Mr. Todd Campbell  
Fleet Planning Supervisor  
West Virginia Division of Highways  
Buckhannon, WV 26201

11/17/2020

Good Afternoon Mr. Campbell,

As you are aware, Hino Trucks is currently experiencing an emissions certification problem with our A09 engines. As this is the engine used in the XL model trucks bid to the State by Matheny Motors the issue places Hino Trucks in the distasteful position of being unable to provide dump trucks to the West Virginia Department of Highways in the WVDOH's specified time frame.

Emissions certifications can be a lengthy and uncertain process. At this time it is our best estimate that production of this chassis and engine will resume in January of 2022.

On behalf of Hino Trucks, please accept my sincere apologies for the problems this situation will cause you. In closing I want you to know that this is a Hino Corporate problem. Matheny Motors had no role in it and will continue to be the WVDOH's staunchest advocates.

Feel welcome to reach out at any time if there is anything I may be of assistance with.

Sincerely,
