B.J.

Your emergency request for a 60 day contract to obtain Leachate hauling services for the Jackson County Landfill is approved. Please follow the emergency procedures outlined in the Purchasing Division Handbook, and provide all supporting documentation to this office within 30 days of this approval for contract finalization.

RE: Jackson County Landfill; 60-Day Emergency Leachate Hauling

Dear Mr. Sheets,

The Landfill Closure Assistance Program is requesting approval of a 60-day emergency contract for the hauling of landfill leachate from the Jackson County Landfill to the Sissonville Public Service District (PSD). The estimated cost for this emergency approval is \$250,000.00 and is based on hauling volumes and rates for this site.

This Landfill continuously produces leachate and if significant rainfall occurs, the leachate will overflow the secondary tank and onto the ground potentially causing a danger to human health and/or the environment. The current CMA, DEP200000011, expired on September 4, 2021 and due to the vendor debarment of Joyce Matney and Mountaineer Trucking, the Agency must solicit a new contract for services. The specifications for a new contract are being finalized and will be submitted this week for advertising.

Approval of this 60-day emergency hauling request will allow both Agencies time to issue a new solicitation and will eliminate the immediate threat of leachate contaminating the waterways of the State. If you have any questions or need additional information, do not hesitate to contact me at catherine.n.guynn@wv.gov or 304-561-5154.

Respectfully,

Catherine Guynn
