Subject: RE: Emergency Approval: Reeds Creek Hatchery Recirculating Pump

Angie,

Your Emergency request for the purchase and replacement of the failed recirculation components at The Reeds Creel facility is approved. Please follow all Purchasing Division Emergency Purchase Guidelines, and provide all appropriate documentation as soon as it is available to insure timely issuance of the purchase order.

Subject: Emergency Approval: Reeds Creek Hatchery Recirculating Pump
Importance: High

Good morning.

We have an emergency at the Reeds Creek Hatchery.

A large water pump providing recirculating water for the Reeds Creek Hatchery caught fire and was destroyed. The Hatchery operates on 80% recirculated water, if another pump were to go down we would be in danger of losing all the trout at the Hatchery. We need to replace the pump, motor, and damaged electrical components as soon as possible to insure the Hatchery continues to function.

We anticipate the cost to be \$35,000.

Please let me know if you have any questions or need additional information.

Thank you in advance for consideration of my request.

Angie
