Dusty,

Your emergency is approved. Please follow emergency purchasing procedures as found in the Handbook and follow up with documentation for the award within 30 days.

Thanks,
Tara

Do you have any estimated costs for the repairs?

Thanks,
Tara

I am requesting emergency approval to obtain galvanized corrugated bridge flooring for a bridge on County Route 26 in Kanawha County at milepost 1.60. After a call from the public e who live in the area a Bridge inspector was sent out and saw the poor condition of decking and the needed emergent repairs, these issues pose danger to the traveling public and vehicles if they are not properly repaired. Attached you will see the pictures of the bridge.

If you have any questions please let me know,

Thank you,
Mrs. Dusty Smith

Top of bridge deck with multiple repairs.

Severe rot, typical of all piles that are exposed

Typical underside of deck

Existing rusting decking

Failed area of decking where next hole is possible

Previous failures covered in plates, which could puncture tires if repair material comes loose around them and are often slick in the winter, posing a risk for accidents.
