Subject: Emergency Request

Mike, I am asking for permission to enter into emergency contracts because we have a broken water line to a Water Source Heat Pump that has caused major flood damage to building 23 in Beckley over the weekend. This will be a two project repair. First is to get the water and moisture out of the building. The second would be the demolition of the walls and replaced with new sheetrock, then finished finishes. Emergency is needed to get the rooms rebuilt for the agencies as soon as possible. Rooms are unusable at this time and mold will set in soon if we don't act quick. Bill
