditions are not in accordance with the Installation Requirements set forth, or are not otherwise suitable to permit effective and efficient installation, the manufacture and/or delivery of Products may be delayed, and such event shall constitute a delay by the Customer. When manufacture, delivery or installation is delayed by the Customer or at the Customer's request: (i) Haworth may, at its option, present the invoice for the full price of the Products to the Customer as then due and payable; (ii) the Customer shall pay to Haworth all reasonable storage, handling and other reasonable incidental expenses incurred by Haworth in connection with such delay; and (iii) the Customer shall bear all risk of loss or damage to the Products being held by Haworth for the Customer.

4. Use and Installation of Products

Haworth recommends that its products be installed by certified, qualified and approved installers according to Haworth's written installation procedures. The Customer agrees to use Haworth products properly; not to remove or alter safety devices, warnings, or operation instructions placed on products by Haworth, and to instruct employees as to the proper care and use of the products according to printed instructions.

5. Warranty

Haworth's standard North American Warranty will apply as appropriate. All product line warranty specifics are available in each catalog or upon request.

E. Services

Service requests for design, installation, relocation, storage, etc. are handled by the local Haworth dealer on a separately negotiated basis. Contact the local Haworth dealer, affiliate or area sales office for more details.

Scope of Work - Design

Customer acknowledges that the Products to be manufactured or procured by Haworth in connection with the order are or may be custom manufactured for the Customer and that Haworth may be required to perform extensive work in relation to the design and specification of such Products. Where Customer requests that Haworth create as-built drawings or make more than two material revisions to any particular Product design or specification, Customer agrees that Haworth shall be entitled to invoice Customer with respect to such additional work on the basis of Haworth's then prevailing rates for related design and specification services.

Installation Requirements

Where installation services are to be provided by Haworth, its authorized dealer or subcontractor, a document will be provided setting forth the scope of installation work to be performed (the "Scope of Work") and the price to be charged therefore. Unless otherwise specified in the scope of work, Haworth's installation services are limited to products sold by Haworth with the exception of lighting, under floor electrical and data.

General Conditions

(a) Sufficient time shall be allocated by the Customer following delivery of Products and prior to Customer's occupation of the premises to allow the installation of all Products during conventional working hours, Monday through Friday, 7:30 a.m. to 4:30 p.m. Where sufficient time is not allocated and Haworth is required or requested to perform installation work outside of such times, overtime charges shall be charged at Haworth's then prevailing rates. (b) Haworth shall be given free and exclusive access to; (i) a loading dock within 150′ of the freight elevator or hoist, which loading dock shall be of sufficient size to enable full-size tractor-trailer deliveries to the premises (where required by Haworth); (ii) a freight elevator or hoist of sufficient size and capacity to allow the efficient movement of the Products; (iii) an unobstructed and safe pathway to the area where Products are to be stored or staged; (iv) a secure storage / staging area; (v) convenient trash facilities; (vi) adequate lighting; (vii) a work site that complies with applicable health and safety legislation. Where such areas and facilities are not available, Haworth shall be entitled to bill Customer for all amounts incurred by Haworth for double-handling, product movement, lifting, hoisting, trash removal and any other resulting charges. (c) The installation site shall be free and clear of existing furniture, debris, or other obstructions (including construction in progress) and shall otherwise be in the reasonable opinion of Haworth ready for installation of the Products. Any building where Products are to be installed shall be fully closed in, dry and protected from the natural elements, with temperatures between 40°F and 90°F (4°C and 32°C) and relative humidity not to exceed 70% at all times including receipt of products, during and after installation and shall be adequately heated and/or air-conditioned. Where unusual site conditions exist which impede or prevent the normal installation of any Products, applicable extra charges shall apply at prevailing rates. (d) Haworth's installation pricing is based upon the installation occurring as one continuous delivery and installation project. Phased installation pricing shall be provided by Haworth on a case by case basis. (e) Electrical hardwiring, plumbing and mechanical work is not included and shall be the responsibility of the Customer. (f) Except as may be otherwise specifically indicated, installation pricing does not apply to projects where union labor is required. Where Haworth has provided installation pricing on the basis that non-union labor be utilized, and where Haworth is required to use union labor or it otherwise becomes impractical to use non-union labor, or where Haworth is required by law to use prevailing wages, Haworth shall be entitled to charge the Customer for any cost differential between the anticipated cost of non-union labor and the actual cost of utilizing union or prevailing wage labor. (g) Haworth shall not be responsible for obtaining permits.

North American Terms of Sale

Project / Site Conditions

Lateral load bracing is not included in the scope of Haworth's work and shall not be performed by Haworth. In areas where flooring Products are to be installed by Haworth overhead construction must be completed prior to the commencement of such work to avoid damage to the panels and finishes. The existing subfloor must be smooth, mopped clean, free of moisture, dust, dirt and debris. Once installed, the access floor must be maintained in the same manner. The subfloor must have a maximum vertical elevation deviation of 0.375″ (10mm) over a horizontal span of 10′-0″ (3m), and without discontinuities in floor slope. For greater certainty, the scope of Haworth's installation work in such areas shall not be deemed to include any work required to level such subfloor, remove protrusions, remove pre-existing floor coverings or adhesives, or any other work which is required to remedy any conditions which may impede the efficient installation of flooring. Except as may be otherwise specifically indicated in the order, installation pricing for flooring Products and the Scope of Work in relation thereto shall not include any work required to remove and replace floor panels following their initial installation to provide tradespersons or others with access to the underpanel cable management cavity. In areas where movable walls are to be installed, all flooring (including carpeting) and ceiling components (including dropped ceiling grid components) shall be fully complete and ready for the installation of the movable wall products. Further, the existing floor (or other surface on which the movable wall panels are to be installed) shall have a maximum vertical deviation of 1.25″ (30mm) and the dropped ceiling grid shall have a maximum vertical deviation of 0.375″ (10mm) from the specifications to which such movable wall panels were designed and manufactured (collectively the "Permitted Tolerances"), and shall otherwise comply with any site condition assumptions made known to Haworth prior to the manufacture of such Products (the "Site Assumptions"). Where the Permitted Tolerances or Site Assumptions are not strictly adhered to or met, additional charges may be incurred in connection with site remediation and/or the modification or remanufacture of affected movable wall products, together with all resulting shipping and labor charges at Haworth's then prevailing rates for such Products and services.

Installation Change Orders

Where Customer requests work to be performed or materials to be provided which are not contemplated in the Scope of Work, or Customer otherwise requests Products or services not contemplated in the order (collectively "Extras"), prior to providing such Extras Haworth reserves the right to require the Customer to provide and sign a written Purchase Order or Change Order acceptable to Haworth describing the Extras and the amounts to be charged therefore, and the Customer agrees to pay such charges.

Entire Agreement

The order and this Agreement (including applicable Schedules) constitute the sole agreement between the parties and supercede any prior understanding or written or oral agreements between the parties (excluding National Sales Agreements). No waiver of any of the provisions of these Standard Terms and Conditions shall be binding on Haworth unless expressly agreed in writing.

PRODUCT NON-OBSOLESCENCE AND WARRANTY POLICY

This North American Haworth Product Non-Obsolescence and Warranty Policy (the "policy") applies to products manufactured after May 8, 2015. For products manufactured before this date please refer to the policy published in the NA Price List when purchased or contact your local Authorized Haworth Dealer. All Haworth products are warranted for 24 hour / 7 day use over the length of the Applicable Warranty Period as set forth below.

Haworth, Inc. or Haworth, Ltd., (each called "Haworth") will make a good faith effort to maintain product compatibility within our various generations of integrated product platforms to provide our customers with spaces that adapt to change. Under our non-obsolescence policy, we commit to provide our customers with products of comparable function or operational characteristics for a term equal to the Applicable Warranty Period. Haworth fabrics and finishes must be updated periodically to maintain the market appeal of our products and respond to the demands and changing preferences of our customers. As a result, we or the manufacturer may discontinue some fabrics and finishes before expiration of the Applicable Warranty Period.

If a new product purchased or leased from Haworth or from an Authorized Haworth Dealer proves to be defective (as defined below) while the product is still in the possession of the initial purchaser or lessee and if they, within the Applicable Warranty Period, inform Haworth of the defect by contacting the local Authorized Haworth Dealer, then, except as provided below, Haworth will, at Haworth's option, either repair or replace the product, at Haworth's expense, or refund the purchase price of the product. Except as provided below, a product shall be considered "defective" if Haworth finds that it is defective in material or workmanship and if the defect materially impairs the use of the product to the purchaser or lessee. The applicable warranty period begins on the day the product is manufactured. If a product that the purchaser or lessee references in a notice of defect was not installed by a Haworth Certified installer and/or reconfigured by a Haworth-trained installer, then the product may not be considered defective and Haworth will not be obligated to repair or replace it or to refund its price.

PRODUCTS / APPLICABLE WARRANTY PERIOD

LIFETIME

All Haworth products are warranted for lifetime *except products, components and materials described below:*

TWELVE YEARS

All Haworth NA manufactured seating is warranted for 24/7 multiple shift use by persons up to 325 lbs and includes the framework, mechanisms, seating foam, seat & back mesh and seating glides & casters.

All wood or wood framed products.

TEN YEARS

All wall products (excluding soft close door mechanisms warranted for Two Years), electrical components (excluding Power Base™ AI, USB receptacles and workware products), electrical accessories, fixed task lighting (excluding LED lighting), adjustable keyboard pads, monitor arms and products that are at any time used in a classroom or educational environment (other than administration areas) *except as limited or described below:*

FIVE YEARS

Fabric scrims and fabrics rated Heavy Duty (A) under the Association of Contract Textiles Guidelines, leather, vertical use markerboard laminates, user-adjustable worksurface mechanisms, gel arm caps, thermofused laminates, slow close mechanisms, LED lighting, Power Base™ receptacles with USB charging outlets, electronic ballasts used in task lighting, horizontal glass or thermoplastic table assemblies and Systems Accessories.

THREE YEARS

Power Base AI Electrical products, workware™ products, Hoop products (excludes any warranty for surface damage such as scratches, dents or abrasions), plastic ultraviolet light color fastness and fabrics rated General Contract (a) under the Association of Contract Textiles Guidelines.

ONE TO FIVE YEARS*

Products that are manufactured outside North America and sold into the North American market.

ONE YEAR

Horizontal use markerboard laminate, Openest™ Plume Screens, soft palm rest, mouse pad insert and translucent edging.

Haworth "Specials" products that involve simple modification of a standard based product will be warranted for the same period as the standard catalog product it is based on. Haworth "Specials" products that deviate from standard catalog product in the form of features, construction, function, or aesthetic will be warranted for 1 year.

All software is without warranty of any kind, either expressed or implied.

All service parts are warranted for two years or the remaining balance of the assembly's original warranty period, whichever is longer.

*The Applicable Warranty Period for each such product is specified in Haworth's price list for the product.

A product will not be considered to be defective, and Haworth will not repair, or replace it or refund its price if the product (1) is a consumable product, such as a lamp; (2) is "Customer's Own Material" (i.e. material specified by the purchaser or lessee that is not a standard Haworth product offering, such as Haworth Alliance fabrics); (3) is not installed and used as recommended in Haworth's written specification, installation, care, maintenance and user guides; (4) has been otherwise misused or suffered abusive damage or (5) is a product that is manufactured by a third-party supplier from whom Haworth purchases it for resale without incorporating it into Haworth product (in which case Haworth will assign to the purchaser or lessee any warranty that the manufacturer provides), unless otherwise specified by Haworth in writing. At all times the Covered Product must have been located in a building that is (i) dry, fully closed-in and protected from the natural elements, and (ii) adequately heated, ventilated and air conditioned in order to maintain an internal temperature between 40°F and 90°F (4°C and 32°C) and relative humidity levels between 25% and 55%.

A defect in material or workmanship does not include damage to a product, or failure of a product to operate or perform properly or to maintain appearance, caused by (a) normal wear and tear; (b) an Act of God or transportation; (c) a product alteration made without Haworth's express written authorization; (d) the natural variation of color, grain or texture found in wood and leather; (e) the natural aging found in materials such as wood, fabric and leather which results in colors shifting during use; (f) dye lot variations in fabric, leather or wall covering (g) the natural patina of leather during use; (h) "puddling" of leather or faux leather; or (i) reverse crocking of dyes from clothing onto our seating materials.

EXCEPT AS STATED ABOVE, HAWORTH DOES NOT MAKE A WARRANTY AS TO ANY PRODUCT AND, IN PARTICULAR, DOES NOT MAKE A WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE. Product repair or replacement or refund of the price, at Haworth's option, in accordance with this Policy, is the purchaser's or lessee's exclusive remedy for a product defect. Haworth shall not have tort liability with respect to a product, and Haworth shall not be liable for any consequential, economic, indirect, special, punitive or incidental damages arising from a product defect. Haworth shall not be liable for repair or product placement due to improper installation or any defect in materials used for installation which are not manufactured, sold or supplied by Haworth.

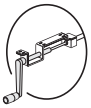
Incremental Adjustment



Crank Adjustment

Features

- Includes 1 3/16″(30mm) thick top, two C-Leg base assemblies, one center post leg, wire management clips, height adjustment mechanism and hardware.
- A 64″(1626mm) 2-piece top includes a 46″(1168mm) corner and 18″(457mm) rectangular top; 70″(1778mm) includes a 52″(1321mm) corner and 18″(457mm) rectangular top.
- Laminate top with T-mold or 3mm edgeband edges or wood veneer top with 3mm wood edgeband.
- Two piece tops are available with 3mm edgeband only.
- Top available in standard or green core option.
- Height adjustment mechanisms:
  - –Incremental adjustment base assembly adjusts in 1″(25mm) increments within 22″(559mm) to 35″(889mm) height range. Button head screws are standard in bright zinc. Base standard with black telescoping base tubes. Thumbscrew replacement for button head screw is available; separately specified.
  - –Hand crank provides 1″(25mm) vertical movement for every 6 turns within 27″(686mm) to 45″(1143mm) height range. Hand crank is field installed on either right or left side and retracts under the table top. Base standard with black telescoping base tubes and J-rails.
- Painted base includes leg assembly and foot.
- Glides have 1/2″(13mm) height adjustment standard in black.
- Grommets are available for field installation; separately specified.
- Depth and width shown in nominal dimensions.
- Ships unassembled.

Specification Tips

- One-piece tops are non-handed; two-piece tops are handed.
- The seamless primary user side of the table (side without rectangular top) determines the handedness from a seated position.
- Size of the corner top is reflected in the catalog logic which allows for a 2″(51mm) pinch point in space planning; 58″(1473mm) corner may be space planned as a 60″(1524mm) corner for modular planning purposes.
- Not for use with AKP's or attached Pedestals.
- Electrical Flip Top Unit is field installed, if applicable.
  - –29″(737mm) deep table will accommodate a Single Electrical Flip Top Unit
  - –23″(584mm) deep table will not accommodate an Electrical Flip Top Unit
- Table load capacity (including top) and weight should be evenly distributed.
  - –Incremental and hand crank: 250 pounds
- Screen and Monitor Arm application:
  - –29″(737mm) deep table supports a 27″(686mm) high Belong screen and a monitor up to 50 lbs.
  - –23″(584mm) deep table supports either a 27″(686mm) high Belong screen or a monitor up to 25 lbs.

- Painted base includes leg assembly and foot.
- Glides have 1/2″(13mm) height adjustment standard in black.
- Grommets are available for field installation; separately specified.
- Depth and width shown in nominal dimensions.
- Ships unassembled.

Specification Tips

- One-piece tops are non-handed; two-piece tops are handed.
- The seamless primary user side of the table (side without rectangular top) determines the handedness from a seated position.
- Size of the corner top is reflected in the catalog logic which allows for a 2″(51mm) pinch point in space planning; 58″(1473mm) corner may be space planned as a 60″(1524mm) corner for modular planning purposes.
- Not for use with AKP's or attached Pedestals.
- Electrical Flip Top Unit is field installed, if applicable.
  - –29″(737mm) deep table will accommodate a Single Electrical Flip Top Unit
  - –23″(584mm) deep table will not accommodate an Electrical Flip Top Unit
- Table load capacity: 175 pounds
- Table load capacity (including top) and weight should be evenly distributed.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.
- Screen and Monitor Arm application:
  - –29″(737mm) deep table supports a 27″(686mm) high Belong screen and a monitor up to 50 lbs.
  - –23″(584mm) deep table supports either a 27″(686mm) high Belong screen or a monitor up to 25 lbs.

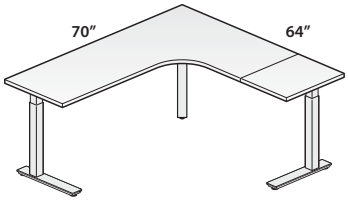
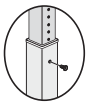
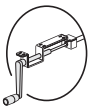
TACE-4064-NCDB
(Left-hand Orientation)



TACE-6470-NCDE
(Left-hand Orientation)



Incremental Adjustment



Crank Adjustment

Features

- Includes 1 3/16″(30mm) thick top, two C-Leg base assemblies, one center post leg, wire management clips, height adjustment mechanism and hardware.
- A 64″(1626mm) x 70″(1778mm) 2-piece top includes a 52″(1321mm) corner and 18″(457mm) rectangular top.
- Laminate top with T-mold or 3mm edgeband edges or wood veneer top with 3mm wood edgeband.
- Two piece tops are available with 3mm edgeband only.
- Top available in standard or green core option.
- Height adjustment mechanisms:
  - –Incremental adjustment base assembly adjusts in 1″(25mm) increments within 22″(559mm) to 35″(889mm) height range. Button head screws are standard in bright zinc. Base standard with black telescoping base tubes. Thumbscrew replacement for button head screw is available; separately specified.
  - –Hand crank provides 1″(25mm) vertical movement for every 6 turns within 27″(686mm) to 45″(1143mm) height range. Hand crank is field installed on either right or left side [except 40″(1016mm)] and retracts under the table top. Base standard with black telescoping base tubes and J-rails.
- Painted base includes leg assembly and foot.
- Glides have 1/2″(13mm) height adjustment standard in black.
- Grommets are available for field installation; separately specified.
- Depth and width shown in nominal dimensions.
- Ships unassembled.

Specification Tips

- Handedness determined by length side of table from seated position.
- Size of the corner top is reflected in the catalog logic which allows for a 2″(51mm) pinch point in space planning; 58″(1473mm) side may be space planned as a 60″(1524mm) side for modular planning purposes.
- Not for use with AKP's or attached Pedestals.
- Electrical Flip Top Unit is field installed, if applicable.
  - –29″(737mm) deep table will accommodate a Single Electrical Flip Top Unit
  - –23″(584mm) deep table will not accommodate an Electrical Flip Top Unit
- Table load capacity (including top) and weight should be evenly distributed.
  - –Incremental and hand crank: 250 pounds
- Screen and Monitor Arm application:
  - –29″(737mm) deep table supports a 27″(686mm) high Belong screen and a monitor up to 50 lbs.
  - –23″(584mm) deep table supports either a 27″(686mm) high Belong screen or a monitor up to 25 lbs.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate

Laminate or Wood – Incremental or Crank Adjustment

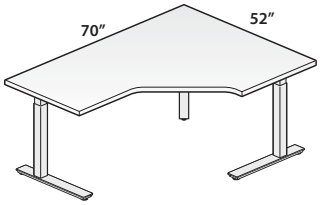
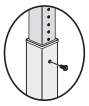
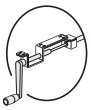
TACP-4070-NCDB
(Left-hand Orientation)



TACP-5270-NCDB
(Left-hand Orientation)



Incremental Adjustment



Crank Adjustment

Features

- Includes 1 3/16″(30mm) thick top, two C-Leg base assemblies, one center post leg, wire management clips, height adjustment mechanism and hardware.
- A 64″(1626mm) x 70″(1778mm) 2-piece top includes a 52″(1321mm) corner and 18″(457mm) rectangular top.
- Laminate top with T-mold or 3mm edgeband edges or wood veneer top with 3mm wood edgeband.
- Two piece tops are available with 3mm edgeband only.
- Top available in standard or green core option.
- Height adjustment mechanisms:
  - –Incremental adjustment base assembly adjusts in 1″(25mm) increments within 22″(559mm) to 35″(889mm) height range. Button head screws are standard in bright zinc. Base standard with black telescoping base tubes. Thumbscrew replacement for button head screw is available; separately specified.
  - –Hand crank provides 1″(25mm) vertical movement for every 6 turns within 27″(686mm) to 45″(1143mm) height range. Hand crank is field installed on either right or left side [except 40″(1016mm)] and retracts under the table top. Base standard with black telescoping base tubes and J-rails.
- Painted base includes leg assembly and foot.
- Glides have 1/2″(13mm) height adjustment standard in black.
- Grommets are available for field installation; separately specified.
- Depth and width shown in nominal dimensions.
- Ships unassembled.

Specification Tips

- Handedness determined by length side of table from seated position.
- Size of the size top is reflected in the catalog logic which allows for a 2″(51mm) pinch point in space planning; 58″(1473mm) side may be space planned as a 60″(1524mm) side for modular planning purposes.
- Not for use with AKP's or attached Pedestals.
- Electrical Flip Top Unit is field installed, if applicable.
  - –29″(737mm) deep table will accommodate a Single Electrical Flip Top Unit
  - –23″(584mm) deep table will not accommodate an Electrical Flip Top Unit
- Table load capacity (including top) and weight should be evenly distributed.
  - –Incremental and hand crank: 250 pounds
- Screen and Monitor Arm application:
  - –29″(737mm) deep table supports a 27″(686mm) high Belong screen and a monitor up to 50 lbs.
  - –23″(584mm) deep table supports either a 27″(686mm) high Belong screen or a monitor up to 25 lbs.

To Order, Specify:

1) Product number, including:

Planes Height Adjustable Table — Corner, 90° Notched Extended

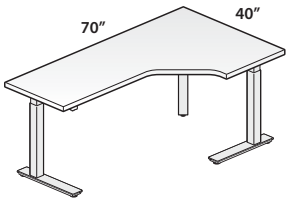
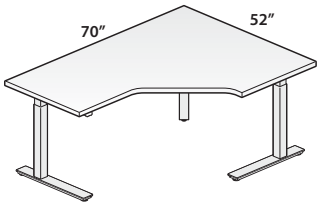
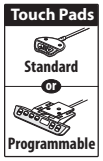
Laminate or Wood – Electric Adjustment



TACP-4070-NCEB
(Left-hand Orientation)



TACP-5270-NCEB
(Left-hand Orientation)



Features

- Includes 1 3/16″(30mm) thick top, two C-Leg base assemblies, one center post leg, wire management clips, height adjustment mechanism and hardware.
- A 64″(1626mm) x 70″(1778mm) 2-piece top includes a 52″(1321mm) corner and 18″(457mm) rectangular top.
- Laminate top with T-mold or 3mm edgeband edges or wood veneer top with 3mm wood edgeband.
- Two piece tops are available with 3mm edgeband only.
- Top available in standard or green core option.
- Height adjustment touch pad actuator options:
  - –Single Stage Touch Pad Actuator available in Standard (E) up/down movement or Programmable (R) providing four different up/down programmed heights. Provides 27″(686mm) to 46″(1168mm) continuous height adjustment range.
  - –Dual Stage Low Touch Pad Actuator available in Standard (P) up/down adjustment or Programmable (S) stores four different up/down programmed heights. Provides 22″(559mm) to 48″(1219mm) continuous height adjustment range.
  - –Dual Stage High Touch Pad Actuator available in Standard (Q) up/down adjustment or Programmable (T) stores four different up/down programmed heights. Provides 24″(610mm) to 50″(1270mm) continuous height adjustment range.
- Touch Pad Actuator:
  - –Can be mounted on left or right side of table; predrilled for field installed and field changeable.
  - –Touch pad actuator has touch pad controls and standard with black housing.
  - –Control box is field installed and standard with black housing.
- Height adjustment: 1″(25mm) per 1.6 seconds.
- Standard with black telescoping base tubes and J-rails.
- Includes: 9.5′(2895.6mm) long black power cord with NEMA 5-15P plug to the building.
- Painted base includes leg assembly and foot.
- Glides have 1/2″(13mm) height adjustment standard in black.
- Grommets are available for field installation; separately specified.
- Depth and width shown in nominal dimensions.
- Ships unassembled.

Specification Tips

- Handedness determined by length side of table from seated position.
- Size of the corner top is reflected in the catalog logic which allows for a 2″(51mm) pinch point in space planning; 58″(1473mm) side may be space planned as a 60″(1524mm) side for modular planning purposes.
- Not for use with AKP's or attached Pedestals.
- Electrical Flip Top Unit is field installed, if applicable.
  - –29″(737mm) deep table will accommodate a Single Electrical Flip Top Unit
  - –23″(584mm) deep table will not accommodate an Electrical Flip Top Unit
- Screen and Monitor Arm application:
  - –29″(737mm) deep table supports a 27″(686mm) high Belong screen and a monitor up to 50 lbs.
  - –23″(584mm) deep table supports either a 27″(686mm) high Belong screen or a monitor up to 25 lbs.
- Table load capacity: 175 pounds
- Table load capacity (including top) and weight should be evenly distributed.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

- **T** T-Mold
- **J** Edgeband
- **K** Wood Edgeband

❸ Core Options:

- **S** Standard
- **G** Green, add **$113.63** list

❹ Height Adjustment Actuator:

Single Stage:

- **E** Standard
- **R** Programmable, add **$130.87** list

Dual Stage, Low:

- **P** Standard
- **S** Programmable, add **$130.87** list.

Dual Stage, High:

- **Q** Standard
- **T** Programmable, add **$130.87** list.

❺ Depth and Orientation:

23″ deep tops:

- **E** Left-hand
- **H** Right-hand

29″ deep tops:

- **F** Left-hand
- **J** Right-hand

2) Laminate surface color or wood finish color.

3) Edge trim color (laminate only).

4) Base trim color.

Note: **$41.10** upcharge list for Metallic and accent trim colors.

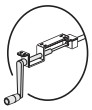
Incremental Adjustment



Crank Adjustment

Features

- Includes 1 3/16″(30mm) thick top, two C-Leg base assemblies, one center post leg, wire management clips, height adjustment mechanism and hardware.
- Laminate top with T-mold or 3mm edgeband edges or wood veneer top with 3mm wood edgeband.
- Top available in standard or green core option.
- Height adjustment mechanisms:
  - –Incremental adjustment base assembly adjusts in 1″(25mm) increments within 22″(559mm) to 35″(889mm) height range. Button head screws are standard in bright zinc. Base standard with black telescoping base tubes. Thumbscrew replacement for button head screw is available; separately specified.
  - –Hand crank provides 1″(25mm) vertical movement for every 6 turns within 27″(686mm) to 45″(1143mm) height range. Hand crank is field installed on either right or left side and retracts under the table top. Base standard with black telescoping base tubes and J-rails.
- Painted base includes leg assembly and foot.
- Glides have 1/2″(13mm) height adjustment standard in black.
- Grommets are available for field installation; separately specified.
- Depth and width shown in nominal dimensions.
- Ships unassembled.

Specification Tips

- Size of the corner top is reflected in the catalog logic which allows for a 2″(51mm) pinch point in space planning; 58″(1473mm) corner may be space planned as a 60″(1524mm) corner for modular planning purposes.
- Not for use with AKP's or attached Pedestals.
- Electrical Flip Top Unit is field installed, if applicable.
  - –29″(737mm) deep table will accommodate a Single Electrical Flip Top Unit
  - –23″(584mm) deep table will not accommodate an Electrical Flip Top Unit
- Table load capacity (including top) and weight should be evenly distributed.
  - –Incremental and hand crank: 250 pounds
- Screen and Monitor Arm application:
  - –29″(737mm) deep table supports a 27″(686mm) high Belong screen and a monitor up to 50 lbs.
  - –23″(584mm) deep table supports either a 27″(686mm) high Belong screen or a monitor up to 25 lbs.

To Order, Specify:

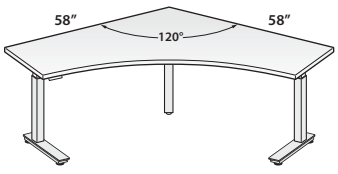
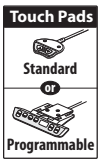
Laminate or Wood – Electric Adjustment



TACZ-5858-NCEB



Features

- Includes 1 3/16″(30mm) thick top, two C-Leg base assemblies, one center post leg, wire management clips, height adjustment mechanism and hardware.
- Laminate top with T-mold or 3mm edgeband edges or wood veneer top with 3mm wood edgeband.
- Top available in standard or green core option.
- Height adjustment touch pad actuator options:
  - –Single Stage Touch Pad Actuator available in Standard (E) up/down movement or Programmable (R) providing four different up/down programmed heights. Provides 27″(686mm) to 46″(1168mm) continuous height adjustment range.
  - –Dual Stage Low Touch Pad Actuator available in Standard (P) up/down adjustment or Programmable (S) stores four different up/down programmed heights. Provides 22″(559mm) to 48″(1219mm) continuous height adjustment range.
  - –Dual Stage High Touch Pad Actuator available in Standard (Q) up/down adjustment or Programmable (T) stores four different up/down programmed heights. Provides 24″(610mm) to 50″(1270mm) continuous height adjustment range.
- Touch Pad Actuator:
  - –Can be mounted on left or right side of table; predrilled for field installed and field changeable.
  - –Touch pad actuator has touch pad controls and standard with black housing.
  - –Control box is field installed and standard with black housing.
- Height adjustment: 1″(25mm) per 1.6 seconds.
- Standard with black telescoping base tubes and J-rails.
- Includes: 9.5′(2895.6mm) long black power cord with NEMA 5-15P plug to the building.
- Painted base includes leg assembly and foot.
- Glides have 1/2″(13mm) height adjustment standard in black.
- Grommets are available for field installation; separately specified.
- Depth and width shown in nominal dimensions.
- Ships unassembled.

TARA-2458-NHB

Features

- Includes two 1 3/16″(30mm) thick top, two H-Leg bases with four telescoping posts, power and data channel with troughs, height adjustment mechanism and hardware.
- Laminate top with T-mold or 3mm edgeband edges or wood veneer top with 3mm wood edgeband. Edgeband tops are 3mm on user edge and 1mm on remaining edges.
- Top available in standard or green core option.
- Height adjustment mechanisms:
  –Hand crank provides 1″(25mm) vertical movement for every 6 turns within 27″(686mm) to 45″(1143mm) height range. Hand crank is field installed on either right or left side and retracts under the table top. Base standard with black telescoping base tubes and J-rails.
- Glides have 1″(25mm) height adjustment and are standard in black.
- Bench available with 3- or 4-Circuit Power Base, separately specified.
- Power modules are available for field installation; separately specified. Refer to Specification Guide.
- Depth and width shown in nominal dimensions.
- Ships unassembled.

Specification Tips

- Separately specified transition tray drives a 2″(51mm) open space between side-by-side tables for pinch point clearance.
- Not designed to accept AKP's, suspended or attached pedestals.
- Table load capacity (including top) and weight should be evenly distributed.
  –Hand crank: 250 pounds per surface
- The following Planes products are separately specified as needed:
  –Monitor Arm(s)
  –Transition Trays
  –Cable Chain
  –Power Base In, Through and Out components.
  –Base Feed Cover

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

- **T** T-Mold
- **J** Edgeband
- **K** Wood Edgeband

❸ Core Options:

- **S** Standard
- **G** Green, add **$227.26** list

2) Laminate surface color or wood finish color.
3) Edgeband trim color (laminate only).
4) Base trim color.

Note: **$82.20** upcharge list for Metallic and accent trim colors.

TARA-2458-NH

Features

- Includes two 1 3/16″(30mm) thick top, two H-Leg bases with four telescoping posts, power and data channel with troughs, height adjustment mechanisms (one hand crank and one single stage electric), wire management clips and hardware.
- Laminate top with T-mold or 3mm edgeband edges or wood veneer top with 3mm wood edgeband. Edgeband tops are 3mm on user edge and 1mm on remaining edges.
- Top available in standard or green core option.
- Height adjustment mechanisms:
  –Hand crank provides 1″(25mm) vertical movement for every 6 turns within 27″(686mm) to 45″(1143mm) height range. Hand crank is field installed on either right or left side and retracts under the table top. Base standard with black telescoping base tubes and J-rails.
  –Single Stage Touch Pad Actuator available in Standard (E) up/down movement or Programmable (R) providing four different up/down programmed heights. Provides 27″(686mm) to 46″(1168mm) continuous height adjustment range.
- Touch Pad Actuator:
  –Can be mounted on left or right side of table; predrilled for field installed and field changeable.
  –Touch pad actuator has touch pad controls and standard with black housing.
  –Control box is field installed and standard with black housing.
- Height adjustment: 1″(25mm) per 1.6 seconds.
- Standard with black telescoping base tubes and J-rails.
- Includes: 9.5′(2895.6mm) long black power cord with NEMA 5-15P plug to power electric height adjustment mechnism.
- Base includes leg assembly available in painted trim colors.
- Glides have 1″(25mm) height adjustment and are standard in black.
- Bench available with 3- or 4-Circuit Power Base, separately specified.
- Power modules are available for field installation; separately specified. Refer to Specification Guide.
- Depth and width shown in nominal dimensions.
- Ships unassembled.

Specification Tips

- Separately specified transition tray drives a 2″(51mm) open space between side-by-side tables for pinch point clearance.
- Not designed to accept AKP's, suspended or attached pedestals.
- Table load capacity (including top) and weight should be evenly distributed.
  –Single Stage Electric: 175 pounds
  –Hand crank: 250 pounds
- The following Planes products are separately specified as needed:
  –Monitor Arm(s)
  –Transition Trays
  –Cable Chain
  –Power Base In, Through and Out components.
  –Base Feed Cover
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number, including:

❶ Surface Options:

- **L** Laminate
- **W** Wood

❷ Edge Options:

- **T** T-Mold
- **J** Edgeband
- **K** Wood Edgeband

❸ Core Options:

- **S** Standard
- **G** Green, add **$227.26** list

❹ Height Adjustment Actuator:

Single Stage:

- **L** Crank/Standard
- **M** Crank/Programmable, add **$130.87** list

2) Laminate surface color or wood finish color.

3) Edge trim color (laminate only).

4) Base trim color.

Note: **$82.20** upcharge list for Metallic and accent trim colors.

300″(7620mm)	EUEH-00W0-3	**430.94**

Features

- Includes electrical harness in galvanized metal conduit and provides eight 12-gauge wires for up to three 20 amp circuits of power.
- Can be used to route power from floor to power distribution assembly.
- Can be used with a powered top feed pole to bring an additional set of three circuits into the powered component.
- Local electrician to provide secondary junction box at top of top feed pole.
- For use with components equipped with 3-circuit power.
- Attaches at any receptacle site in powered component.
- **Designed for use with Planes Height-Adjustable Bench.**

Specification Tips

- **Not for use with power sources other than 120 volt 60 hertz.**
- When used with Planes Height-Adjustable Bench, a vertical base feed cover is a separately specified option.
- Attaches at any receptacle site or right-hand jumper location.
- Exposed split tubing may be field supplied separately to cover exposed galvanized metal conduit.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.
- Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).

To Order, Specify:

Class BC – SIN 711-1;
Discount Group XI

Description	Number	Price
Concealed 3-Circuit	VZEB-0000-Y ■	**$462.85**

Features

- Includes one junction box with modular connector.
- For use with panels equipped with 3-circuit power components.
- For floor, column, or wall hardwire connections.
- Provides eight 12-gauge wires for up to three 20-amp circuits of power.
- Conforms to New York City electrical code.
- Junction box has three 1/2″ knockouts.

■ Available on RUSH.

Specification Tips

- For installation on Planes Height-Adjustable Bench.
- Connector plugs into receptacle site on left side of Planes Height-Adjustable Bench.
- Conduit and fittings for connection between building and junction box are supplied by local electricians.
- Do not mix 3-circuit and 6-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components. Components have unique polarity key and color coding (3-circuit=black, 6-circuit=ivory, 2+2=blue and 3+1=green).

Features

- Includes connector assembly which consists of one Power Base connector head, galvanized 1/2″(13mm) flexible metal conduit with eight 12-gauge wires for up to three 20-amp circuits of power, one Power Base AI connector head and a two port splitter.
- For use with components equipped with 3-circuit power.
- Attaches at any receptacle site or right-hand jumper location and to a Power Base AI underfloor power system.
- **Designed for use with Planes Height-Adjustable Bench.**

Specification Tips

- **Not for use with power sources other than 120 volt 60 hertz.**
- Can only be connected to 3-circuit Power Base AI underfloor power system.
- When used with Planes Height-Adjustable Bench, a base feed cover is a separately specified option.
- Exposed split tubing may be field supplied separately to cover exposed galvanized metal conduit.

3+1 Concealed 4-Circuit		VZEB-0000-YH4 ■	**$462.85**

Features

- Includes one junction box with modular connector.
- For use with Planes Height-Adjustable Bench equipped with 4-circuit (2+2 or 3+1) power components.
- For floor, column, or wall hardwire connections.
- Provides six 12-gauge and two 10-gauge wires for up to four 20-amp circuits of power.
- Conforms to New York City electrical code.
- Junction box has three 1/2″ knockouts.

■ Available on RUSH.

Specification Tips

- Connector plugs into receptacle site on left side of Planes Height-Adjustable Bench.
- Conduit and fittings for connection between building and junction box are supplied by local electricians.
- Do not mix 3-circuit and 6-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components. Components have unique polarity key and color coding (3-circuit=black, 6-circuit=ivory, 2+2=blue and 3+1=green).

To Order, Specify:

1) Product number.

	300″(7620mm)	EUEJ-0300-4WF	**565.28**

Features

- Includes connector assembly which consists of one Power Base connector head, galvanized 1/2″(13mm) flexible metal conduit with six 12-gauge and two 10-gauge wires for up to four 20-amp circuits of power and one Power Base AI Connector.
- For use with 4-circuit (2+2 or 3+1) power components.
- Attaches at any receptacle site and to a Power Base AI underfloor power system.
- **Designed for use with Planes Height-Adjustable Bench.**

Specification Tips

- **Not for use with power sources other than 120 volt 60 hertz.**
- Can only be connected to 4-circuit Power Base AI underfloor power system.
- When used with Planes Height-Adjustable Bench, a base feed cover is a separately specified option.
- Exposed split tubing may be field supplied separately to cover exposed galvanized metal conduit.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.
- Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).

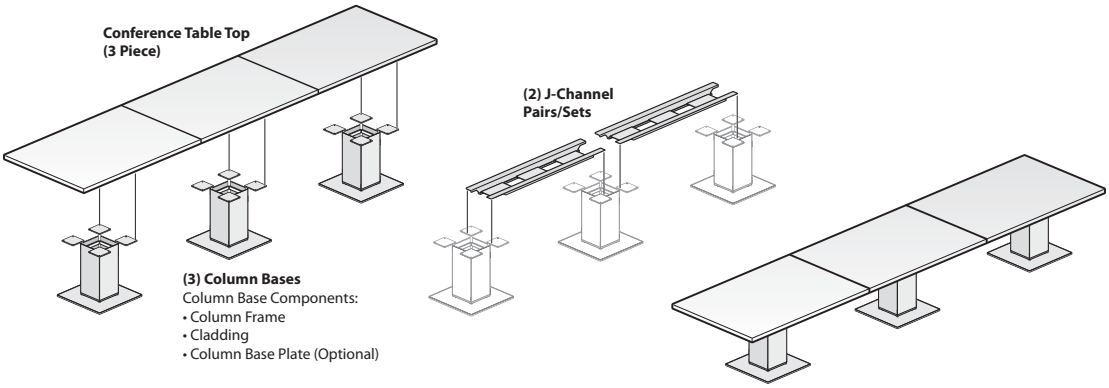
Component Specification Overview

Planes Conference Table with Column Base

Planes Conference Top(s), Column Base(s), and J-Channel(s) are separately specified. See below for required component specification.



❶ Conference Top

- The number of tops depend on the width of the conference table. Top options include a 1-piece top, 2-piece top or 3-piece top.

Column Base

Each Column Base requires separately specified components: **Column Frame, Column Base Plate, and Cladding.**

❷ Column Frame

- Column Frames are square and are available in two sizes, 9″(229mm) & 12″(305mm) square, and three heights, 20″(508mm) lounge height , 28″(711mm) seated height and 40″(1016mm) standing height.
  –The table top width and the number of pieces dictate the quantity of column frame(s). **Refer to Matrix-A for details.**
  –The table top depth dictates the column frame size, 9″(229mm) or 12″(305mm) square. **Refer to Matrix-B for details.**

❸ Column Base Plate - Optional

- Round or Square Column Base Plates are available in four sizes: 21″(533mm), 24″(610mm), 27″(686mm) and 30″(762mm).
  –The column base plate size is specific to the column frame size of 9″(229mm) or 12″(305mm); specify accordingly.
  –The column frame width and the table top depth dictate the size of the column base plate. **Refer to Matrix-B for details.**

❹ Cladding

- Round or Flat Cladding is available in two widths, 9″(229mm) & 12″(305mm), and three heights, 20″(508mm) lounge height, 28″(711mm) seated height and 40″(1016mm) standing height. (Exception: Round cladding is not available 40" high)
  –Cladding is specified as one single piece per catalog number. A quantity of (4) pieces are required per each Column Frame.
  Note: All round or flat, or a combination of round and flat cladding may be used on a column frame.
  –Specify cladding to match the column frame width and height.

❺ J-Channel

- Provides wire management and the required support below the Conference Table Top.
  –J-Channel is specified as one pair per catalog number. A pair of J-Channels are used between each column base.
  –The table top width and column size dictate the number of pairs and length of J-Channel. **Refer to Matrix-A for details.**

J-Channel Tray - Optional

- J-Channel Trays are optional and provide additional wire management between columns; lays in J-Channels.
  –Specify J-Channel Tray width to match Column Frame size.
  –The J-Channel length dictates the maximum number of J-Channel Trays. **Refer to Matrix A for details.**

Features

- Includes 1 3/16″(30mm) thick top.
- Laminate top with 3mm edgeband, knife, T-mold or cascade edges based upon shape.
- Laminate 3mm edgeband or knife edge are only available on square top.
- Wood veneer top with wood edgeband, knife or cascade edge.
- Top available in standard or green core option.
- **Requires separately specified Column Base and J Channels.**
- Optional power modules are separately specified.
- Depth and width shown in nominal dimensions.

Specification Tips

- Conference Top requires separately specified components for Column Base:
  –Column Frame
  –Column Base Plate
  –Cladding (4) pieces per each Column Frame
- Conference Top requires separately specified J Channels for support and load purposes.
- Cutouts are optional. If specified they are factory installed.
- Each cutout requires a separately specified flip top unit electrical module or a select workware interface module (see workware price list).
- Separately specified Planes grommets are available for field installation.
- For separately specified required components refer to the **Component Specification Overview** located in the front of the price list; see Planes Conference Table Tops (for use with Column Base).

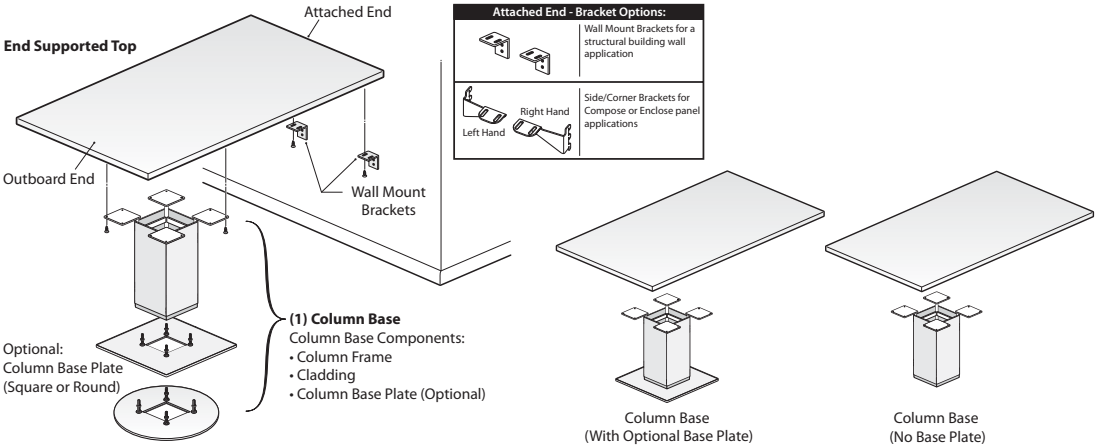
Component Specification Overview

Planes End Supported Top with Column Base

The outboard end of an End Supported Top requires a column base for floor support and the opposite end requires brackets for attachment to a structural wall, Compose or Enclose panel. See below for required component specification.



❶ End Supported Top

- Always a 1-piece top.
  –Requires one column base for floor support and brackets for attachment to a structural building wall, Compose or Enclose panel.

Floor Support: Column Base

Each Column Base requires separately specified components: **Column Frame and Cladding. The Column Base Plate is optional.**

❷ Column Frame

- Column Frames are square and are available in two sizes, 9″(229mm) & 12″(305mm) square, and three heights, 20″(508mm) lounge height , 28″(711mm) seated height and 40″(1016mm) standing height.
  –One Column Frame is required per End Supported Top.
  –The table top depth dictates the column frame size, 9″(229mm) or 12″(305mm) square. **Refer to Matrix-A for details.**

❸ Column Base Plate - Optional

- **Column Base Plate is an optional component for an End Support Top.** (Note: Required for a Conference Table with Column Base)
- Round or Square Column Base Plates are available in four sizes: 21″(533mm), 24″(610mm), 27″(686mm) and 30″(762mm).
  –The column base plate size is specific to the column frame size of 9″(229mm) or 12″(305mm); specify accordingly.
  –The column frame width and the table top depth dictate the size of the column base plate. **Refer to Matrix-A for details.**

❹ Cladding

- Round or Flat Cladding is available in two widths, 9″(229mm) & 12″(305mm), and three heights, 20″(508mm) lounge height, 28″(711mm) seated height and 40″(1016mm) standing height. (Exception: Round cladding is not available 40" high)
  –Cladding is specified as one single piece per catalog number. A quantity of (4) pieces are required per each Column Frame.
  Note: All round or flat, or a combination of round and flat cladding may be used on a column frame.
  –Specify cladding to match the column frame width and height.

NOTE: J-Channel and J-Channel Tray are not required for an End Supported Top.

Component Specification Overview

Planes End Supported Top with Column Base

Attached End: Bracket Options

The attached end of the End Supported Top requires separately specified attachment brackets for a structural building wall, Compose or Enclose panel.

❺ Specify the appropriate type of attachment bracket and quantity per End Supported Top application. See below for options:

Structural Building Wall Application

- Specify the required quantity to accommodate the depth of the End Supported Top.

Wall Mount Bracket

Bracket Quantity	
Depth of End Supported Top	**Number of Brackets Required**
36″(914mm)-42″(1067mm)	Quantity: (2)
48″(1219mm)-60″(1524mm)	Quantity: (3)

Compose and/or Enclose Panel Application

- Specify the appropriate side/corner bracket per worktop edge option. One left- and one right-hand bracket is required per Compose or Enclose panel for an attached End Supported Top.

For use with Edgeband trim:

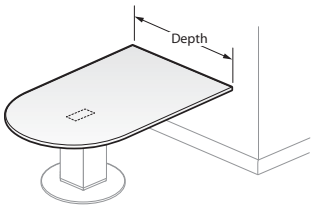
Planes End Supported Top — D-Shape Convergent (for use with Column Base)

Laminate or Wood



TARD

Features

- Includes 1 3/16″(30mm) thick top.
- Laminate top with 3mm edgeband, knife, T-mold or cascade edge.
- Wood veneer top with wood edgeband, cascade or knife edge.
- Top available in standard or green core option.
- Laminate Edge Option:
  –Full perimeter T-Mold (T), or
  –3mm edgeband, knife edge and cascade edge tops have 1mm edgeband on wall mounted edge.
- Wood Edge Option:
  –3mm edgeband, knife edge and cascade edge tops have 1mm edgeband on wall mounted edge.
- **Requires separately specified Column Base for one end and support brackets for opposite end.**
- Optional power modules are separately specified.
- Depth and width shown in nominal dimensions.

Specification Tips

- Each end of top requires separate support components:
  One end of top requires separately specified components for Column Base:
  –Column Frame
  –Cladding (4) pieces per each Column Frame
  –Optional Column Base Plate can also be specified
- **Opposite End of top requires support brackets for attachment to the building wall or support brackets for Enclose or Compose.**
- Does not require J Channels.
- Cutouts are optional. If specified they are factory installed.
- Each cutout requires a separately specified flip top unit electrical module or a select workware interface module (see workware price list).
- Separately specified Planes grommets are available for field installation.
- For separately specified required components refer to the **Component Specification Overview** located in the front of the price list; see Planes End Supported Tops (for use with Column Base).

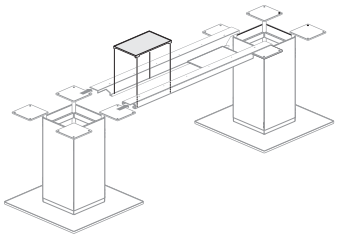
- J-Channels are required for Planes Conference Table Top.
- J-Channels are not required for Planes End Supported Tops.
- For separately specified required components refer to the **Component Specification Overview** located in the front of the price list.

To Order, Specify:

1) Product number.
(No finish specification required.)

J-Channel Tray



TA01

9″(229mm)	TA01-JT09	**$10.00**
12″(305mm)	TA01-JT12	**10.00**

Features

- Includes one J-Channel Tray.
- Provides additional wire management between columns; wires lay in J-Channels.
- Field-installed.
- Available in black finish color only.

Specification Tips

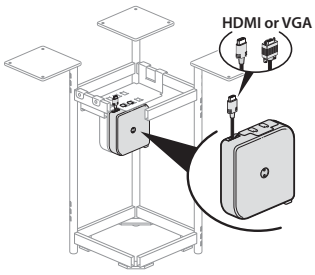
- J-Channel Tray is an optional component.
- Specify the appropriate size for use with a 9″(229mm) or 12″(305mm) wide column frame.

To Order, Specify:

1) Product number.
(No finish specification required.)

Electrical Accessories

Cable Reel



TA01-CR48

Description	Extension Length	Number	Price
60″(1524mm) HDMI	48″(1219mm)	TA01-CR48-H	**$600.00**
60″(1524mm) VGA	48″(1219mm)	TA01-CR48-V	**600.00**

Features

- Includes cable reel with spring loaded retractor mechanism with one cable which can extend 48″(1219mm).
- Cable Reel available with one VGA or one HDMI cable.
- VGA Cable Reel has female VGA connector on housing for connection of VGA patch cable.
- HDMI Cable Reel has female HDMI connector on housing for connection of HDMI patch cable.
- VGA or HDMI patch cable typically routes to TV Monitor or workware video processor.
- VGA cable conveys video only - no audio content.
- Black only.

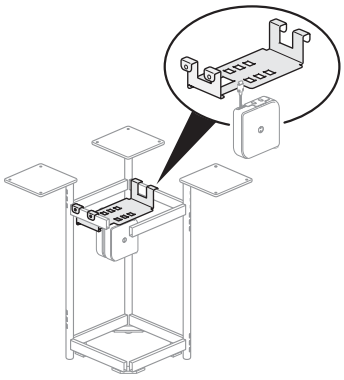
Specification Tips

- For use with cable reel bracket, column frame and power modules equipped with cable bay(s), seated, standing or lounge height column frame.
- Separately specify cable reel bracket.
- VGA or HDMI Cable required to route from cable reel to TV monitor or workware video processor.
- Cable reels compatible with the following power modules specified with cable bay(s):
  –workware interface
  –flip top power module
  –flush mount power module

To Order, Specify:

1) Product number.
   (No finish specification required.)

Cable Reel Bracket



TA01-CRBK

Description	Number	Price
9″(229mm)	TA01-CRBK-T09	**$40.00**
12″(305mm)	TA01-CRBK-T12	**40.00**

Features

- Includes bracket and mounting hardware to mount cable reels to column frame.
- 9″(229mm) cable reel bracket for use with 9″(229mm) column frame and allows mounting of up to two cable reels.
- 12″(305mm) cable reel bracket for use with 12″(305mm) column frame and allows mounting of up to four cable reels.
- Available in black only.

Specification Tips

- For use with 9″(229mm) or 12″(305mm) base frames, seated, standing or lounge heights.
- Specify VGA or HDMI cable reels separately.
- Specify column frame, cladding, power module and table separately.

To Order, Specify:

1) Product number.
   (No finish specification required.)

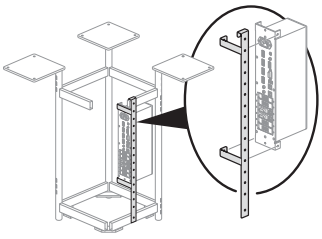
Cable Management Processor Bracket

Height	Number	Price
21″(533mm)	TA01-PB21	**$40.00**



TA01-PB21

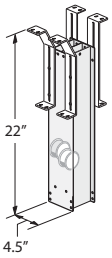
Features
- Includes mounting hardware to mount workware processor or cable management products to column frame.
- Provides multiple mounting holes for attaching cable ties or other cable management products.
- Available in black only.

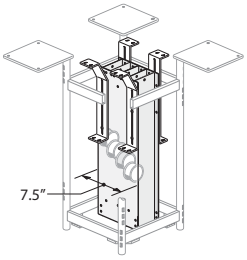
Specification Tips
- For use with 9″(229mm) or 12″(305mm) column frame and power modules equipped with cable bay(s).
- For use with seated and standing height column frame.
- Not required for use with Cable Retractor (workware processor mounts to Cable Retractor).
- Recommend for use with Cable Reels and workware Processor.
- Not for use with lounge height column frame.

To Order, Specify:
1) Product number.
(No finish specification required.)

Cable Base Cable Retractor

Description	Width	Length	Number	Price
2 Cable Chute	4 1/2″(114mm)	22″(559mm)	EWCX-BRWM-2A	**$319.07**
4 Cable Chute	7 1/2″(191mm)	22″(559mm)	EWCX-BRWM-4A	**481.31**





EWCX-BRWM

Features
- Includes chute, weights and mounting hardware.
- Installs on the underside of the table top.
- For use with separately ordered Cable Base, Column Base, workware Interface Module, Flip Top Unit or Flush Mount Power Module to retract cables from table top.
- Provides 34″(864mm) of cable travel.
- Provides vertical cable management within the Column Base.
- Isolates user cables from other data and power connection cables within the Column Base.

Specification Tips
- Order Cable Base, Column Base, cables and workware Interface Module separately.
- One cable per chute.
- Requires 1/4″(6mm) diameter cables or less.
- workware processor can be mounted to the side of the chute when used with 9″ x 9″(229mm x 229mm) or 12″ x 12″(305mm x 305mm) column base.
- For use with seated or standing height Column Base.
- Not for use with lounge height Column Base.
- 2 cable chute fits in 9″ x 9″(229mm x 229mm) or 12″ x 12″(305mm x 305mm) Column Base.
- 4 cable chute fits in 12″ x 12″(305mm x 305mm) Column Base.

Features

- Includes one black HDMI or VGA/VGA + Audio cable.
- For use with:
  –HDMI transmits digital video and audio signals.
  –VGA + Audio transmits analog video and audio signals with the exception of the 50′ cable.

Specification Tips

- Provides communication between components: i.e. laptop, processor, monitor, etc.
  –**Daisy chaining of cables not recommended.**
  –The audio cable extension of the user VGA + Audio cable extends 20″ from the connector head. Separately specify audio only cables if audio extension is not long enough for application.
- 50′ VGA cable not available with audio.

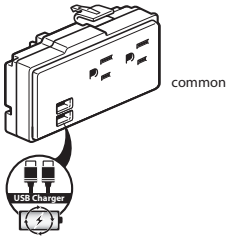
Tactics 3-Circuit – Electrical Components

Receptacle with USB Charging Outlet

	Description	Circuit Access	Ground Type	Number	Price
15 Amp Duplex Receptacle with USB Charging Outlet	15A	Circuit 1	Common	EUER-0015-3M13U	**$480.00**



EUER-0015-3M13U

Features

- Includes box of six receptacles, each receptacle has two 15 Amp outlets (NEMA 5-15R configuration) and two USB charging outlets.
- For use with panels equipped with 3-circuit power components.
- Receptacles are common ground only.
- USB 2 Amp shared; 5VDC.

Specification Tips

- **Receptacles have fixed circuit access to circuit one only and are not field programmable.**
- For power access at any location within the panels with appropriate base raceway covers or technology pad.
- Not for use with power sources other than 120 volt 60 hertz.
- Do not mix 3-circuit and 6-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components. Components have unique polarity key and color coding (3-circuit=black, 6-circuit=ivory, 2+2=blue and 3+1=green).

To Order, Specify:

1) Product number.
2) Non-metallic trim color.

EUD1-PF0B-4000

Features

- Includes power module with 3, 4 or 6 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging simplex (with two USB outlets), data jack adapters or cable bay(s) that can accept up to 2 pull out data/AV cables.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Attaches to surface with use of separately specified mounting brackets.
- Corded power module available with 15 amp - 6′(1829mm) or 12′(3658mm) long cord with plug (NEMA 5-15P).
- USB Charging simplex consists of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.

Specification Tips

- Separately specify attachment hardware for desired application.
- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Configuration and quantity of power and data ports cannot be modified in the field.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

Features

- Includes power module with 3, 4 or 6 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging simplex (with two USB outlets), data jack adapters or cable bay(s) that can accept up to 2 pull out data/AV cables.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Attaches to surface with use of separately specified mounting brackets.
- Hardwired power module with 6′(1829mm) or 12′(3658mm) long flexible metal conduit feed, 1/2″(13mm) conduit fitting and wires for hardwire connection.
- USB Charging simplex consists of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.

Specification Tips

- Separately specify attachment hardware for desired application.
- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Configuration and quantity of power and data ports cannot be modified in the field.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
(No finish specification required.)

Features

- Includes frame and two flip top modules, each flip top module with 2, 4 or 6 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging simplex (with two USB outlets), data jack adapters or cable bay(s) that can accept up to 2 pull out data/AV cables and mounting hardware.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Each Cable Bay can accept up to 2 pull out data/AV cables.
- Each flip top module within the frame provided with 15 amp - 6′(1829mm) or 12′(3658mm) long cord with plug (NEMA5-15P).
- USB Charging Port consists of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Flip top unit is flush mounted with spring release flip module.
- Flip top unit overall height is 2 3/4″(70mm) and will extend below the table tops.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.
- Ships assembled.

Specification Tips

- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Specify factory cut hole or field cut hole as required.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Configuration and quantity of power and data ports cannot be modified in the field.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.
- Corded flip top units with four receptacles utilize a fused plug that may block adjacent building receptacle outlet.

Note: Two cord feeds are provided from the double-sided flip top unit.

To Order, Specify:

1) Product number.

Flip Top Unit

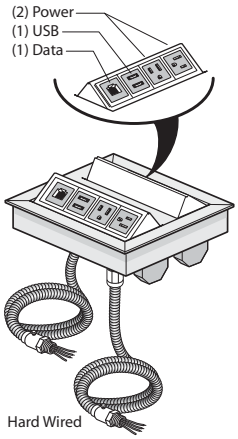
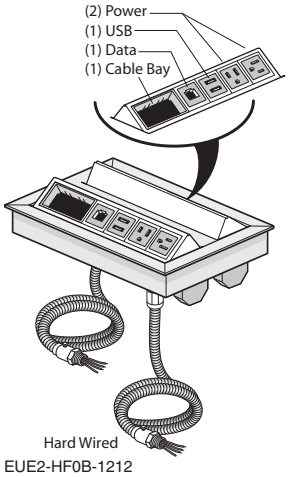
Hardwire — Double-Sided

4-Port:



EUE2-HF0B-2110

6-Port:



EUE2-HF0B-1212

Features

- Includes frame and two flip top modules, each flip top module with 2, 4 or 6 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging simplex (with two USB outlets), data jack adapters or cable bay(s) that can accept up to 2 pull out data/AV cables and mounting hardware.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Each Cable Bay can accept up to 2 pull out data/AV cables.
- Each flip top module within the frame provided with 6′(1829mm) or 12′(3658mm) long flexible metal conduit feed, 1/2″(13mm) conduit fitting and wires for hardwire connection.
- USB Charging Port consists of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Flip top frame is flush mounted with two spring release flip module(s).
- Flip top unit overall height is 2 3/4″(70mm) and will extend below the table tops.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.
- Ships assembled.

Specification Tips

- Note two conduit feeds are provided from the double-sided flip top unit.
- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Specify factory cut hole or field cut hole as required.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Configuration and quantity of power and data ports cannot be modified in the field.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
   (No finish specification required.)

Note: Order flip top units to match flip top unit cutout option specified for each top (M/P or Q/V).

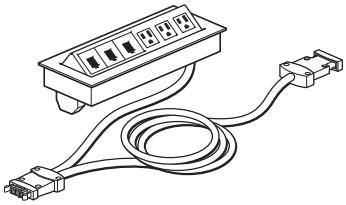
Planes Training Tables Quick Connect Power

Flip Top Unit Accessories



EAE1-A331

Features

- Includes bezel and flip top module with 2, 4 or 6 ports that can be configured with simplex outlets (NEMA 5-15R), USB charging simplex (with two USB outlets), data jack adapters or cable bay(s) that can accept up to 2 pull out data/AV cables, 60″(1524mm) modular connectors (one female, one male) and mounting hardware.
- Modular connection provides power distribution between tables.
- Non-sequential modular power connections allow easy table reconfiguration.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Each cable bay can accept up to 2 pull out data/AV cables.
- USB charging port consists of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Flip top unit is flush mounted with spring release cover.
- Flip top unit overall height is 2 3/4″(70mm) and will extend below the table top.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.
- Ships assembled.

Specification Tips

- **UL 962 recognized — For use with Planes C-Leg Training Tables only.**
- Planes Training Table application may have up to eight modular connections; eight Flip Top Units and/or Pass-Through Connectors per Starter Box.
- **Separately specify Starter Box to provide power to Flip Top Units.**
- Separately specified table ganging mechanisms are required.
- **For use with 120 volt 60 hertz power source only.**
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.
- Table Pass Through Connector needed for rectangles greater than 60″(1524mm) wide and some non-linear applications.

To Order, Specify:

1) Product number.
(No finish specification required.)

Note: Order flip top units to match flip top unit cutout option specified for each table (A/B, F/V or J/K).

	VGA	White	EUDX-3000-W	**36.40**

Features

- Includes one black HDMI Coupler, one VGA cable or one 3.5mm mini audio cable.
- Installs in an open data port in one of the following products:
  –Flip Top Unit
  –Double Sided Flip Top Unit
  –Quick Connect Power
  –Workware Interface Module
  –Flush Mount Module
  –Enhanced Power Module

To Order, Specify:

1) Product number.
(No finish specification required.)

Specification Tips

- Provides communication between components: i.e. laptop, processor, monitor, etc.
- HDMI transmits digital video signals.
- VGA transmits analog video signals without audio.

Features

- Includes one USB charging simplex (with two USB outlets) with 72″(1829mm) cord and power supply.
- Installs in an open data port in one of the following products:
  –Flip Top Unit
  –Double Sided Flip Top Unit
  –Quick Connect Power
  –Workware Interface Module
  –Flush Mount Module
  –Enhanced Power Module
- USB Charging Port consists of 2 USB outlets. 1,000mA of charging power per USB outlet.

To Order, Specify:

1) Product number.

EUD1-PF0B-4000

Features

- Includes power module with 3, 4 or 6 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging simplex (with two USB outlets), data jack adapters or cable bay(s) that can accept up to 2 pull out data/AV cables.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Attaches to surface with use of separately specified mounting brackets.
- Corded power module available with 15 amp - 6′(1829mm) or 12′(3658mm) long cord with plug (NEMA 5-15P).
- USB Charging simplex consists of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.

Specification Tips

- Separately specify attachment hardware for desired application.
- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Configuration and quantity of power and data ports cannot be modified in the field.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
(No finish specification required.)

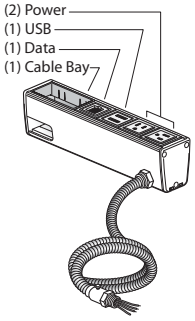
EUD1-HF0B-2110

6-Port:



EUD1-HF0B-2112

Features

- Includes power module with 3, 4 or 6 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging simplex (with two USB outlets), data jack adapters or cable bay(s) that can accept up to 2 pull out data/AV cables.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Attaches to surface with use of separately specified mounting brackets.
- Hardwired power module with 6′(1829mm) or 12′(3658mm) long flexible metal conduit feed, 1/2″(13mm) conduit fitting and wires for hardwire connection.
- USB Charging simplex consists of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.

Specification Tips

- Separately specify attachment hardware for desired application.
- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Configuration and quantity of power and data ports cannot be modified in the field.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
(No finish specification required.)

EUD1-SF0B-4000

Features

- Includes power module with 4 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging simplex (with two USB outlets), data jack adapters or a cable bay that can accept up to 2 pull out data/AV cables, 2′(610mm) power cord with IEC connector for motor controller and mounting hardware.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Spiral Cord includes 15 amp plug (NEMA 5-15P) and expands from 10′(3048mm) to 12′(3658mm) when stretched.
- Auxiliary power cord includes IEC connector (IEC C13) for motor controller.
- Attaches to surface with use of separately specified mounting brackets.
- USB Charging simplex consists of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.

Specification Tips

- Separately specify attachment hardware for desired application.
- Not for use with cable chain.
- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Configuration and quantity of power and data ports cannot be modified in the field.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

Specification Tips

- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Specify factory cut hole or field cut hole as required.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Configuration and quantity of power and data ports cannot be modified in the field.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.
- Corded flip top units with four receptacles utilize a fused plug that may block adjacent building receptacle outlet.

Note: Two cord feeds are provided from the double-sided flip top unit.

To Order, Specify:

1) Product number.
(No finish specification required.)

Note: Order flip top units to match flip top unit cutout option specified for each top (M/P or Q/V).

EUE2-PF0B-4000

Features

- Includes frame and two flip top modules, each flip top module with 2, 4 or 6 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging simplex (with two USB outlets), data jack adapters or cable bay(s) that can accept up to 2 pull out data/AV cables and mounting hardware.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Each Cable Bay can accept up to 2 pull out data/AV cables.
- Each flip top module within the frame provided with 15 amp - 6′(1829mm) or 12′(3658mm) long cord with plug (NEMA5-15P).
- USB Charging Port consists of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Flip top unit is flush mounted with spring release flip module.
- Flip top unit overall height is 2 3/4″(70mm) and will extend below the table tops.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.
- Ships assembled.

Specification Tips

- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Specify factory cut hole or field cut hole as required.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Configuration and quantity of power and data ports cannot be modified in the field.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.
- Corded flip top units with four receptacles utilize a fused plug that may block adjacent building receptacle outlet.

Note: Two cord feeds are provided from the double-sided flip top unit.

To Order, Specify:

1) Product number.
(No finish specification required.)

Note: Order flip top units to match flip top unit cutout option specified for each top (M/P or Q/V).

Flip Top Unit

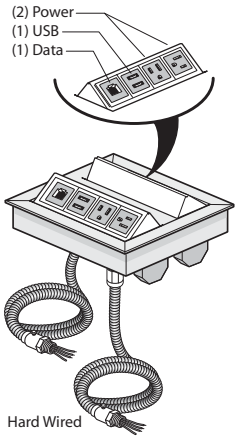
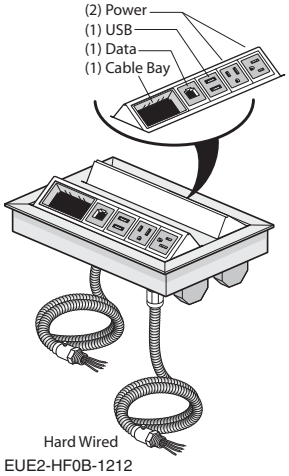
Hardwire — Double-Sided

4-Port:



EUE2-HF0B-2110

6-Port:



EUE2-HF0B-1212

Features

- Includes frame and two flip top modules, each flip top module with 2, 4 or 6 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging simplex (with two USB outlets), data jack adapters or cable bay(s) that can accept up to 2 pull out data/AV cables and mounting hardware.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Each Cable Bay can accept up to 2 pull out data/AV cables.
- Each flip top module within the frame provided with 6′(1829mm) or 12′(3658mm) long flexible metal conduit feed, 1/2″(13mm) conduit fitting and wires for hardwire connection.
- USB Charging Port consists of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Flip top frame is flush mounted with two spring release flip module(s).
- Flip top unit overall height is 2 3/4″(70mm) and will extend below the table tops.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.
- Ships assembled.

Specification Tips

- Note two conduit feeds are provided from the double-sided flip top unit.
- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Specify factory cut hole or field cut hole as required.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Configuration and quantity of power and data ports cannot be modified in the field.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
(No finish specification required.)

Note: Order flip top units to match flip top unit cutout option specified for each top (M/P or Q/V).

- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Attaches to surface with use of separately specified mounting brackets.
- Corded power module available with 15 amp - 6′(1829mm) or 12′(3658mm) long cord with plug (NEMA 5-15P).
- USB Charging simplex consists of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.

Specification Tips

- Separately specify attachment hardware for desired application.
- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Configuration and quantity of power and data ports cannot be modified in the field.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number.
(No finish specification required.)

TVRT-SNTP

Features

- Includes 1 3/16″(30mm) thick top, two T-leg base assemblies, wire management, height adjustment mechanism, adjustable glides and hardware.
- Laminate top with T- mold or wood veneer top with 3mm wood edgeband.
- Top has a standard core only.
- Height adjustment:
  –Dual Stage Touch Pad Actuator is programmable and stores four different up/down programmed heights. Provides 23.7″(602mm) to 49.7″(1262mm) continuous height adjustment range (includes the top).
- Touch Pad Actuator:
  –Can be mounted on left or right side of table; predrilled for field installation and field changeable.
  –Touch pad actuator has touch pad controls and standard with black housing.
  –Control box is field installed and standard with black housing.
- Height adjustment: 1.5″(38mm) per second.
- T-leg base includes:
  –Anodized aluminum telescoping base tubes
  –Horizontal support
  –Available in black and clear coat.
- Includes 9′(2895.6mm) long black power cord with NEMA 5-15P plug to the building.
- Glides have 1/4″(6mm) height adjustment and are standard in black.
- Grommets are available for field installation; separately specified.
- Depth and width shown in nominal dimensions.
- Ships unassembled.

Specification Tips

- Enhanced Power Module and Table Dome are available for field installation; separately specified.
- Tops are designed to allow pinch point clearance and accommodates cable routing; refer to Specification Guide for application guidelines.
- Height adjustable tables not designed to accept AKP, suspended or attached pedestals.
- Motor approved to E.T.L rating of 175 lbs.: load (excluding table top)
- Static load capacity: 350lbs.*
  *As defined when motor is not activated, table top is stationary and load is balanced.
- Table load capacity (including top) and weight should be evenly distributed.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

To Order, Specify:

1) Product number, including:

- **Attaches to back of Reside Desking and most Adaptable Worksurfaces.**
- **Designed for single sided applications.**
- Screens are non-load bearing.
- Screens can be specified to match width of any size component.
- Screens with clear glass specified are clear above and below the worksurface.
- Screen mounting:
  –19″ High: 4.25″(108mm) above worksurface; 13″(330mm) from bottom of worksurface to bottom of screen
  –27″ High: 12.25″(311mm) above worksurface; 13″(330mm) from bottom of worksurface to bottom of screen
- Screen Thickness:
  –Fabric, laminate, and wood – 0.56″(14mm)
  –Glass – 0.24″(6mm)
- Gap between screen and horizontal surface allows installation of Belong Tool Rail.
- Refer to Specification Guide for additional guidelines.

Features

- Includes power module with 3, 4 or 6 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging simplex (with two USB outlets), data jack adapters or cable bay(s) that can accept up to 2 pull out data/AV cables.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Attaches to surface with use of separately specified mounting brackets.
- Corded power module available with 15 amp - 6′(1829mm) or 12′(3658mm) long cord with plug (NEMA 5-15P).
- USB Charging simplex consists of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.

Specification Tips

- Separately specify attachment hardware for desired application.
- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Configuration and quantity of power and data ports cannot be modified in the field.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

Features
- Includes one modular 15 Amp duplex receptacle (NEMA 5-15R) with integral latching system.
- Receptacles are PVC-free and standard in black.

Specification Tips
- For use with 2-Circuit components only. Do not mix with other power systems.
- Receptacle(s) are included with Modular Power Kits.
- **For use with 120 volt 60 hertz power source only.**
- **Electric application requires prior approval by authority having jurisdiction.**
- Up to 13 duplex receptacles allowed per circuit. (10 duplex receptacles in Canada)
- Up to 26 duplex receptacles per hardwired modular base feed. (20 duplex receptacles in Canada)

To Order, Specify:

1) Product number.
(No finish specification required.)

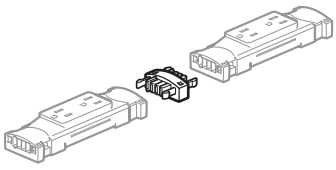
Receptacle Block Connector

2-Circuit, 2-Port — EAED-0000-22 — **$14.06**



EAED-0000-22

Features
- Includes one receptacle block connector.
- Receptacle Block Connectors are PVC-free and standard in black.

Specification Tips
- For use with 2-Circuit components only. Do not mix with other power systems.
- Used for connecting two receptacles.
- **For use with 120 volt 60 hertz power source only.**
- **Electric application requires prior approval by authority having jurisdiction.**

To Order, Specify:

1) Product number.
(No finish specification required.)

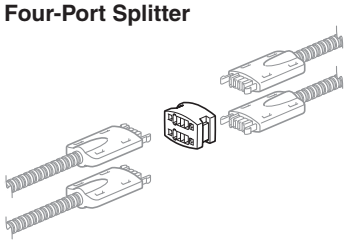
Four-Port Splitter

2-Circuit, 4-Port — EAED-0000-24 — **$25.46**



EAED-0000-24

Features
- Includes one four-port splitter.
- Four-Port Splitters are PVC-free and standard in black.

Specification Tips
- For use with 2-Circuit components only. Do not mix with other power systems.
- Used for connecting pass-through connectors.
- Four-Port Splitters are included with Modular Power Kits.
- **For use with 120 volt 60 hertz power source only.**
- **Electric application requires prior approval by authority having jurisdiction.**

To Order, Specify:

1) Product number.
(No finish specification required.)

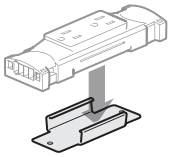
Mounting Bracket — Receptacle

TA01-0224 — **$5.41**



TA01-0224

Features
- Includes one mounting bracket and mounting screws.
- Standard in black.
- Field installed.

Specification Tips
- For use to mount receptacles to table bottom in reconfiguration applications if needed.
- Mounting Brackets are included with all Planes C-Leg Training Tables.

To Order, Specify:

1) Product number.
(No finish specification required.)

Feature

- Includes one flexible metal conduit (unpainted) base feed with four 12-gauge wires for up to two 20 Amp circuits of power and one modular male connector standard in black.

To Order, Specify:

1) Product number.
(No finish specification required.)

Specification Tips

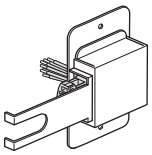
- For 2-circuit modular power components. Do not mix with other systems.
- For use for floor, column or wall hardwire connections.
- **For use with 120 volt 60 hertz power source only.**
- **Electric application requires prior approval by authority having jurisdiction.**
- Base Feed accesses common ground only.

Wall Feed — 2-Circuit



EAWP-0004-21

		EAWP-0004-21	**$99.51**

Features

- Includes one 2-circuit wall feed with female connector and four 12-gauge wires for up to two 20 Amp circuits.
- Standard in black.

To Order, Specify:

1) Product number.
(No finish specification required.)

Specification Tips

- For use with 2-Circuit components only. Do not mix with other power systems.
- For use with separately specified 2-circuit Pass-Through Connector.
- **For use with 120 volt 60 hertz power source only.**
- **Electric application requires prior approval by authority having jurisdiction.**
- For mounting on vertical surfaces only.

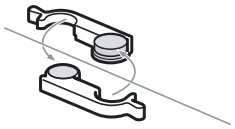
Ganging Mechanism	TA01-0222	**$104.00**



TA01-0222
(one set)

Features
- Includes four (two sets) ganging mechanisms and attachment hardware.
- Standard in black.
- Ganging Mechanism required for in-line powered Planes C-Leg and Y-Leg Training Tables.
- Field installed.

Specification Tip
- Planes C-Leg Training Tables are drilled for ganging mechanisms.

Features

- Includes power module with 3, 4 or 6 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging simplex (with two USB outlets), data jack adapters or cable bay(s) that can accept up to 2 pull out data/AV cables.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Attaches to surface with use of separately specified mounting brackets.
- Corded power module available with 15 amp - 6′(1829mm) or 12′(3658mm) long cord with plug (NEMA 5-15P).
- USB Charging simplex consists of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.

Specification Tips

- Separately specify attachment hardware for desired application.
- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Configuration and quantity of power and data ports cannot be modified in the field.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

TVCX

Features

- Includes 1 3/16″(30mm) thick top, leg bases, adjustable glides, and hardware.
- Standard table height is 29″(737mm).
- Laminate top with 3mm edgeband or knife edge; wood veneer top with 3mm wood edgeband.
- Top has standard core only.
- Bases are painted aluminum.
- Glides have 3/4″(19mm) height adjustment.
- Depth and width shown in nominal dimensions.
- Ships unassembled.

Specification Tips

- 3mm edgeband edge is recommended to allow a flat seam between tables.
- Enhanced Power Module and Table Dome are available for field installation; separately specified.
- Refer to Specification Guide for leg locations and accessory placement and compatibility.

To Order, Specify:

1) Product number, including:

❶ Surface Option:

- **L** Laminate
- **W** Wood

❷ Edge Option:

- **J** Edgeband
- **F** Knife
- **K** Wood Edgeband

❸ Depth and Orientation:

18/24:

- **P** Left-Hand
- **U** Right-Hand

24/30:

- **R** Left-Hand
- **W** Right-Hand

2) Laminate surface color or wood finish color.

3) Edgeband trim color (laminate only).

4) Base trim color.

Note: **$40.00** upcharge list for Metallic trim colors.

Features

- Includes one flexible metal conduit (unpainted) connector with modular male connectors standard in black.
- System is 4-wire with 2 circuits, 20 Amps each.
- Modular connectors are PVC-free.

Specification Tips

- For use with other 2-Circuit components only. Do not mix with other systems.
- Required for use with wall feed component to bring building power to Planes Training tables or for use to pass power between tables.
- **For use with 120 volt 60 hertz power source only.**
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.
- Pass-Through Connectors cannot be coupled together; separately specify Four-Port Splitter to connect Pass-Through Connectors.

To Order, Specify:

1) Product number.
(No finish specification required.)

EAER

Features
- Includes one modular 15 Amp duplex receptacle (NEMA 5-15R) with integral latching system.
- Receptacles are PVC-free and standard in black.

Specification Tips
- For use with 2-Circuit components only. Do not mix with other power systems.
- Receptacle(s) are included with Modular Power Kits.
- **For use with 120 volt 60 hertz power source only.**
- **Electric application requires prior approval by authority having jurisdiction.**
- Up to 13 duplex receptacles allowed per circuit. (10 duplex receptacles in Canada)
- Up to 26 duplex receptacles per hardwired modular base feed. (20 duplex receptacles in Canada)

To Order, Specify:

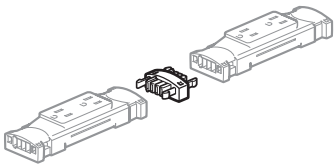
1) Product number.
(No finish specification required.)

Receptacle Block Connector

2-Circuit, 2-Port — EAED-0000-22 — **$14.06**



EAED-0000-22

Features
- Includes one receptacle block connector.
- Receptacle Block Connectors are PVC-free and standard in black.

Specification Tips
- For use with 2-Circuit components only. Do not mix with other power systems.
- Used for connecting two receptacles.
- **For use with 120 volt 60 hertz power source only.**
- **Electric application requires prior approval by authority having jurisdiction.**

To Order, Specify:

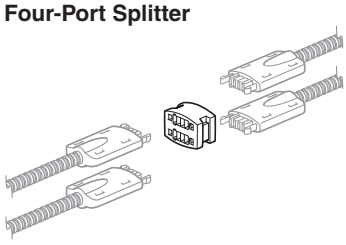
1) Product number.
(No finish specification required.)

Four-Port Splitter

2-Circuit, 4-Port — EAED-0000-24 — **$25.46**



EAED-0000-24

Features
- Includes one four-port splitter.
- Four-Port Splitters are PVC-free and standard in black.

Specification Tips
- For use with 2-Circuit components only. Do not mix with other power systems.
- Used for connecting pass-through connectors.
- Four-Port Splitters are included with Modular Power Kits.
- **For use with 120 volt 60 hertz power source only.**
- **Electric application requires prior approval by authority having jurisdiction.**

To Order, Specify:

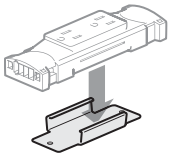
(No finish specification required.)

Mounting Bracket — Receptacle

TA01-0224 — **$5.41**



TA01-0224

Features
- Includes one mounting bracket and mounting screws.
- Standard in black.
- Field installed.

Specification Tips
- For use to mount receptacles to table bottom in reconfiguration applications if needed.
- Mounting Brackets are included with all Planes C-Leg Training Tables.

To Order, Specify:

1) Product number.
(No finish specification required.)

Feature

- Includes one flexible metal conduit (unpainted) base feed with four 12-gauge wires for up to two 20 Amp circuits of power and one modular male connector standard in black.

Specification Tips

- For 2-circuit modular power components. Do not mix with other systems.
- For use for floor, column or wall hardwire connections.
- **For use with 120 volt 60 hertz power source only.**
- **Electric application requires prior approval by authority having jurisdiction.**
- Base Feed accesses common ground only.

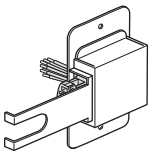
Wall Feed — 2-Circuit



EAWP-0004-21

		EAWP-0004-21	**$99.51**

Features

- Includes one 2-circuit wall feed with female connector and four 12-gauge wires for up to two 20 Amp circuits.
- Standard in black.

Specification Tips

- For use with 2-Circuit components only. Do not mix with other power systems.
- For use with separately specified 2-circuit Pass-Through Connector.
- **For use with 120 volt 60 hertz power source only.**
- **Electric application requires prior approval by authority having jurisdiction.**
- For mounting on vertical surfaces only.

Features

- Includes power module with 3, 4 or 6 ports that can be configured with simplex outlets (NEMA-5-15R), USB charging simplex (with two USB outlets), data jack adapters or cable bay(s) that can accept up to 2 pull out data/AV cables.
- Data jack adapters accommodate most varieties of field supplied data jacks or separately specified AV cables.
- Attaches to surface with use of separately specified mounting brackets.
- Corded power module available with 15 amp - 6′(1829mm) or 12′(3658mm) long cord with plug (NEMA 5-15P).
- USB Charging simplex consists of 2 USB outlets. 1,000mA of charging power per USB outlet.
- Color option of black anodized housing with black receptacles or clear anodized housing with white receptacles.

Specification Tips

- Separately specify attachment hardware for desired application.
- For use with 120 volt 60 hertz power source only.
- Requires field installation.
- Specify AV cables separately.
- Cable Bay requires cables less than 0.3″(7.6mm) diameter.
- Configuration and quantity of power and data ports cannot be modified in the field.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

North American Terms of Sale

These Terms of Sale are part of a quotation, bid response, or other sales document issued by Haworth, Inc., Haworth, Ltd. ("Haworth").

These Terms of Sale do not cover products manufactured in North America shipping to non-North American countries nor do they cover products manufactured in non-North American countries shipping to North America. For those terms of sale, please contact Haworth's Global Trade and Compliance Department at 616.393.3000 or through Haworth.com.

A. Ordering Information

Haworth sells its products on the terms set forth in these standard Terms of Sale:

ORDERS MUST BE SUBMITTED IN WRITING OR ELECTRONICALLY (Lynx) AS REPRESENTED BY A VALID PURCHASE ORDER, WHICH INCLUDES PRODUCT TOTAL.

An order is not binding upon Haworth until Haworth issues an order acknowledgment to the customer (the "Customer"), which will include price information and an anticipated delivery date.

1. Order Changes/Cancellations

For Specials, Customer's Own Material (C.O.M.), finish matches, custom colors, custom products, Master lock and key orders, and RUSH orders, no changes or cancellations are allowed 24 hours after order placement. All other products require approval for changes or cancellations. A change/cancellation fee may apply. Contact Order Services for applicable charges.

Ship-to addresses changed within five (5) business days of delivery will incur fees to cover administrative costs due to re-labeling of product and/or reconsignment fees with the carrier.

Order cancellations are complete annulments of orders. Order changes are the deletion of line items or a change in size, color, quantity, ship-to address, or scope of work. There is no penalty for additions; however, any change may cause the order or the line items affected to be rescheduled. Order changes involving additional product and services which increase the value must be accompanied by an amended Purchase Order or other document as agreed.

ALL CHANGES MUST BE IN WRITING, REGARDLESS OF THE (DOLLAR) VALUE. CHANGES ARE NOT BINDING UPON HAWORTH UNTIL HAWORTH ISSUES AN ACKNOWLEDGMENT OF THE CHANGE.

2. C.O.M. (Customer's Own Material)

A Customer who requests a fabric, surface or finish material (C.O.M.) not in Haworth's standard finish offering must first confirm approval of or request new approval for the C.O.M.

Haworth will determine feasibility of the material for manufacturability. For a description of the procedure to submit C.O.M. samples, contact Haworth's Order Services department. For testing information, see the C.O.M. section of the catalog, or call Haworth Order Services.

If Haworth agrees to use the C.O.M., (1) Haworth shall have no responsibility for the condition, quality, value, performance, physical properties, or any other aspect of the C.O.M.; and (2) Haworth shall have no liability for any damages, injuries, or losses to the Customer or to any third party that shall be caused by any C.O.M., and the Customer shall hold Haworth harmless for all such liability.

3. Valid/Complete Purchase Order

The following information is required in order to process an order with Haworth:

a. Customer Information

i. **Sold To:** Legal name, complete address (if Haworth is to bill the end user, provide end user Purchase Order made out to Haworth, Inc., Haworth, Ltd.) and phone and fax number.

ii. **Ship To:** Legal name and address.

iii. **Purchase Order Number:** From the party Haworth will be billing.

iv. **Authorized Signature:** All Purchase Orders must be signed by a duly authorized representative if a signature line is present. Electronically transmitted Purchase Orders will be accepted without a signature if dealer billed and the dealer has an electronic purchase payment agreement on file.

v. **Contact Name and Phone Number:** Person Haworth should contact with any questions regarding the order.

vi. **Shipping Contact:** Name and phone number of person to be contacted regarding shipping and delivery matters.

vii. **Tagging Instructions:** This information will appear on all documentation received from Haworth including: cartons, acknowledgments, and invoices.

viii. **Price Agreement or National Sales Agreement Number**

ix. **Product Total:** Net dollars.

x. **Installation, Design, Project Management, and/or Service Fees**

b. Product Information

i. **Quantity**

ii. **Product Numbers**

iii. **Colors**

iv. **Specials:** Specify special part number for new special products.

v. **Customer's Own Material:** Order entry code, manufacturer, pattern, and color.

vi. **Approval Drawings:** An authorized signature by a duly authorized representative is required for shop drawings when applicable.

vii. A deposit may be required for custom materials.

c. Order Confirmation

All orders will be acknowledged.

B. Pricing Policies

1. Terms of Payment

Terms of payment and credit limits will be established based on financial information. Standard payment terms on open credit are net thirty (30) days from invoice date. Advance payments or other payment security may be required by Haworth. The account balance must be at or below the credit limit and current at all times (no past-due balances). Haworth reserves the right to delay or cancel any delivery to a Customer whose Haworth account balance is over the credit limit and/or past due. For walls and floors a deposit will be required.

2. Terms of Credit

Customer hereby authorizes Haworth to obtain such credit reports, financial information or other information as Haworth may request, including, without limitation, credit information from any financial institutions or others having a business relationship with the Customer. Customer hereby authorizes any credit references to answer Haworth's inquiries and provide such credit information and documentation as Haworth may request.

The Customer hereby releases and holds Haworth harmless for any inconvenience whatsoever, caused by any temporary or permanent withdrawal or restriction of credit privileges hereunder, or the enforcement of any of the provisions contained in this paragraph.

3. Past-Due Charges

Past-due balances will be increased by a maximum of 1.5% per month, or 18% annually, without forfeit of Haworth's right to immediate payment.

4. Applicable Prices

The price of any product sold to Customer by Haworth will be based upon the North American Price List (Catalog).

Prices and discounts are subject to change without notice or approval. In the event of an adjustment to pricing, National Sales Agreement (NSA) Customers will be notified in advance according to the terms of the NSA.

Applicable prices and currency exchange rates are those in effect at the time of the RECEIPT of an **ORDER**; Haworth reserves the right to use the published pricing effective at the time of shipment, if the requested delivery date is more than 120 days after the order receipt date.

North American Terms of Sale

Haworth Flooring products are sold using the North American price list in US dollars. Currency exchange rates at the time of the transaction will be used to convert the USD amount into the alternate currency. Should the currency exchange rate between the USD and alternate currency change between a quote and the receipt of an order, the alternate currency amount will also change to equal the current, equivalent USD amount.

5. C.O.M. (Customer's Own Material) Charges

Refer to appropriate Customer's Own Material (C.O.M.) form for applicable surface material charges.

6. Taxes

Haworth prices do not include customs duty, sales, use, value added or similar taxes. Any federal, state/provincial or other taxes or assessments based upon the sale or delivery of products or services sold applicable to the customer at present or later imposed by federal, state/provincial or municipal agencies, shall be added and paid by the customer. Customer is responsible for all such taxes.

NOTE: For all countries a valid sales tax exemption certificate must be approved by and on file with Haworth prior to product shipment. Otherwise, sales tax will be due and payable to Haworth when such tax is invoiced to Customer.

7. Services

If, as a result of Customer request, the Haworth dealer or Haworth subsidiary provides planning/design services, storage, project management, special handling, set-up, installation and/or other services, the Customer will be charged at the local Haworth dealer/subsidiary's prevailing rates.

8. Termination by Haworth

Haworth may immediately terminate an order upon written notice in the event bankruptcy or insolvency proceedings are instituted by or against the Customer, or the Customer is adjudicated as bankrupt, becomes insolvent, makes an assignment for the benefit of creditors, or proposes or makes any arrangements for the liquidation of its debts, or a receiver or receiver and manager is appointed with respect to all or any part of the assets of the Customer.

C. Shipping and Delivery

Haworth will have the right to determine the method of shipment and routing of product.

This section does not apply to any of Haworth's Flooring products. All Haworth Flooring products are sold freight collect.

If, for any reason, a delivery has to be made to an intermediate location (i.e. a location other than the "Ship To" location noted on the order or ultimate end user location), all handling and re-delivery costs incurred would be at the Customer's expense.

1. U.S.A. - Contiguous

All deliveries will be CPT (Carriage Paid To) (ICC Incoterms 2010) Haworth's manufacturing facilities or distribution centers. Freight charges will be prepaid by Haworth on all orders to locations within the continental United States. Customer bears all risk of loss or damage to the goods when they are placed on Haworth's means of transport.

2. U.S.A. - Non-contiguous (Alaska, Hawaii and Puerto Rico)

All deliveries will be CIF (Cost, Insurance and Freight) (ICC Incoterms 2010). Haworth's catalog prices include ocean freight and insurance to the port of the final destination. Haworth has the right to determine the carrier, method of shipment and routing. Haworth will contract with the insurer and provide minimal insurance coverage (CIF @ 110%) made payable to the Customer. Customer is responsible to obtain greater insurance if so desired.

Customer bears all risk of loss or damage to the goods when the goods are effectively at the disposal of the Customer on board the vessel at the named port of destination. Proof of delivery is a clean on board bill of lading. Customer will be responsible for all on-carriage from the receiving port to the final destination.

3. Canada

All deliveries will be DDP (Delivered Duty Paid) (ICC Incoterms 2010). Haworth's catalog prices include delivery to Customer's named place, not unloaded from any arriving means of transport. Customer bears all risk of loss or damage to the goods when they are delivered to the Customer's named facility not unloaded. Haworth will assume responsibility to file all freight claims with the carrier for any loss/damage which may occur while product is in transit, and will promptly repair or replace any damaged or lost product. Haworth requires the Customer to report all freight damage and/or loss to both the carrier and to Haworth.

NOTE: Under all delivery terms (U.S.A. and Canada), any additional expense resulting from Customer's request for expedited transportation, special services, packaging, handling, routing, and/or shipping method will be billed to Customer.

4. Mexico

All deliveries will be DAP (Delivered to Place) (ICC Incoterms 2010). Haworth's catalog prices include freight charges for normal surface transportation to a United States point of exportation within the 48 contiguous states. Haworth has the right to determine the carrier, method of shipment and routing.

Customer bears all risk of loss or damage to the goods when the goods are delivered to the named United States point of exportation. Haworth will provide customs clearance facilitation and arrangement of local delivery through an Authorized Dealer in Mexico, on a separately negotiated basis. Otherwise the Customer will be responsible for all customs clearance formalities and on-carriage from the United States point of exportation to the final destination in Mexico.

5. Delivery Dates and Delay

If Haworth cannot deliver products as scheduled due to causes beyond its reasonable control (such as casualty, labor disputes, or accident; inability to obtain necessary labor, material or transportation; or changes requested by the Customer), the delivery date will be extended to compensate for the delay as determined by Haworth.

6. Delivery Shortages and Damage

Product shortages and damage must be noted on delivery receipts at the time of delivery and reported to the carrier for correction.

Claims against Haworth for shortages, errors, or damage must be made within ten (10) days of the date of delivery or the Customer waives the right to make such a claim. Signed Bill of Ladings or Delivery Receipt must be sent in with claims. See the Haworth/Haworth Dealers Roles and Responsibilities document for further details.

7. Storage

Haworth may transfer product to storage at the Customer's risk and expense if the Customer is unable or unwilling to take delivery of product as originally scheduled. Upon such transfer to storage, the Customer assumes risk of loss. Haworth will invoice the Customer for storage fees and the Customer will make payments in accordance with Haworth's standard payment terms.

North American Terms of Sale

D. General Terms

1. Governing Law

For products purchased for delivery in the U.S. pursuant hereto, this Agreement shall be governed by and construed according to the laws of the State of Michigan. Where Products are purchased for delivery in Canada pursuant hereto, this Agreement shall be governed by and construed according to the laws of the Province of Alberta. In either case, the parties attorn to the exclusive jurisdiction of the courts of Michigan and Alberta, respectively for the purpose of hearing any disputes arising under this Agreement or with respect to any Products sold pursuant hereto, and agree that the provisions of the United Nations Convention on Contracts for the International Sale of Goods and any other provision or law which would have the effect of applying the laws of any jurisdiction other than Michigan or Alberta, as the case may be, shall be excluded.

2. Force Majeure

In the event that the performance of Customer or Haworth or its participating dealer assignee(s) would be prevented, restricted, interfered with or rendered commercially impracticable by reason of Force Majeure, then upon the giving of notice to the other parties, the party affected by the Force Majeure shall be excused from performing hereunder until the Force Majeure no longer prevents, restricts, interferes with, or renders such performance commercially impracticable.

"Force Majeure" shall mean: fire, explosion, breakdown of plant, epidemic, hailstorm, snow/ice storms en route, hurricane, tornado, cyclone, flood or power failure; war, revolution, civil or military disturbances, acts of public enemies, acts of terrorism, blockade or embargo; any law, order, proclamation, regulation, ordinance, demand or requirement of any applicable governmental authority or any subdivision, authority, or representative of any such government; labor difficulties, including without limitation, strikes, slowdowns, picketing or boycotts; or difficulties beyond Haworth's reasonable control in obtaining necessary raw materials, labor, fuels and electric power, components or facilities, and any other circumstances beyond the control of the party affected.

3. Delays by Customer

Where Haworth has not received adequate site dimensions, Product specifications, shipping information, installation particulars or other information required by Haworth to permit the efficient manufacture of any Products, or where site conditions are not in accordance with the Installation Requirements set forth, or are not otherwise suitable to permit effective and efficient installation, the manufacture and/or delivery of Products may be delayed, and such event shall constitute a delay by the Customer. When manufacture, delivery or installation is delayed by the Customer or at the Customer's request: (i) Haworth may, at its option, present the invoice for the full price of the Products to the Customer as then due and payable; (ii) the Customer shall pay to Haworth all reasonable storage, handling and other reasonable incidental expenses incurred by Haworth in connection with such delay; and (iii) the Customer shall bear all risk of loss or damage to the Products being held by Haworth for the Customer.

4. Use and Installation of Products

Haworth recommends that its products be installed by certified, qualified and approved installers according to Haworth's written installation procedures. The Customer agrees to use Haworth products properly; not to remove or alter safety devices, warnings, or operation instructions placed on products by Haworth, and to instruct employees as to the proper care and use of the products according to printed instructions.

5. Warranty

Haworth's standard North American Warranty will apply as appropriate. All product line warranty specifics are available in each catalog or upon request.

E. Services

Service requests for design, installation, relocation, storage, etc. are handled by the local Haworth dealer on a separately negotiated basis. Contact the local Haworth dealer, affiliate or area sales office for more details.

Scope of Work - Design

Customer acknowledges that the Products to be manufactured or procured by Haworth in connection with the order are or may be custom manufactured for the Customer and that Haworth may be required to perform extensive work in relation to the design and specification of such Products. Where Customer requests that Haworth create as-built drawings or make more than two material revisions to any particular Product design or specification, Customer agrees that Haworth shall be entitled to invoice Customer with respect to such additional work on the basis of Haworth's then prevailing rates for related design and specification services.

Installation Requirements

Where installation services are to be provided by Haworth, its authorized dealer or subcontractor, a document will be provided setting forth the scope of installation work to be performed (the "Scope of Work") and the price to be charged therefore. Unless otherwise specified in the scope of work, Haworth's installation services are limited to products sold by Haworth with the exception of lighting, under floor electrical and data.

General Conditions

(a) Sufficient time shall be allocated by the Customer following delivery of Products and prior to Customer's occupation of the premises to allow the installation of all Products during conventional working hours, Monday through Friday, 7:30 a.m. to 4:30 p.m. Where sufficient time is not allocated and Haworth is required or requested to perform installation work outside of such times, overtime charges shall be charged at Haworth's then prevailing rates. (b) Haworth shall be given free and exclusive access to; (i) a loading dock within 150′ of the freight elevator or hoist, which loading dock shall be of sufficient size to enable full-size tractor-trailer deliveries to the premises (where required by Haworth); (ii) a freight elevator or hoist of sufficient size and capacity to allow the efficient movement of the Products; (iii) an unobstructed and safe pathway to the area where Products are to be stored or staged; (iv) a secure storage / staging area; (v) convenient trash facilities; (vi) adequate lighting; (vii) a work site that complies with applicable health and safety legislation. Where such areas and facilities are not available, Haworth shall be entitled to bill Customer for all amounts incurred by Haworth for double-handling, product movement, lifting, hoisting, trash removal and any other resulting charges. (c) The installation site shall be free and clear of existing furniture, debris, or other obstructions (including construction in progress) and shall otherwise be in the reasonable opinion of Haworth ready for installation of the Products. Any building where Products are to be installed shall be fully closed in, dry and protected from the natural elements, with temperatures between 40°F and 90°F (4°C and 32°C) and relative humidity not to exceed 70% at all times including receipt of products, during and after installation and shall be adequately heated and/or air-conditioned. Where unusual site conditions exist which impede or prevent the normal installation of any Products, applicable extra charges shall apply at prevailing rates. (d) Haworth's installation pricing is based upon the installation occurring as one continuous delivery and installation project. Phased installation pricing shall be provided by Haworth on a case by case basis. (e) Electrical hardwiring, plumbing and mechanical work is not included and shall be the responsibility of the Customer. (f) Except as may be otherwise specifically indicated, installation pricing does not apply to projects where union labor is required. Where Haworth has provided installation pricing on the basis that non-union labor be utilized, and where Haworth is required to use union labor or it otherwise becomes impractical to use non-union labor, or where Haworth is required by law to use prevailing wages, Haworth shall be entitled to charge the Customer for any cost differential between the anticipated cost of non-union labor and the actual cost of utilizing union or prevailing wage labor. (g) Haworth shall not be responsible for obtaining permits.

North American Terms of Sale

Project / Site Conditions

Lateral load bracing is not included in the scope of Haworth's work and shall not be performed by Haworth. In areas where flooring Products are to be installed by Haworth overhead construction must be completed prior to the commencement of such work to avoid damage to the panels and finishes. The existing subfloor must be smooth, mopped clean, free of moisture, dust, dirt and debris. Once installed, the access floor must be maintained in the same manner. The subfloor must have a maximum vertical elevation deviation of 0.375″ (10mm) over a horizontal span of 10′-0″ (3m), and without discontinuities in floor slope. For greater certainty, the scope of Haworth's installation work in such areas shall not be deemed to include any work required to level such subfloor, remove protrusions, remove pre-existing floor coverings or adhesives, or any other work which is required to remedy any conditions which may impede the efficient installation of flooring. Except as may be otherwise specifically indicated in the order, installation pricing for flooring Products and the Scope of Work in relation thereto shall not include any work required to remove and replace floor panels following their initial installation to provide tradespersons or others with access to the underpanel cable management cavity. In areas where movable walls are to be installed, all flooring (including carpeting) and ceiling components (including dropped ceiling grid components) shall be fully complete and ready for the installation of the movable wall products. Further, the existing floor (or other surface on which the movable wall panels are to be installed) shall have a maximum vertical deviation of 1.25″ (30mm) and the dropped ceiling grid shall have a maximum vertical deviation of 0.375″ (10mm) from the specifications to which such movable wall panels were designed and manufactured (collectively the "Permitted Tolerances"), and shall otherwise comply with any site condition assumptions made known to Haworth prior to the manufacture of such Products (the "Site Assumptions"). Where the Permitted Tolerances or Site Assumptions are not strictly adhered to or met, additional charges may be incurred in connection with site remediation and/or the modification or remanufacture of affected movable wall products, together with all resulting shipping and labor charges at Haworth's then prevailing rates for such Products and services.

Installation Change Orders

Where Customer requests work to be performed or materials to be provided which are not contemplated in the Scope of Work, or Customer otherwise requests Products or services not contemplated in the order (collectively "Extras"), prior to providing such Extras Haworth reserves the right to require the Customer to provide and sign a written Purchase Order or Change Order acceptable to Haworth describing the Extras and the amounts to be charged therefore, and the Customer agrees to pay such charges.

Entire Agreement

The order and this Agreement (including applicable Schedules) constitute the sole agreement between the parties and supercede any prior understanding or written or oral agreements between the parties (excluding National Sales Agreements). No waiver of any of the provisions of these Standard Terms and Conditions shall be binding on Haworth unless expressly agreed in writing.

PRODUCT NON-OBSOLESCENCE AND WARRANTY POLICY

This North American Haworth Product Non-Obsolescence and Warranty Policy (the "policy") applies to products manufactured after May 8, 2015. For products manufactured before this date please refer to the policy published in the NA Price List when purchased or contact your local Authorized Haworth Dealer. All Haworth products are warranted for 24 hour / 7 day use over the length of the Applicable Warranty Period as set forth below.

Haworth, Inc. or Haworth, Ltd., (each called "Haworth") will make a good faith effort to maintain product compatibility within our various generations of integrated product platforms to provide our customers with spaces that adapt to change. Under our non-obsolescence policy, we commit to provide our customers with products of comparable function or operational characteristics for a term equal to the Applicable Warranty Period. Haworth fabrics and finishes must be updated periodically to maintain the market appeal of our products and respond to the demands and changing preferences of our customers. As a result, we or the manufacturer may discontinue some fabrics and finishes before expiration of the Applicable Warranty Period.

If a new product purchased or leased from Haworth or from an Authorized Haworth Dealer proves to be defective (as defined below) while the product is still in the possession of the initial purchaser or lessee and if they, within the Applicable Warranty Period, inform Haworth of the defect by contacting the local Authorized Haworth Dealer, then, except as provided below, Haworth will, at Haworth's option, either repair or replace the product, at Haworth's expense, or refund the purchase price of the product. Except as provided below, a product shall be considered "defective" if Haworth finds that it is defective in material or workmanship and if the defect materially impairs the use of the product to the purchaser or lessee. The applicable warranty period begins on the day the product is manufactured. If a product that the purchaser or lessee references in a notice of defect was not installed by a Haworth Certified installer and/or reconfigured by a Haworth-trained installer, then the product may not be considered defective and Haworth will not be obligated to repair or replace it or to refund its price.

ONE YEAR

Horizontal use markerboard laminate, Openest™ Plume Screens, soft palm rest, mouse pad insert and translucent edging.

Haworth "Specials" products that involve simple modification of a standard based product will be warranted for the same period as the standard catalog product it is based on. Haworth "Specials" products that deviate from standard catalog product in the form of features, construction, function, or aesthetic will be warranted for 1 year.

All software is without warranty of any kind, either expressed or implied.

All service parts are warranted for two years or the remaining balance of the assembly's original warranty period, whichever is longer.

*The Applicable Warranty Period for each such product is specified in Haworth's price list for the product.

A product will not be considered to be defective, and Haworth will not repair, or replace it or refund its price if the product (1) is a consumable product, such as a lamp; (2) is "Customer's Own Material" (i.e. material specified by the purchaser or lessee that is not a standard Haworth product offering, such as Haworth Alliance fabrics); (3) is not installed and used as recommended in Haworth's written specification, installation, care, maintenance and user guides; (4) has been otherwise misused or suffered abusive damage or (5) is a product that is manufactured by a third-party supplier from whom Haworth purchases it for resale without incorporating it into Haworth product (in which case Haworth will assign to the purchaser or lessee any warranty that the manufacturer provides), unless otherwise specified by Haworth in writing. At all times the Covered Product must have been located in a building that is (i) dry, fully closed-in and protected from the natural elements, and (ii) adequately heated, ventilated and air conditioned in order to maintain an internal temperature between 40°F and 90°F (4°C and 32°C) and relative humidity levels between 25% and 55%.

A defect in material or workmanship does not include damage to a product, or failure of a product to operate or perform properly or to maintain appearance, caused by (a) normal wear and tear; (b) an Act of God or transportation; (c) a product alteration made without Haworth's express written authorization; (d) the natural variation of color, grain or texture found in wood and leather; (e) the natural aging found in materials such as wood, fabric and leather which results in colors shifting during use; (f) dye lot variations in fabric, leather or wall covering (g) the natural patina of leather during use; (h) "puddling" of leather or faux leather; or (i) reverse crocking of dyes from clothing onto our seating materials.

EXCEPT AS STATED ABOVE, HAWORTH DOES NOT MAKE A WARRANTY AS TO ANY PRODUCT AND, IN PARTICULAR, DOES NOT MAKE A WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE. Product repair or replacement or refund of the price, at Haworth's option, in accordance with this Policy, is the purchaser's or lessee's exclusive remedy for a product defect. Haworth shall not have tort liability with respect to a product, and Haworth shall not be liable for any consequential, economic, indirect, special, punitive or incidental damages arising from a product defect. Haworth shall not be liable for repair or product placement due to improper installation or any defect in materials used for installation which are not manufactured, sold or supplied by Haworth.

North American Terms of Sale

These Terms of Sale are part of a quotation, bid response, or other sales document issued by Haworth, Inc., Haworth, Ltd. ("Haworth").

These Terms of Sale do not cover products manufactured in North America shipping to non-North American countries nor do they cover products manufactured in non-North American countries shipping to North America. For those terms of sale, please contact Haworth's Global Trade and Compliance Department at 616.393.3000 or through Haworth.com.

A. Ordering Information

Haworth sells its products on the terms set forth in these standard Terms of Sale:

ORDERS MUST BE SUBMITTED IN WRITING OR ELECTRONICALLY (Lynx) AS REPRESENTED BY A VALID PURCHASE ORDER, WHICH INCLUDES PRODUCT TOTAL.

An order is not binding upon Haworth until Haworth issues an order acknowledgment to the customer (the "Customer"), which will include price information and an anticipated delivery date.

1. Order Changes/Cancellations

For Specials, Customer's Own Material (C.O.M.), finish matches, custom colors, custom products, Master lock and key orders, and RUSH orders, no changes or cancellations are allowed 24 hours after order placement. All other products require approval for changes or cancellations. A change/cancellation fee may apply. Contact Order Services for applicable charges.

Ship-to addresses changed within five (5) business days of delivery will incur fees to cover administrative costs due to re-labeling of product and/or reconsignment fees with the carrier.

Order cancellations are complete annulments of orders. Order changes are the deletion of line items or a change in size, color, quantity, ship-to address, or scope of work. There is no penalty for additions; however, any change may cause the order or the line items affected to be rescheduled. Order changes involving additional product and services which increase the value must be accompanied by an amended Purchase Order or other document as agreed.

ALL CHANGES MUST BE IN WRITING, REGARDLESS OF THE (DOLLAR) VALUE. CHANGES ARE NOT BINDING UPON HAWORTH UNTIL HAWORTH ISSUES AN ACKNOWLEDGMENT OF THE CHANGE.

2. C.O.M. (Customer's Own Material)

A Customer who requests a fabric, surface or finish material (C.O.M.) not in Haworth's standard finish offering must first confirm approval of or request new approval for the C.O.M.

Haworth will determine feasibility of the material for manufacturability. For a description of the procedure to submit C.O.M. samples, contact Haworth's Order Services department. For testing information, see the C.O.M. section of the catalog, or call Haworth Order Services.

If Haworth agrees to use the C.O.M., (1) Haworth shall have no responsibility for the condition, quality, value, performance, physical properties, or any other aspect of the C.O.M.; and (2) Haworth shall have no liability for any damages, injuries, or losses to the Customer or to any third party that shall be caused by any C.O.M., and the Customer shall hold Haworth harmless for all such liability.

3. Valid/Complete Purchase Order

The following information is required in order to process an order with Haworth:

a. Customer Information

i. **Sold To:** Legal name, complete address (if Haworth is to bill the end user, provide end user Purchase Order made out to Haworth, Inc., Haworth, Ltd.) and phone and fax number.

ii. **Ship To:** Legal name and address.

iii. **Purchase Order Number:** From the party Haworth will be billing.

iv. **Authorized Signature:** All Purchase Orders must be signed by a duly authorized representative if a signature line is present. Electronically transmitted Purchase Orders will be accepted without a signature if dealer billed and the dealer has an electronic purchase payment agreement on file.

v. **Contact Name and Phone Number:** Person Haworth should contact with any questions regarding the order.

vi. **Shipping Contact:** Name and phone number of person to be contacted regarding shipping and delivery matters.

vii. **Tagging Instructions:** This information will appear on all documentation received from Haworth including: cartons, acknowledgments, and invoices.

viii. **Price Agreement or National Sales Agreement Number**

ix. **Product Total:** Net dollars.

x. **Installation, Design, Project Management, and/or Service Fees**

b. Product Information

i. **Quantity**

ii. **Product Numbers**

iii. **Colors**

iv. **Specials:** Specify special part number for new special products.

v. **Customer's Own Material:** Order entry code, manufacturer, pattern, and color.

vi. **Approval Drawings:** An authorized signature by a duly authorized representative is required for shop drawings when applicable.

vii. A deposit may be required for custom materials.

c. Order Confirmation

All orders will be acknowledged.

B. Pricing Policies

1. Terms of Payment

Terms of payment and credit limits will be established based on financial information. Standard payment terms on open credit are net thirty (30) days from invoice date. Advance payments or other payment security may be required by Haworth. The account balance must be at or below the credit limit and current at all times (no past-due balances). Haworth reserves the right to delay or cancel any delivery to a Customer whose Haworth account balance is over the credit limit and/or past due. For walls and floors a deposit will be required.

2. Terms of Credit

Customer hereby authorizes Haworth to obtain such credit reports, financial information or other information as Haworth may request, including, without limitation, credit information from any financial institutions or others having a business relationship with the Customer. Customer hereby authorizes any credit references to answer Haworth's inquiries and provide such credit information and documentation as Haworth may request.

The Customer hereby releases and holds Haworth harmless for any inconvenience whatsoever, caused by any temporary or permanent withdrawal or restriction of credit privileges hereunder, or the enforcement of any of the provisions contained in this paragraph.

3. Past-Due Charges

Past-due balances will be increased by a maximum of 1.5% per month, or 18% annually, without forfeit of Haworth's right to immediate payment.

4. Applicable Prices

The price of any product sold to Customer by Haworth will be based upon the North American Price List (Catalog).

Prices and discounts are subject to change without notice or approval. In the event of an adjustment to pricing, National Sales Agreement (NSA) Customers will be notified in advance according to the terms of the NSA.

Applicable prices and currency exchange rates are those in effect at the time of the RECEIPT of an **ORDER**; Haworth reserves the right to use the published pricing effective at the time of shipment, if the requested delivery date is more than 120 days after the order receipt date.

North American Terms of Sale

Haworth Flooring products are sold using the North American price list in US dollars. Currency exchange rates at the time of the transaction will be used to convert the USD amount into the alternate currency. Should the currency exchange rate between the USD and alternate currency change between a quote and the receipt of an order, the alternate currency amount will also change to equal the current, equivalent USD amount.

5. C.O.M. (Customer's Own Material) Charges

Refer to appropriate Customer's Own Material (C.O.M.) form for applicable surface material charges.

6. Taxes

Haworth prices do not include customs duty, sales, use, value added or similar taxes. Any federal, state/provincial or other taxes or assessments based upon the sale or delivery of products or services sold applicable to the customer at present or later imposed by federal, state/provincial or municipal agencies, shall be added and paid by the customer. Customer is responsible for all such taxes.

NOTE: For all countries a valid sales tax exemption certificate must be approved by and on file with Haworth prior to product shipment. Otherwise, sales tax will be due and payable to Haworth when such tax is invoiced to Customer.

7. Services

If, as a result of Customer request, the Haworth dealer or Haworth subsidiary provides planning/design services, storage, project management, special handling, set-up, installation and/or other services, the Customer will be charged at the local Haworth dealer/subsidiary's prevailing rates.

8. Termination by Haworth

Haworth may immediately terminate an order upon written notice in the event bankruptcy or insolvency proceedings are instituted by or against the Customer, or the Customer is adjudicated as bankrupt, becomes insolvent, makes an assignment for the benefit of creditors, or proposes or makes any arrangements for the liquidation of its debts, or a receiver or receiver and manager is appointed with respect to all or any part of the assets of the Customer.

C. Shipping and Delivery

Haworth will have the right to determine the method of shipment and routing of product.

This section does not apply to any of Haworth's Flooring products. All Haworth Flooring products are sold freight collect.

If, for any reason, a delivery has to be made to an intermediate location (i.e. a location other than the "Ship To" location noted on the order or ultimate end user location), all handling and re-delivery costs incurred would be at the Customer's expense.

1. U.S.A. - Contiguous

All deliveries will be CPT (Carriage Paid To) (ICC Incoterms 2010) Haworth's manufacturing facilities or distribution centers. Freight charges will be prepaid by Haworth on all orders to locations within the continental United States. Customer bears all risk of loss or damage to the goods when they are placed on Haworth's means of transport.

2. U.S.A. - Non-contiguous (Alaska, Hawaii and Puerto Rico)

All deliveries will be CIF (Cost, Insurance and Freight) (ICC Incoterms 2010). Haworth's catalog prices include ocean freight and insurance to the port of the final destination. Haworth has the right to determine the carrier, method of shipment and routing. Haworth will contract with the insurer and provide minimal insurance coverage (CIF @ 110%) made payable to the Customer. Customer is responsible to obtain greater insurance if so desired.

Customer bears all risk of loss or damage to the goods when the goods are effectively at the disposal of the Customer on board the vessel at the named port of destination. Proof of delivery is a clean on board bill of lading. Customer will be responsible for all on-carriage from the receiving port to the final destination.

3. Canada

All deliveries will be DDP (Delivered Duty Paid) (ICC Incoterms 2010). Haworth's catalog prices include delivery to Customer's named place, not unloaded from any arriving means of transport. Customer bears all risk of loss or damage to the goods when they are delivered to the Customer's named facility not unloaded. Haworth will assume responsibility to file all freight claims with the carrier for any loss/damage which may occur while product is in transit, and will promptly repair or replace any damaged or lost product. Haworth requires the Customer to report all freight damage and/or loss to both the carrier and to Haworth.

NOTE: Under all delivery terms (U.S.A. and Canada), any additional expense resulting from Customer's request for expedited transportation, special services, packaging, handling, routing, and/or shipping method will be billed to Customer.

4. Mexico

All deliveries will be DAP (Delivered to Place) (ICC Incoterms 2010). Haworth's catalog prices include freight charges for normal surface transportation to a United States point of exportation within the 48 contiguous states. Haworth has the right to determine the carrier, method of shipment and routing.

Customer bears all risk of loss or damage to the goods when the goods are delivered to the named United States point of exportation. Haworth will provide customs clearance facilitation and arrangement of local delivery through an Authorized Dealer in Mexico, on a separately negotiated basis. Otherwise the Customer will be responsible for all customs clearance formalities and on-carriage from the United States point of exportation to the final destination in Mexico.

5. Delivery Dates and Delay

If Haworth cannot deliver products as scheduled due to causes beyond its reasonable control (such as casualty, labor disputes, or accident; inability to obtain necessary labor, material or transportation; or changes requested by the Customer), the delivery date will be extended to compensate for the delay as determined by Haworth.

6. Delivery Shortages and Damage

Product shortages and damage must be noted on delivery receipts at the time of delivery and reported to the carrier for correction.

Claims against Haworth for shortages, errors, or damage must be made within ten (10) days of the date of delivery or the Customer waives the right to make such a claim. Signed Bill of Ladings or Delivery Receipt must be sent in with claims. See the Haworth/Haworth Dealers Roles and Responsibilities document for further details.

7. Storage

Haworth may transfer product to storage at the Customer's risk and expense if the Customer is unable or unwilling to take delivery of product as originally scheduled. Upon such transfer to storage, the Customer assumes risk of loss. Haworth will invoice the Customer for storage fees and the Customer will make payments in accordance with Haworth's standard payment terms.

North American Terms of Sale

D. General Terms

1. Governing Law

For products purchased for delivery in the U.S. pursuant hereto, this Agreement shall be governed by and construed according to the laws of the State of Michigan. Where Products are purchased for delivery in Canada pursuant hereto, this Agreement shall be governed by and construed according to the laws of the Province of Alberta. In either case, the parties attorn to the exclusive jurisdiction of the courts of Michigan and Alberta, respectively for the purpose of hearing any disputes arising under this Agreement or with respect to any Products sold pursuant hereto, and agree that the provisions of the United Nations Convention on Contracts for the International Sale of Goods and any other provision or law which would have the effect of applying the laws of any jurisdiction other than Michigan or Alberta, as the case may be, shall be excluded.

2. Force Majeure

In the event that the performance of Customer or Haworth or its participating dealer assignee(s) would be prevented, restricted, interfered with or rendered commercially impracticable by reason of Force Majeure, then upon the giving of notice to the other parties, the party affected by the Force Majeure shall be excused from performing hereunder until the Force Majeure no longer prevents, restricts, interferes with, or renders such performance commercially impracticable.

"Force Majeure" shall mean: fire, explosion, breakdown of plant, epidemic, hailstorm, snow/ice storms en route, hurricane, tornado, cyclone, flood or power failure; war, revolution, civil or military disturbances, acts of public enemies, acts of terrorism, blockade or embargo; any law, order, proclamation, regulation, ordinance, demand or requirement of any applicable governmental authority or any subdivision, authority, or representative of any such government; labor difficulties, including without limitation, strikes, slowdowns, picketing or boycotts; or difficulties beyond Haworth's reasonable control in obtaining necessary raw materials, labor, fuels and electric power, components or facilities, and any other circumstances beyond the control of the party affected.

3. Delays by Customer

Where Haworth has not received adequate site dimensions, Product specifications, shipping information, installation particulars or other information required by Haworth to permit the efficient manufacture of any Products, or where site conditions are not in accordance with the Installation Requirements set forth, or are not otherwise suitable to permit effective and efficient installation, the manufacture and/or delivery of Products may be delayed, and such event shall constitute a delay by the Customer. When manufacture, delivery or installation is delayed by the Customer or at the Customer's request: (i) Haworth may, at its option, present the invoice for the full price of the Products to the Customer as then due and payable; (ii) the Customer shall pay to Haworth all reasonable storage, handling and other reasonable incidental expenses incurred by Haworth in connection with such delay; and (iii) the Customer shall bear all risk of loss or damage to the Products being held by Haworth for the Customer.

4. Use and Installation of Products

Haworth recommends that its products be installed by certified, qualified and approved installers according to Haworth's written installation procedures. The Customer agrees to use Haworth products properly; not to remove or alter safety devices, warnings, or operation instructions placed on products by Haworth, and to instruct employees as to the proper care and use of the products according to printed instructions.

5. Warranty

Haworth's standard North American Warranty will apply as appropriate. All product line warranty specifics are available in each catalog or upon request.

E. Services

Service requests for design, installation, relocation, storage, etc. are handled by the local Haworth dealer on a separately negotiated basis. Contact the local Haworth dealer, affiliate or area sales office for more details.

Scope of Work - Design

Customer acknowledges that the Products to be manufactured or procured by Haworth in connection with the order are or may be custom manufactured for the Customer and that Haworth may be required to perform extensive work in relation to the design and specification of such Products. Where Customer requests that Haworth create as-built drawings or make more than two material revisions to any particular Product design or specification, Customer agrees that Haworth shall be entitled to invoice Customer with respect to such additional work on the basis of Haworth's then prevailing rates for related design and specification services.

Installation Requirements

Where installation services are to be provided by Haworth, its authorized dealer or subcontractor, a document will be provided setting forth the scope of installation work to be performed (the "Scope of Work") and the price to be charged therefore. Unless otherwise specified in the scope of work, Haworth's installation services are limited to products sold by Haworth with the exception of lighting, under floor electrical and data.

General Conditions

(a) Sufficient time shall be allocated by the Customer following delivery of Products and prior to Customer's occupation of the premises to allow the installation of all Products during conventional working hours, Monday through Friday, 7:30 a.m. to 4:30 p.m. Where sufficient time is not allocated and Haworth is required or requested to perform installation work outside of such times, overtime charges shall be charged at Haworth's then prevailing rates. (b) Haworth shall be given free and exclusive access to; (i) a loading dock within 150' of the freight elevator or hoist, which loading dock shall be of sufficient size to enable full-size tractor-trailer deliveries to the premises (where required by Haworth); (ii) a freight elevator or hoist of sufficient size and capacity to allow the efficient movement of the Products; (iii) an unobstructed and safe pathway to the area where Products are to be stored or staged; (iv) a secure storage / staging area; (v) convenient trash facilities; (vi) adequate lighting; (vii) a work site that complies with applicable health and safety legislation. Where such areas and facilities are not available, Haworth shall be entitled to bill Customer for all amounts incurred by Haworth for double-handling, product movement, lifting, hoisting, trash removal and any other resulting charges. (c) The installation site shall be free and clear of existing furniture, debris, or other obstructions (including construction in progress) and shall otherwise be in the reasonable opinion of Haworth ready for installation of the Products. Any building where Products are to be installed shall be fully closed in, dry and protected from the natural elements, with temperatures between 40°F and 90°F (4°C and 32°C) and relative humidity not to exceed 70% at all times including receipt of products, during and after installation and shall be adequately heated and/or air-conditioned. Where unusual site conditions exist which impede or prevent the normal installation of any Products, applicable extra charges shall apply at prevailing rates. (d) Haworth's installation pricing is based upon the installation occurring as one continuous delivery and installation project. Phased installation pricing shall be provided by Haworth on a case by case basis. (e) Electrical hardwiring, plumbing and mechanical work is not included and shall be the responsibility of the Customer. (f) Except as may be otherwise specifically indicated, installation pricing does not apply to projects where union labor is required. Where Haworth has provided installation pricing on the basis that non-union labor be utilized, and where Haworth is required to use union labor or it otherwise becomes impractical to use non-union labor, or where Haworth is required by law to use prevailing wages, Haworth shall be entitled to charge the Customer for any cost differential between the anticipated cost of non-union labor and the actual cost of utilizing union or prevailing wage labor. (g) Haworth shall not be responsible for obtaining permits.

North American Terms of Sale

Project / Site Conditions

Lateral load bracing is not included in the scope of Haworth's work and shall not be performed by Haworth. In areas where flooring Products are to be installed by Haworth overhead construction must be completed prior to the commencement of such work to avoid damage to the panels and finishes. The existing subfloor must be smooth, mopped clean, free of moisture, dust, dirt and debris. Once installed, the access floor must be maintained in the same manner. The subfloor must have a maximum vertical elevation deviation of 0.375" (10mm) over a horizontal span of 10'-0" (3m), and without discontinuities in floor slope. For greater certainty, the scope of Haworth's installation work in such areas shall not be deemed to include any work required to level such subfloor, remove protrusions, remove pre-existing floor coverings or adhesives, or any other work which is required to remedy any conditions which may impede the efficient installation of flooring. Except as may be otherwise specifically indicated in the order, installation pricing for flooring Products and the Scope of Work in relation thereto shall not include any work required to remove and replace floor panels following their initial installation to provide tradespersons or others with access to the underpanel cable management cavity. In areas where movable walls are to be installed, all flooring (including carpeting) and ceiling components (including dropped ceiling grid components) shall be fully complete and ready for the installation of the movable wall products. Further, the existing floor (or other surface on which the movable wall panels are to be installed) shall have a maximum vertical deviation of 1.25" (30mm) and the dropped ceiling grid shall have a maximum vertical deviation of 0.375" (10mm) from the specifications to which such movable wall panels were designed and manufactured (collectively the "Permitted Tolerances"), and shall otherwise comply with any site condition assumptions made known to Haworth prior to the manufacture of such Products (the "Site Assumptions"). Where the Permitted Tolerances or Site Assumptions are not strictly adhered to or met, additional charges may be incurred in connection with site remediation and/or the modification or remanufacture of affected movable wall products, together with all resulting shipping and labor charges at Haworth's then prevailing rates for such Products and services.

Installation Change Orders

Where Customer requests work to be performed or materials to be provided which are not contemplated in the Scope of Work, or Customer otherwise requests Products or services not contemplated in the order (collectively "Extras"), prior to providing such Extras Haworth reserves the right to require the Customer to provide and sign a written Purchase Order or Change Order acceptable to Haworth describing the Extras and the amounts to be charged therefore, and the Customer agrees to pay such charges.

Entire Agreement

The order and this Agreement (including applicable Schedules) constitute the sole agreement between the parties and supercede any prior understanding or written or oral agreements between the parties (excluding National Sales Agreements). No waiver of any of the provisions of these Standard Terms and Conditions shall be binding on Haworth unless expressly agreed in writing.

PRODUCT NON-OBSOLESCENCE AND WARRANTY POLICY

This North American Haworth Product Non-Obsolescence and Warranty Policy (the "policy") applies to products manufactured after May 8, 2015. For products manufactured before this date please refer to the policy published in the NA Price List when purchased or contact your local Authorized Haworth Dealer. All Haworth products are warranted for 24 hour / 7 day use over the length of the Applicable Warranty Period as set forth below.

Haworth, Inc. or Haworth, Ltd., (each called "Haworth") will make a good faith effort to maintain product compatibility within our various generations of integrated product platforms to provide our customers with spaces that adapt to change. Under our non-obsolescence policy, we commit to provide our customers with products of comparable function or operational characteristics for a term equal to the Applicable Warranty Period. Haworth fabrics and finishes must be updated periodically to maintain the market appeal of our products and respond to the demands and changing preferences of our customers. As a result, we or the manufacturer may discontinue some fabrics and finishes before expiration of the Applicable Warranty Period.

If a new product purchased or leased from Haworth or from an Authorized Haworth Dealer proves to be defective (as defined below) while the product is still in the possession of the initial purchaser or lessee and if they, within the Applicable Warranty Period, inform Haworth of the defect by contacting the local Authorized Haworth Dealer, then, except as provided below, Haworth will, at Haworth's option, either repair or replace the product, at Haworth's expense, or refund the purchase price of the product. Except as provided below, a product shall be considered "defective" if Haworth finds that it is defective in material or workmanship and if the defect materially impairs the use of the product to the purchaser or lessee. The applicable warranty period begins on the day the product is manufactured. If a product that the purchaser or lessee references in a notice of defect was not installed by a Haworth Certified installer and/or reconfigured by a Haworth-trained installer, then the product may not be considered defective and Haworth will not be obligated to repair or replace it or to refund its price.

PRODUCTS / APPLICABLE WARRANTY PERIOD

LIFETIME

All Haworth products are warranted for lifetime *except products, components and materials described below:*

TWELVE YEARS

All Haworth NA manufactured seating is warranted for 24/7 multiple shift use by persons up to 325 lbs and includes the framework, mechanisms, seating foam, seat & back mesh and seating glides & casters.

All wood or wood framed products.

TEN YEARS

All wall products (excluding soft close door mechanisms warranted for Two Years), electrical components (excluding Power Base™ AI, USB receptacles and workware products), electrical accessories, fixed task lighting (excluding LED lighting), adjustable keyboard pads, monitor arms and products that are at any time used in a classroom or educational environment (other than administration areas) *except as limited or described below:*

FIVE YEARS

Fabric scrims and fabrics rated Heavy Duty (A) under the Association of Contract Textiles Guidelines, leather, vertical use markerboard laminates, user-adjustable worksurface mechanisms, gel arm caps, thermofused laminates, slow close mechanisms, LED lighting, Power Base™ receptacles with USB charging outlets, electronic ballasts used in task lighting, horizontal glass or thermoplastic table assemblies and Systems Accessories.

THREE YEARS

Power Base AI Electrical products, workware™ products, Hoop products (excludes any warranty for surface damage such as scratches, dents or abrasions), plastic ultraviolet light color fastness and fabrics rated General Contract (a) under the Association of Contract Textiles Guidelines.

ONE TO FIVE YEARS*

Products that are manufactured outside North America and sold into the North American market.

ONE YEAR

Horizontal use markerboard laminate, Openest™ Plume Screens, soft palm rest, mouse pad insert and translucent edging.

Haworth "Specials" products that involve simple modification of a standard based product will be warranted for the same period as the standard catalog product it is based on. Haworth "Specials" products that deviate from standard catalog product in the form of features, construction, function, or aesthetic will be warranted for 1 year.

All software is without warranty of any kind, either expressed or implied.

All service parts are warranted for two years or the remaining balance of the assembly's original warranty period, whichever is longer.

*The Applicable Warranty Period for each such product is specified in Haworth's price list for the product.

A product will not be considered to be defective, and Haworth will not repair, or replace it or refund its price if the product (1) is a consumable product, such as a lamp; (2) is "Customer's Own Material" (i.e. material specified by the purchaser or lessee that is not a standard Haworth product offering, such as Haworth Alliance fabrics); (3) is not installed and used as recommended in Haworth's written specification, installation, care, maintenance and user guides; (4) has been otherwise misused or suffered abusive damage or (5) is a product that is manufactured by a third-party supplier from whom Haworth purchases it for resale without incorporating it into Haworth product (in which case Haworth will assign to the purchaser or lessee any warranty that the manufacturer provides), unless otherwise specified by Haworth in writing. At all times the Covered Product must have been located in a building that is (i) dry, fully closed-in and protected from the natural elements, and (ii) adequately heated, ventilated and air conditioned in order to maintain an internal temperature between 40°F and 90°F (4°C and 32°C) and relative humidity levels between 25% and 55%.

A defect in material or workmanship does not include damage to a product, or failure of a product to operate or perform properly or to maintain appearance, caused by (a) normal wear and tear; (b) an Act of God or transportation; (c) a product alteration made without Haworth's express written authorization; (d) the natural variation of color, grain or texture found in wood and leather; (e) the natural aging found in materials such as wood, fabric and leather which results in colors shifting during use; (f) dye lot variations in fabric, leather or wall covering (g) the natural patina of leather during use; (h) "puddling" of leather or faux leather; or (i) reverse crocking of dyes from clothing onto our seating materials.

EXCEPT AS STATED ABOVE, HAWORTH DOES NOT MAKE A WARRANTY AS TO ANY PRODUCT AND, IN PARTICULAR, DOES NOT MAKE A WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE. Product repair or replacement or refund of the price, at Haworth's option, in accordance with this Policy, is the purchaser's or lessee's exclusive remedy for a product defect. Haworth shall not have tort liability with respect to a product, and Haworth shall not be liable for any consequential, economic, indirect, special, punitive or incidental damages arising from a product defect. Haworth shall not be liable for repair or product placement due to improper installation or any defect in materials used for installation which are not manufactured, sold or supplied by Haworth.

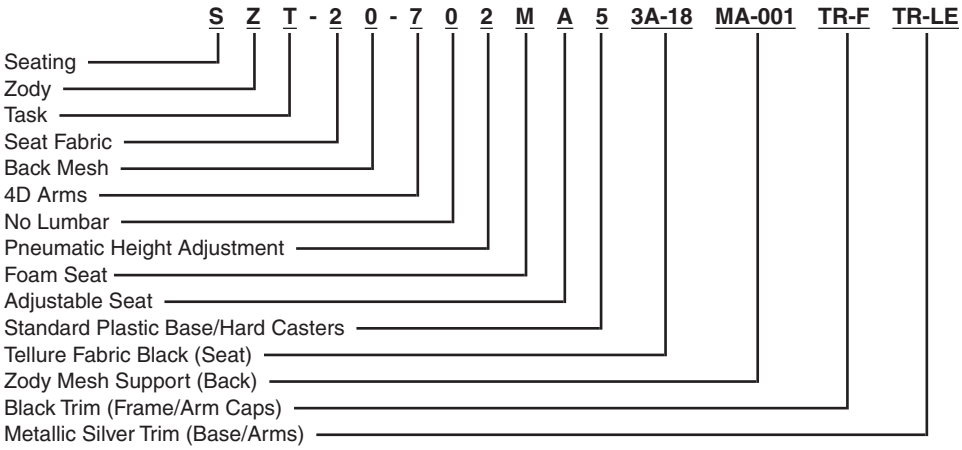
General Specifications

General Guidelines for Product Specification

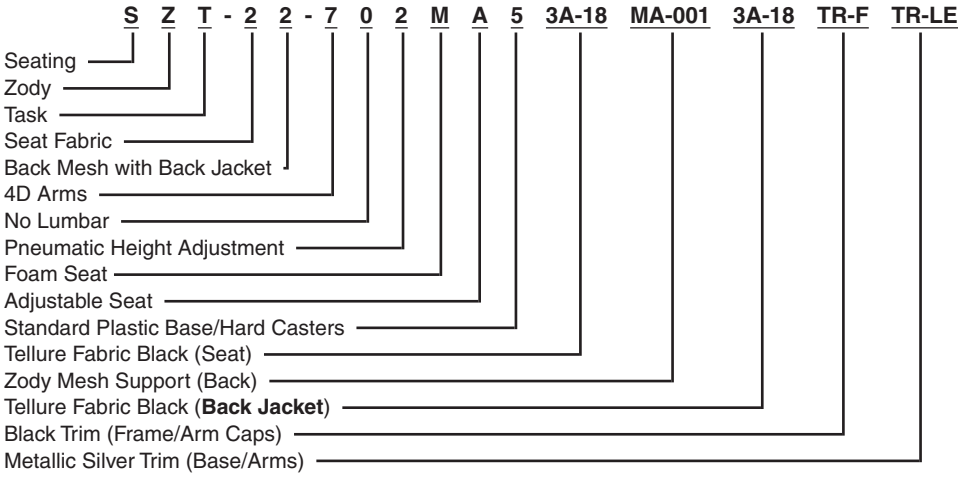
Zody seating specification numbers are based on an alpha-numeric logic that identifies a product by model and certain characteristics.

For example, a product number that reads **SZT-20-702MA5** identifies the product as a Zody mesh back chair with 4D arms, no lumbar, pneumatic seat height adjustment, foam adjustable seat and standard base with hard casters. The numeric logic for this model with fabric and finish codes is shown below:

Mesh Back



Mesh Back with Upholstered Back Jacket



There are exceptions to this logic; therefore, always refer to the price charts for product numbers rather than attempting to construct them. Product number modification instructions for additional options appear in footnoted copy for each applicable model.

Beyond the printed product number, fabric and finish codes are required to complete an order specification. To communicate your order clearly, list the product number and fabric/finish codes in the sequence outlined on each price page.

General Specifications

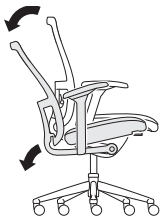
Environmental Factors	• Zody has been evaluated for its human health, environmental health, lifecycle attributes, renewable energy, water stewardship and social responsibility characteristics against stringent certification criteria and is considered an ecologically intelligent product. • Greenguard Children and Schools certified for low emissions. • BIFMA level 3 certified 2012. • Zody has up to 51% recycled content and is up to 98% recyclable. • Zody is produced in an ISO 14001 certified manufacturing facility. • Zody is assembled using renewable power. Haworth has purchased 100% Green-e certified American wind power credits to offset the energy consumed in manufacturing the product. • Components are identified with ISO recycling symbols and material information to assist in the recycling effort, where practical. • Haworth will take back Zody chairs after their useful life and recycle the components. Please contact Haworth's Material Recovery Center at (616)393-1215. • Optional Trivalent chrome finish provides safer and more environmentally friendly alternative for customers requiring the attributes of a chrome finish.
COM & COL General Information	To order a COM fabric (Customer's Own Material), contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to haworth.com/surfaces > COM Library to find out if the COM you have selected has already been tested and approved. The surface collection site also has information on the Haworth+ alliance program with Carnegie, Luna Textiles, and Maharam as well as our industry-leading Pre-Approved COM program. Approved COMs are placed into Grades based on the fabric pricing; if the fabric pricing exceeds our Grades, they will be priced at Grade A + cost of fabric + 4% handling (North America). Haworth will purchase all COMs unless instructed otherwise. (Leather will also be purchased by Haworth; if the leather pricing exceeds our Grades, cost will be based on fabric Grade E + cost of leather + 4% handling.) If no information is available on the COM you are looking for, refer to the COM section and forms on the surface collection site for information on how to process your test request.
Finishes and Fabrics	A complete listing of finishes and fabrics for Zody seating is available in the back of the price list.
Shipping Weights (Including packaging)	• Chairs with arms: 55 pounds/1 chair per carton/17.3 cubic feet • Chairs without arms: 51 pounds/1 chair per carton/17.3 cubic feet • Chairs with sled base: 24 pounds/1 chair per carton/17.3 cubic feet • Chairs with leg base: 21 pounds/1 chair per carton/17.3 cubic feet
RUSH	Select Zody seating models marked with a ■ symbol to denote availability on the RUSH program. Refer to the fabric and finish options for each product.
Nano-Tex®	To specify add "**P**" to end of product number. Example: SZT-22-702MA1**P** Not available on mesh, faux leather, or leather. For available fabrics, see matrix in the back of the book.

Zody

General Specifications

STANDARD MOBILITY AND ADJUSTABILITY

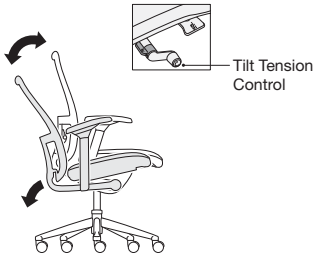
Balanced 3-point tilt



Features:
- Balanced 3-point tilt mechanism.
- Back reclines 24° from the upright position.
- Seat pan moves downward 3° from the initial position.

Benefits:
- Comfortable relaxed posture.
- Recline allows for the opening of the users' chest cavity providing good airflow to promote alertness.
- Users' feet remain flat on the floor.

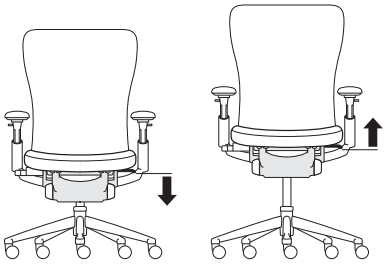
Tilt Tension Control



Feature:
- Easy-to-reach and easy-to-activate side-mounted tilt tension control regulates the amount of resistance felt when leaning back in the chair and the effort required to recline the chair backwards.

Benefit:
- Personalized support to accommodate users of different body types and different work styles.

Seat Height Adjustment

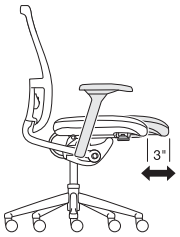


Fully Retracted Fully Extended

Features:
- Pneumatic seat height adjustment.
- Seat height adjusts 5″(127mm) from 16″ to 21″(406mm to 533mm) in standard models. Low-position adjusts 14 to 17″(356 to 432mm).

Benefits:
- Ensures the comfort of the lower limbs by avoiding pressure on the underside of the thigh caused by a seat pan that is too high, or decreased thigh-to-torso angle if the seat pan is too low.
- Accommodates for users between approximately 4′11″(1499mm) and 6′3″(1905mm) tall to provide good leg circulation.
- Seat height adjustment also is important in setting the proper hand position and allowing for a proper sitting eye height.

Seat Depth Adjustment



Features:
- 3″(76mm) of seat depth range. (Fixed seat also available.)
- Available with conventional foam material or optional Technogel® Soft Lite gel insert.
- Waterfall edge.

Benefit:
- Supports the thighs, allows users to rest against the seat back for back support, and avoids pressure on the back of the knees of small to tall users.

Upper Back Torsional Movement

Feature:
- Passive 2″(51mm) of torsional flex in the upper back.
- Patented mesh with built in tension zones for added comfort.

Benefit:
- Increases users' mobility and comfort when reaching sideways for objects.

Zody

General Specifications

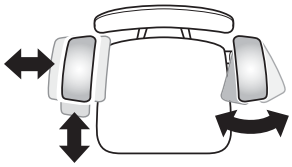
OPTIONAL MOBILITY AND ADJUSTABILITY

PAL Back System

Features:
- PAL Back System includes Asymmetrical Lumbar Adjustment and passive pelvic support.
- Asymmetrical Lumbar Adjustment adjusts 4″(102mm) in height; support level can be adjusted independently for right or left-hand side of users' body.
- Passive pelvic support.

Benefits:
- Lumbar adjustment maintains the natural curvature of the spine at the lower back and allows users to choose the support that feels right for them.
- Passive pelvic support rotates the pelvis forward to maintain the natural spine shape.

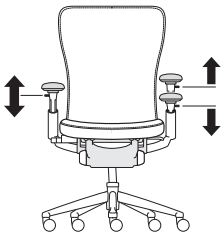
4D Arm



Features:
- Optional 4D arm.
- Arm adjusts in 4 ways:
  -Height adjustment: 4″(102mm)
  -Side-to-side arm cap adjustment range: 3″(76mm) [1.5″(38mm) each arm cap]
  -Front-to-back adjustment range: 3 1/2″(89mm)
  -Pivoting: In 20°; out 20°

Benefits:
- Arms support the muscular system of users' neck and shoulders and proper arm support provides back relief. Arms can be an aid in standing or sitting down.
- Height adjustment accommodates for users with varying elbow rest heights so that users avoid lifting their shoulders or leaning sideways to get arm support.
- Front-to-back adjustment adjusts the armrest length, which is important because it allows users to get close to the worksurface while maintaining the effective use of the backrest.
- Side-to-side adjustment ensures a comfortable resting position for the arms with proper support of the forearm while allowing for easy entry/exit of the chair.
- Pivoting provides proper support of the forearm when performing tasks involving keying and mousing.

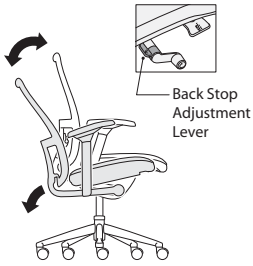
Adjustable Height Arm



Feature:
- Optional height adjustable arms adjust 4″(102mm) vertically.

Benefit:
- Height adjustment accommodates users with varying elbow rest heights so that users avoid lifting their shoulders or leaning sideways to get arm support.

Tilt with Back Stop



Features:
- Optional back stop;
  -Back stops in 6 positions - upright and every 4° backward.
  -Tilt limiter.

Benefit:
- Allows users the choice of selecting an upright position or limiting the amount of recline while performing different tasks.

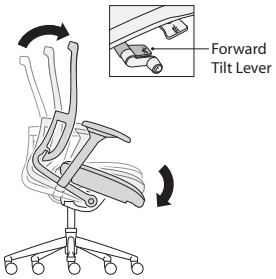
OPTIONAL MOBILITY AND ADJUSTABILITY (continued)

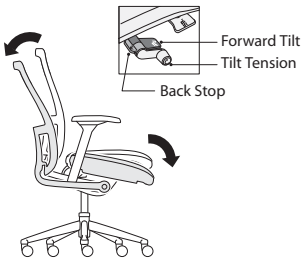
Forward Tilt



Features:
- Optional forward tilt.
- Seat pan moves downward 5° from the initial position.

Benefit:
- Allows the user the opportunity to vary their posture throughout the day.

Back Stop/Forward Tilt



Feature:
- Optional back-stop and forward tilt.
- Back stops in 6 positions, upright and every 4° backward.

Benefit:
- Allows users to vary their posture for maximum comfort and for changes in task requirements.

Environmental Factors	• Very Task is BIFMA level 3 certified. • Greenguard Children and Schools certified for low emissions. • Very has up to 65% recycled content and is up to 98% recyclable. • Very is produced in an ISO 14001 certified manufacturing facility. • Very Task is part of the Haworth Take Back Program. • Haworth will take back Very chairs after their useful life and recycle the components. Please contact Haworth's Material Recovery Center at (616)393-1215.
COM & COL General Information	To order a COM fabric (Customer's Own Material), contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to haworth.com/surfaces > COM Library to find out if the COM you have selected has already been tested and approved. The surface collection site also has information on the Haworth+ alliance program with Carnegie, Luna Textiles, and Maharam as well as our industry-leading Pre-Approved COM program. Approved COMs are placed into Grades based on the fabric pricing; if the fabric pricing exceeds our Grades, they will be priced at Grade A + cost of fabric + 4% handling (North America). Haworth will purchase all COMs unless instructed otherwise. (Leather will also be purchased by Haworth; if the leather pricing exceeds our Grades, cost will be based on fabric Grade E + cost of leather + 4% handling.) If no information is available on the COM you are looking for, refer to the COM section and forms on the surface collection site for information on how to process your test request.

Very Task

General Specifications

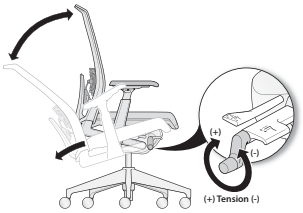
STANDARD MOBILITY AND ADJUSTABILITY

Balanced 3-point tilt

Features:
- Balanced 3-point tilt mechanism.
- Back reclines 20° from the upright position.
- Seat pan moves downward 3° from the initial position.
- 2:1 recline ratio.

Benefits:
- Comfortable relaxed posture.
- Recline allows for the opening of the users' chest cavity providing good airflow to promote alertness.
- Users' feet remain flat on the floor.

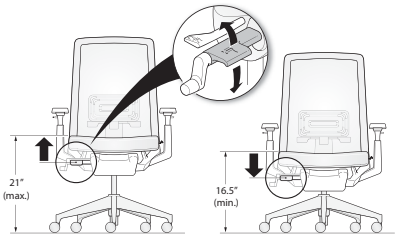
Tilt Tension Control



Feature:
- Easy-to-reach and easy-to-activate side-mounted unlimited tilt tension control regulates the amount of resistance felt when leaning back in the chair and the effort required to recline the chair backwards.

Benefit:
- Personalized support to accommodate users of different body types and different work styles.

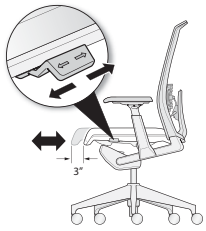
Seat Height Adjustment



Features:
- Pneumatic seat height adjustment.
- Seat height adjusts 5″(127mm) from 16″ to 21″(406mm to 533mm) in standard models. Low-position adjusts 14″ to 17″(356 to 432mm).

Benefits:
- Ensures the comfort of the lower limbs by avoiding pressure on the underside of the thigh caused by a seat pan that is too high, or decreased thigh-to-torso angle if the seat pan is too low.
- Seat height adjustment also is important in setting the proper hand position and allowing for a proper sitting eye height.

Seat Depth Adjustment



Features:
- 3″(76mm) of seat depth range.

Benefit:
- Supports the thighs, allows users to rest against the seat back for back support, and avoids pressure on the back of the knees of small to tall users.

Back Lock

Feature:
- Single position Back Lock.

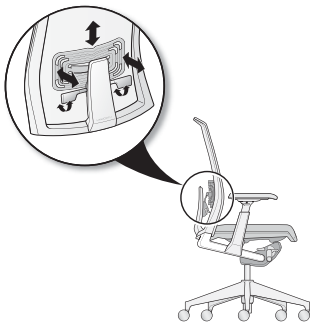
Benefit:
- Allows users to lock the back of the chair in the upright position for tasking application.

Very Task

General Specifications

OPTIONAL MOBILITY AND ADJUSTABILITY

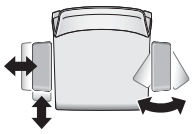
Lumbar Support



Features:
- Asymmetrical Left/right Lumbar Adjustment adjusts 4″(102mm) in height, flexible lumbar support with depth adjustment.

Benefits:
- Lumbar adjustment maintains the natural curvature of the spine at the lower back and allows users to choose the support that feels right for them.

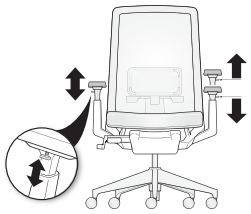
4D Arm



Features:
- Optional 4D arm.
- Arm adjusts in 4 ways:
  -Height adjustment: 4″(102mm)
  -Side-to-side arm cap adjustment range: 3″(76mm) [1.5″(38.1mm) each arm cap]
  -Front-to-back adjustment range: 3 1/2″(89mm)
  -Pivoting: In 20°; out 20°

Benefits:
- Arms support the muscular system of users' neck and shoulders and proper arm support provides back relief. Arms can be an aid in standing or sitting down.
- Height adjustment accommodates for users with varying elbow rest heights so that users avoid lifting their shoulders or leaning sideways to get arm support.
- Front-to-back adjustment adjusts the armrest length, which is important because it allows users to get close to the worksurface while maintaining the effective use of the backrest.
- Side-to-side adjustment ensures a comfortable resting position for the arms with proper support of the forearm while allowing for easy entry/exit of the chair.
- Pivoting provides proper support of the forearm when performing tasks involving keying and mousing.

Adjustable Height Arm



Feature:
- Optional height adjustable arms adjust 4″(102mm) vertically.

Benefit:
- Height adjustment accommodates users with varying elbow rest heights so that users avoid lifting their shoulders or leaning sideways to get arm support.

Forward Tilt

Features:
- Optional forward tilt.
- 5°

Benefit:
- Allows users the ability to elect an upright forward position.

Headrest

Features:
- Height adjustable 4.2″(107mm), articulating movement of headrest pad and mount to fit a wide range of users.
- Headrest is TPU material. Available in two finishes; Black or fog, coordinates with the chairs arm rest color specified.
- See price pages for specification (available on all models).
- To add a headrest to an existing model in the field order service part: Back and Headrest placement, see e-Parts.
- Headrest sent not attached.

General Specifications

Environmental Factors	• Greenguard Children and Schools certified for low emissions. • Lively is produced in an ISO 14001 certified manufacturing facility. • Haworth will take back Lively chairs after their useful life and recycle the components. Please contact Haworth's Material Recovery Center at (616)393-1215. • Lively has 52% recycled content and is up to 97% recyclable.
COM & COL General Information	To order a COM fabric (Customer's Own Material), contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to haworth.com/surfaces > COM Library to find out if the COM you have selected has already been tested and approved. The surface collection site also has information on the Haworth+ alliance program with Carnegie, Luna Textiles, and Maharam as well as our industry-leading Pre-Approved COM program. Approved COMs are placed into Grades based on the fabric pricing; if the fabric pricing exceeds our Grades, they will be priced at Grade A + cost of fabric + 4% handling (North America). Haworth will purchase all COMs unless instructed otherwise. (Leather will also be purchased by Haworth; if the leather pricing exceeds our Grades, cost will be based on fabric Grade E + cost of leather + 4% handling.) If no information is available on the COM you are looking for, refer to the COM section and forms on the surface collection site for information on how to process your test request.
Finishes and Fabrics	A complete listing of finishes and fabrics for Lively seating is available in the surface materials section of the Seating price list.

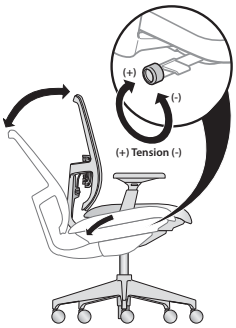
Lively

General Specifications

STANDARD MOBILITY AND ADJUSTABILITY

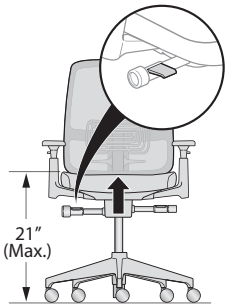
Weight Assisted Tilt Tension Mechanism

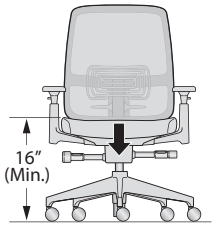


Features:
- Back reclines 24° from the upright position.
- Responds to users weight in combination with the tilt tension to maximize comfort.

Benefits:
- Comfortable relaxed posture.
- Recline allows for the opening of the users' chest cavity providing good airflow to promote alertness.

Seat Height Adjustment

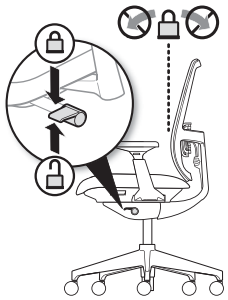




Features:
- Pneumatic seat height adjustment.
- Seat height adjusts 5″(127mm) from 16″ to 21″(406mm to 533mm).

Benefits:
- Ensures the comfort of the lower limbs by avoiding pressure on the underside of the thigh caused by a seat pan that is too high, or decreased thigh-to-torso angle if the seat pan is too low.
- Seat height adjustment also is important in setting the proper hand position and allowing for a proper sitting eye height.

Back Lock



Features:
- Single position Back Lock.

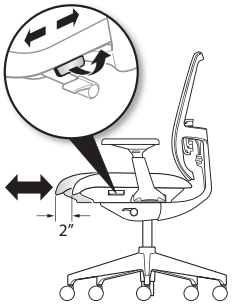
Benefit:
- Allows users to lock the back of the chair in the upright position for tasking application.

Lively

General Specifications

OPTIONAL MOBILITY AND ADJUSTABILITY

Seat Depth Adjustment



Features:
- 2″(51mm) of seat depth range.

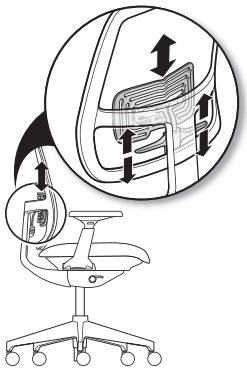
Benefit:
- Supports the thighs, allows users to rest against the seat back for back support, and avoids pressure on the back of the knees of small to tall users.

Forward Tilt

Feature:
- Optional forward tilt.
- Seat pan moves downward 5° from initial position.

Benefit:
- Promotes a healthy spinal posture where your back stays in contact with the chair as a user sits on the front of their chair.

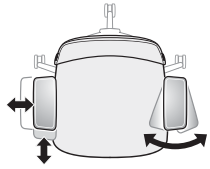
Lumbar Support

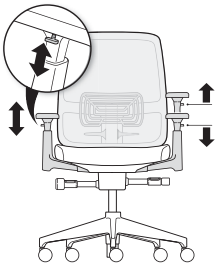


Features:
- Lumbar adjustment adjusts 4″(102mm) in height.

Benefits:
- Lumbar adjustment maintains the natural curvature of the spine at the lower back and allows users to choose the support that feels right for them.

4D Arm





Features:
- Optional 4D arm.
- Arm adjusts in 4 ways:
  -Height adjustment: 4″(102mm)
  -Side-to-side arm cap adjustment range: 3″(76mm) [1 1/2″(38mm) each arm cap]
  -Front-to-back adjustment range: 3 1/2″(89mm)
  -Pivoting: In 20°; out 20°

Benefits:
- Arms support the muscular system of users' neck and shoulders and proper arm support provides back relief. Arms can be an aid in standing or sitting down.
- Height adjustment accommodates for users with varying elbow rest heights so that users avoid lifting their shoulders or leaning sideways to get arm support.
- Side-to-side adjustment ensures a comfortable resting position for the arms with proper support of the forearm while allowing for easy entry/exit of the chair.
- Front-to-back adjustment adjusts the armrest length, which is important because it allows users to get close to the worksurface while maintaining the effective use of the backrest.
- Pivoting provides proper support of the forearm when performing tasks involving keying and mousing.

General Specifications

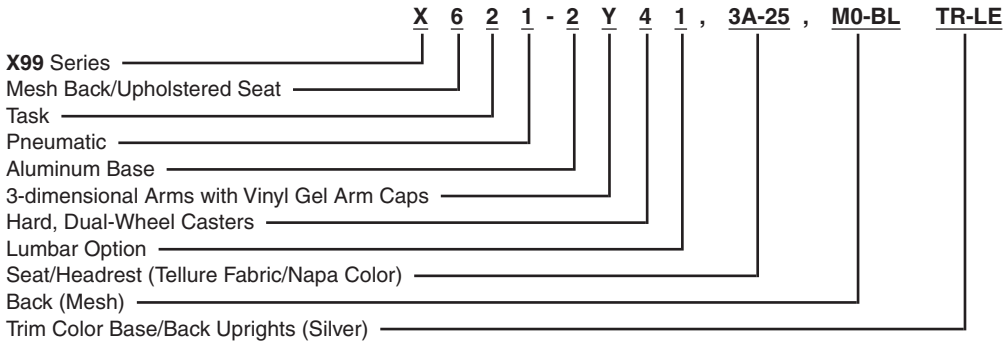
General Guidelines for Product Specification

X99 specification numbers are based on an alpha-numeric logic that identifies a product by model and specific characteristics.

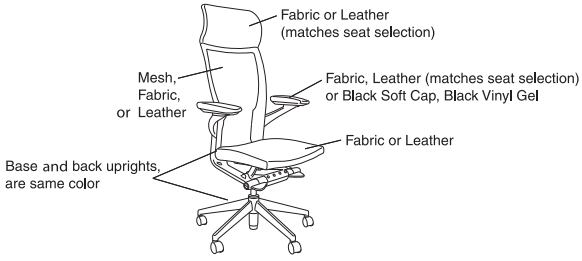
For instance, a product number that reads **X621-2Y41** identifies the product as an **X99** Task Chair, with 3-dimensional arms, mesh back and fabric upholstery seat, pneumatic height adjustment, and hard casters.

The numeric logic for this model with fabric and finish codes is shown below:



There are exceptions to this logic; therefore, always refer to the price charts for product numbers rather than attempting to construct them. Product number modification instructions for additional options appear in footnoted copy for each applicable model.

Beyond the printed product number, fabric and finish codes are required to complete an order specification. To communicate your order clearly, list the product number and finish codes in the sequence outlined on each price page.



Note:

- Fully upholstered models require fabric/leather for seat and back to match. No dual fabrics or materials.
- Arms are black only.

COM & COL General Information

To order a COM fabric (Customer's Own Material), contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to haworth.com/surfaces > COM Library to find out if the COM you have selected has already been tested and approved. The surface collection site also has information on the Haworth+ alliance program with Carnegie, Luna Textiles, and Maharam as well as our industry-leading Pre-Approved COM program.

Approved COMs are placed into Grades based on the fabric pricing; if the fabric pricing exceeds our Grades, they will be priced at Grade A + cost of fabric + 4% handling (North America). Haworth will purchase all COMs unless instructed otherwise. (Leather will also be purchased by Haworth; if the leather pricing exceeds our Grades, cost will be based on fabric Grade E + cost of leather + 4% handling.)

If no information is available on the COM you are looking for, refer to the COM section and forms on the surface collection site for information on how to process your test request.

Finishes and Fabrics

A complete listing of finishes and fabrics for **X99** seating is available on pages 353 and 355-358.

Environmental Factors

Material Off Gassing

In an effort to ensure air quality standards, all **X99** parts suppliers are required to provide Material Data Sheets and/or other documentation, verifying their products do not emit volatile organic compounds (VOC). In addition, the powder-coat paint process used in the manufacturing of **X99** seating is free of VOCs. Our manufacturing processes have also eliminated all use of chlorofluorocarbons (CFCs) and ozone depleting chemicals (ODCs) in the chair's construction.

Recycling

All **X99** seating fabric scraps are recycled, reducing the amount of material sent to landfills, and all chair components disassemble easily to increase the potential for recycling. In addition, all thermo-plastic parts are 100% reprocessable, and all raw materials used in its manufacturing can be recycled at the end of the useful life of the product. Recyclable parts are identified with the recycle symbol where practical.

COM & COL General Information

To order a COM fabric (Customer's Own Material), contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to haworth.com/surfaces > COM Library to find out if the COM you have selected has already been tested and approved. The surface collection site also has information on the Haworth+ alliance program with Carnegie, Luna Textiles, and Maharam as well as our industry-leading Pre-Approved COM program.

Approved COMs are placed into Grades based on the fabric pricing; if the fabric pricing exceeds our Grades, they will be priced at Grade A + cost of fabric + 4% handling (North America). Haworth will purchase all COMs unless instructed otherwise. (Leather will also be purchased by Haworth; if the leather pricing exceeds our Grades, cost will be based on fabric Grade E + cost of leather + 4% handling.)

If no information is available on the COM you are looking for, refer to the COM section and forms on the surface collection site for information on how to process your test request.

Flammability Requirements

Improv Series models are available with an optional fire retardant construction to comply with California Bulletin #133. Refer to the price pages for ordering information. Refer to the Haworth.com/surfaces for a listing of the approved fabrics.

Environmental Factors

Material Off Gassing

In an effort to ensure air quality standards, all Improv parts suppliers are required to provide Material Data Sheets and/or other documentation, verifying that their products do not emit volatile organic compounds (VOCs). In addition, the powder-coat paint process used in the manufacturing of Improv seating is free of VOCs. Our manufacturing processes have also eliminated all use of chlorofluorocarbons (CFCs) and ozone depleting chemicals (ODCs) in the chair's construction.

Recycling

All fabric scraps are recycled, reducing the amount of material sent to landfills, and all chair components disassemble easily to increase the potential for recycling. In addition, all thermo-plastic parts are 100% reprocessable, and all raw materials used in its manufacturing can be recycled at the end of the useful life of the product. Recyclable parts are identified with the recycle symbol where practical.

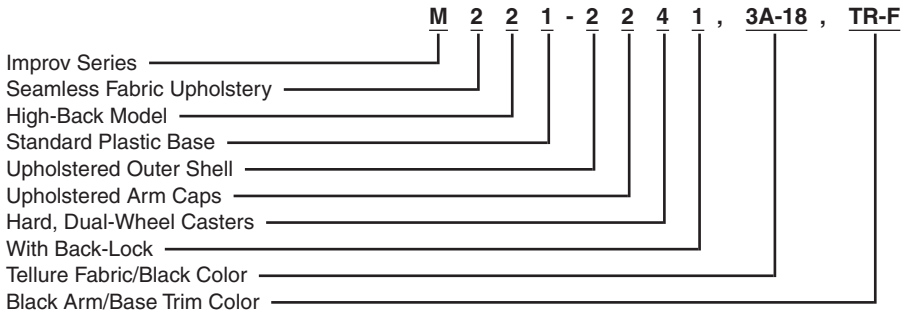
General Specifications

General Guidelines for Product Specification

Improv Series seating specification numbers are based on an alpha-numeric logic that identifies a product by model and certain characteristics.

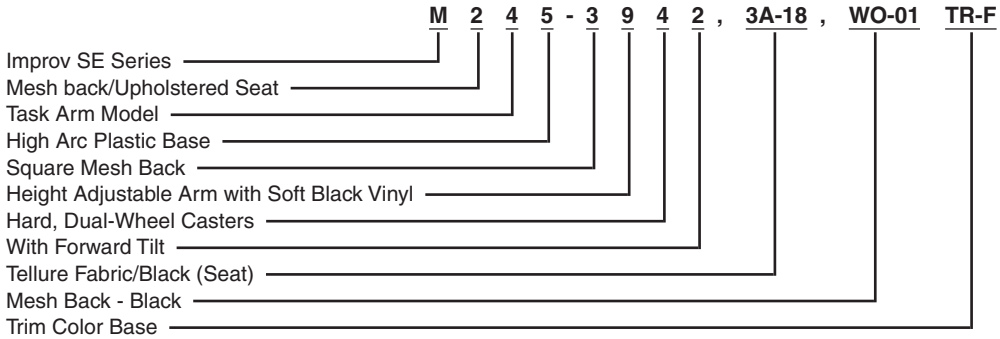
For example, a product number that reads **M221-2241** identifies the product as an Improv high-back chair with seamless upholstered outer shell, pneumatic seat height adjustment, upholstered arms, back-lock, and hard dual-wheel casters.

The alpha-numeric logic for this model complete with fabric and finish codes is shown below:



A ninth-digit suffix of the product number will indicate functional option, such as -F for CAL 133 option.
A product number that reads **M245-3942** identifies the product as an Improv S.E. chair with square mesh back, high arc plastic base, soft black vinyl arms, with forward tilt, and hard dual-wheel casters.

The alpha-numeric logic for this model complete with fabric and finish codes is shown below:



There are exceptions to this logic; therefore, always refer to the price charts for product numbers rather than attempting to construct them. Product number modification instructions for additional options appear in footnoted copy for each applicable model.

Beyond the printed product number, fabric and finish codes are required to complete an order specification. To communicate your order clearly, list the product number and fabric/finish codes in the sequence outlined on each price page.

RUSH

Select Improv Series seating models are marked with a ■ symbol to denote availability on the RUSH program. Refer to the fabric and finish options for each product.

Finishes and Fabrics

A complete listing of finishes and fabrics for Improv Series desk chairs can be found in the back of the price list.
