Just a point of clarification, the life safety issue is falling brick and mortar from the building. This purchase will allow for removal of loose and spalling mortar and to stabilize the adjacent area where removal has taken place.

Thanks

Tara L and Crystal,

DHHR is requesting an emergency purchase for the DHHR Diamond Building to erect a sidewalk shed, mortar removal, and helical tie installation. During an assessment of the building exterior, it was determined there is an immediate safety risk to building occupants and persons passing along the perimeter of the building. The estimated cost for this emergency purchase will be \$1,200,000.00 and it is expected to take two years to stabilize the building. The DHHR Office of Purchasing fully supports this request based. If you have any questions or concerns, please let me know.
