Subject: RE: District 2 boiler flooding

Dusty,

Your Emergency request is approved for the water removal and cleanup for the 3 areas affected by the flooding as a result of failed Boiler pipe in the facility. Please follow all emergency procedures in the Purchasing Division Handbook. Please provide all supporting documentation to the Purchasing Division as soon as it is available.

Subject: FW: District 2 boiler flooding

We expect this will go over \$25,000.00 we have an emergency cleanup we had a boiler pipe burst in District 2 and we were able to fix the boiler pipe. However we need to bring in a firm to clean up the 3 inches of water that was already starting to freeze it had gotten in the walls already. We are probably going to bring in generators since the electrical system in the older building keeps blowing circuit breakers. The storeroom, sign shop and the hallways, and the walls has been affected we need the firm need to get remediate the water, clean and make sure no mold was able to get in.

If you have any questions regarding this e-mail, please contact me. Thank you and have a wonderful day!
