We serve over 1,000 West Virginia commercial customers and our proposed prices are what are currently acceptable, competitive, and fair prices.

We have not had a price increase since 2012. In that time frame, there have been mandated increases (minimum wage, ACA, etc.) that significantly impact our costs in providing this important service to the State of West Virginia. To document price increases across the enterprise, we submit this table:

	2012	2017	% increase	Data Source

Trucking Cost per Mile	\$1.73	\$1.83	5.8%	American Transportation Research Institute
